Calvin McCarter
Computer Science

Calvin takes advantage of the many opportunities offered to students at the University of Michigan, in addition to maintaining a perfect GPA. In his first semester at Michigan, he joined the U-M Robocup Team, which programs robots to play soccer. He now leads the team. He has conducted research under Prof. Wellman and Prof. Bertacco, and is listed as a co-author on a resulting research paper accepted at ICCAD. He has also worked as an intern at the local company, Arbor Networks.

He helped acclimate CoE students from China and Bahrain to life in the United States through his participation in the International Buddy Program, and conversed with international students as a member of the English Language Institute Conversation Circle Program. He also took first place in the Cooley Essay Contest.

This award is presented by the College of Engineering to an outstanding junior who has demonstrated academic excellence.
