EECS Award for Entrepreneurship & Commercialization

Student who exemplifies a partnership between engineering and business through involvement in or startup of a private business, patents, or partnerships with corporations, furthering their field of knowledge or interest.

Mitch Adler
Computer Engineering

Mitch was the founding project director of eRes, a living and learning community for entrepreneurs. He then led efforts beginning 2008 to create an Entrepreneurship Learning Community at Michigan, which he was able to see come to life in 2010 with a pilot program in Mosher-Jordan Hall.

He has worked on a variety of research and class projects with Profs. Michael Cafarella, Ed Olson, Prabal Dutta, Thomas Schmid, and Dr. Mark Brehob.

Mitch is a member of the Engineering Global Leadership Honors Program, the Tauber Institute for Global Operations, and the Program in Entrepreneurship. He is a member of HKN and Tau Beta Pi.
