## Exam coverage

## Notes: Want a vote

- The following is a rough guess on exam coverage:
  - 35% Exam 1 material (purely)
    - Wasn't original plan, but want to be sure you all have that stuff down cold!
  - 30% OOP material
  - 10% Bits/assembly/etc
  - 10% Matlab (similar to quiz!)
  - 15% Other (using stacks, pass by ref, include files, ASCII, files, etc.)
