

Matlab functions you need to know:

Note that this is only a list of functions. Things like loops, if statements and operators (such as `+`, `\`, `.*`, `.^`), indexing into arrays, concatenation, etc. you need to know too.

- `sum, min, max`
- `find`
- `sin, cos`
- `size`
- `isempty`
- `plot, mesh, hist`
- `mod, sqrt, abs`
- `fliplr`
- `rand, ones, zeros`
- `linspace`

Other commands you should know:

`hold`
`pause`
