RE: 2090301935

Officer Laginess- attached is the notification I received earlier today, with their photos, notifying me of the damages. I have also attached a photo of damages to the RME-69 radio. Everything else is minor in comparison.

Included on this email are the building manager Paula Pernia and our faculty advisor Dr. Mortazawi.

The damages include;

1. RME-69 Radio Receiver- this radio is of significant importance. Damages includes a shattered glass screen, a broken / sheared off right tuning dial with suspected damage to the tuner and a seized left tuning dial with suspected damage to its dial and tuner. Cost to repair is unknown at this time. Any additional damage is unknown at this time. This radio is circa 1930-1940.

4. Lamp Bulb: circular light bulb is $5 at Home Depot.

5. Reinstall shelving & hardware...

Subject: Urgent: Ham Shack bad news
To: W8UM Ann Arbor <palmy@umich.edu>, <kitn@umich.edu>

Good morning John,

Hope you are doing well but I've got some bad news. I'm a not-so-active member of W8UM and don't know who exactly to contact regarding shack issues. This morning I decided to swing by the shack before I leave town for the summer tomorrow, and as soon as I unlocked the door there was a pretty nasty surprise. I attached some pictures and you can see
