Text: J.W. Nilsson and S.A. Riedel, **Electric Circuits, 6th Ed** (revised), Prentice-Hall, 2001.

Coursepack: **EECS 210 Lab Book** and **EECS 210 Additional Course Notes**, available from Grade A Notes, 1100 S. University Ave., 741-9669.

Problem Sets:

- Weekly problem sets assigned on **Fridays**, due **in Class** one week later.
- No Problem Sets during exam weeks. No late problem sets can be accepted.

Exams:

- Two 50-minute closed-book (1 “cheat sheet” allowed) in-class midterm exams.
- One 90-minute Lab Exam given in the lab. See pink sheets in Lab Book.
- One 2-hour closed-book (2 “cheat sheets” allowed) final exam.

Grade Weights: Problem sets, 10%; Laboratory, 25%; Each midterm exam, 20%; Final 25%

Collaboration: Homework, prelabs, lab reports, and exams are given under the Honor Code. You may work with other students in the class on problem sets and lab reports. Engineering is a collaborative discipline, and learning to work in teams is an important part of your education. However, you must write up the final form of your submission entirely on your own. You may not use, or in any way derive advantage from, solutions sets for previous years. The policy for the laboratory is stated on page 2 of the Lab Manual.
