

Class 2: GITing Started

```
git init; git status; git log; git add; git commit;
```

Overview

1. Announcements
2. Review
3. Q&A
4. Extras
5. Basic assignment

Announcements

- Basic - Intro due tonight (September 29)
- Basic/Adv - Git 1 due October 11
- Today is Mid-Autumn Festival!

Review

Git

- Git is a graph
- Commits are nodes
- Branch represents a history
- History is a sequence of commits leading back in time

Review

Git

- `git init`: initialize repo
- `git add`: stage files
- `git commit`: commit changes
- `git branch`: create branches
- `git switch`: switch branches

Q&A

Extra

- `git diff`
- `git stash`
 - `git pop`
- Don't version junk files
 - `.gitignore`

Activities

dotfile repo

- Create a repo that has your configuration files
- Useful if you need to set up a new computer!

Activities

GitHub pages

- Can host static webpages for you
- Can also use static site generators
- <https://pages.github.com/>

Activities

Version a project

- Have an assignment in 280/281/etc.?
- Try versioning it with Git!
- Try using a .gitignore

Basic assignment

Addenda
