EECS Undergraduate Announcements for October 15, 2018

Invitation to Michigan Public Health Prospective Graduate Student Day on Sat. Oct. 27!

You are invited to our Prospective Graduate Student Day on Saturday, October 27.

At the University of Michigan School of Public Health we pursue optimal health for individuals, communities, and entire populations with a spirit of compassion and a dedication to inclusion. Through innovation and action, we endeavor to provide the greatest positive impact for our neighbors around the corner and across the globe.

A graduate degree from the School of Public Health can open the door to not only a meaningful career, but a lifetime of fulfillment. As you consider the next chapter of your life, consider a field that makes lasting contributions to the health of all.

The School of Public Health offers a variety of master-level programs, which can allow students to further explore their interest in the field of public health. Attending the event will allow you to:

- Establish additional connections with faculty, staff, and current graduate students at the School of Public Health.
- Discover areas of public health that match your passion.
- Learn about the application process and timelines for applying to graduate school.

Prospective Graduate Student Day on Saturday, October 27 from 8:30 a.m. - 2:00 p.m. for graduate programs in:

- Epidemiology
- Environmental Health Sciences
- Health Behavior Health Education
- Health Management and Policy
- Nutritional Sciences

Registration is required and we hope to see you there!

Engage with Michigan Public Health graduate programs at Prospective Graduate Student Day on Saturday, October 27. Registration is required.

The Horizons Fellowship

The Horizons Fellowship supports 200 outstanding university students in their pursuit to become multidisciplinary leaders using technology. Our fully-funded program provides real-world technology courses geared towards high-achieving college students.

Horizons students have gone onto work at a variety of amazing companies - Google, Facebook, Visa, The Stanford Research Institute, Slack, Yelp, Amazon, McKinsey, Bloomberg, J.P. Morgan, EA Games, and more.

Past Horizontes have come from a variety of schools and backgrounds. Students have hailed from Harvard, Princeton, Yale, UPenn/Wharton, Columbia, Northwestern, Brown, Michigan, state schools, community colleges and more. The world is becoming multidisciplinary in nature. We've had computer science majors,
You’re Invited: Cognitive Science Open House,
Oct. 19, 11 a.m.-12:30 p.m.

Please join us for the 5th Annual
Cognitive Science Open House
- Information Session about Majoring in Cognitive Science -

Friday, October 19th, 2018
11:00 am-12:30 pm

Terminal Coding Competition @ UMich
(Citadel Recruiting Opportunity)

When: Saturday, October 27th at 11am
Where: Michigan League Ballroom

Coding meets e-Sports in Terminal, this year’s biggest and most exciting programming competition.

Terminal is an online game where players compete by writing algorithms that automate gameplay. Players face off in live e-sports tournaments for $100k+ in cash prizes and exclusive job opportunities.

The Terminal Coding Competition is hosted by SWE @ UMich in partnership with Correlation One, and will be sponsored by Citadel LLC and Citadel Securities! Apply below for the opportunity to compete and to be considered for internship and full time opportunities with Citadel!

Apply Here!

New Mentoring and Tutoring Organization

Are you interested in helping to create a system of undergraduate tutoring for introductory undergraduate CS courses, as well as providing mentoring opportunities for students who are new to CS and the University of Michigan as a whole?

This is a need due to the large course sizes in some introductory courses and a fear of asking for help in such a large class. Students often tend to feel like they’re alone in not understanding concepts, and this organizational and systematic tutoring can help get rid of that stigma while also providing everyone with the help it needs!

Moreover, it can be a place to provide an opportunity for those who are passionate about teaching to create a community together and learn off of one another to become the best mentors, teachers, and role-models possible!

More specific information about preliminary ideas can be found here: https://docs.google.com/document/d/18sbXtwxMCv6D777bhlKv9No6QGXoRX
For this to become a reality, we need a large group of students passionate about making tutoring happen! There are lots of ideas floating around, and we look forward to hearing other people's ideas to get something like this instituted at Michigan! If this idea sounds interesting to you, and you are interested in helping start this and be one of the first mentors/tutors please fill out the form here and we will contact everyone for a meeting soon: https://goo.gl/forms/2Tb2wyZpd5VLmHF2. For more specific information, contact Fahad Kamran (fhdkmrm@umich.edu).

FEV Consulting, Inc. Case Day!

We invite you to our FEV Consulting Case Day in our offices in Auburn Hills on Friday, November 2nd, 2018. Topic: "Changing automotive industry – How autonomous driving and Shared Mobility are influencing future business models". Get to know FEV Consulting, Inc. as part of a one-day event with our consultants. You will conduct a typical case study during the day in groups supported by one of our consultants. Afterwards we would like to learn more about you during a joint dinner. The successful participation will be certified with an individual certificate. We are looking for outstanding students in the field of Engineering, business engineering, or comparable courses of studies being at least in the 5th semester. Is working on strategic projects in dynamic teams is exciting to you? Then apply by e-mail to matz@fev.com with all your documents by October 19th, 2018. We require the following documents:

- Resume
- Unofficial transcript
- One sentence statement of why you should be selected for this Case Day

For more information about the event, click here.

*This information is sent on behalf of the individuals listed in each announcement. These opportunities are not directly affiliated with the EECS Undergraduate Advising Office.*
