For students requesting override

We are planning to honor all requests to enroll in EECS 501. However, there are two lecture sections of this course (both meeting MWF @ 8:30), and we wish to keep them, as well as the recitations, balanced in size. Accordingly we will admit selectively to each lecture and recitation, attempting to honor your preferences as much as possible.

In the table below, for those recitations that you can attend please indicate your first, second, third, etc. preference for recitation section (the recitation section determines the lecture section). Be sure to indicate a preference ranking for ALL recitations that you could possibly attend. If we cannot admit you to one of your indicated choices, you will not be admitted.
