The Michigan Daily

Vol. XXI. ANN ARBOR, MICHIGAN, TUESDAY, MAY 23, 1911. No. 164.

VARSITY DEFEATS OBERLIN HANDILY

Frenz and Verheyen Share the Pitching Honors For Ann Arbor Tossers

FINAL SCORE RESTS AT 8 TO 1

(Special to the Michigan Daily.)

Oberlin, O., May 22.—Michigan's wandering ball tossers slaughtered the locals on their own diamond this afternoon, the Oberlin nine finishing on the short end of a 8 to 1 score. Hard hitting by the Wolverines rolled up the Michigan score while the lone Oberlin count came as the result of errors. The visitors touched up Nichols for thirteen clean bingles which, coupled with Oberlin errors, made the score a large one.

Frenz and Verheyen, who shared the pitching honors, had the home batters helpless. Frenz pitched brilliant ball until he was derricked in the fifth round to let pinch hitter Munson wield the war club in his place. The Dutchman finished the game on the mound working in scintillating style, being invincible with men on bases and fanning eight. Borleske handled the receiving end in splendid fashion.

OBERLIN COUNTS FIRST.

The Buckeyes got away in the lead by sneaking an unearned count across the rubber in the second round. Frenz waxed generous and issued free transportation to Pyle who journeyed on to the second sack when Borleske passed a ball. The Wolverine defence went on a vacation at this stage in the proceedings, a pair of miscues letting the runner count.

Nothing happened in the scoring line for the locals until the fifth inning when four Michigan runs counted. Hays started the trouble with a single and "Shorty" McMillan followed with a double. Munson, who had been summoned from Ann Arbor by telegraph after the loss of the Ohio State contest, was sent up to hit for Frenz and proved his worth as emergency sticker by driving in both runners and putting Michigan in the lead with a stinging drive to the right center. Before Nichols could check the Wolverine assault two more runs counted. Just to make their supremacy unquestioned the travelers started another run getting bee in the last round. Bell was the hero of the ninth inning attack clouting out a triple with the bases drunk that brought the count up to eight.

Coach Rickey experimented with his infield again, sending McMillan to his old place at third and Marlin back to short. "Shorty" played a strong game.

The score follows:

OBERLIN	AB	R	H	PO	A	E
Young 3b	3	0	0	2	1	1
Nichols p	3	0	0	1	7	0
Henderson rf	4	0	2	2	0	0
Pyle lf	3	1	1	0	0	0
Burroughs 1b	3	0	1	14	1	1
Clark c	4	0	1	5	1	0
McMillan 2b	4	0	0	1	2	2
Miller c	4	0	1	0	0	0
Colmery ss	3	0	1	2	3	2
Totals	31	1	7	27	15	6

MICHIGAN	AB	R	H	PO	A	E
Hill 1b	4	2	2	5	0	2
Marlin ss	5	1	2	2	3	2
Bell lf	4	0	1	1	0	0
Mitchell rf	5	0	1	0	0	0
Waltner cf	4	1	2	6	1	0
Hays 2b	3	1	1	3	3	0
Borleske c	3	0	0	11	4	1
McMillan 3b	4	1	2	5	1	1
Frenz p	1	1	0	1	1	1
Verheyen p	2	1	1	1	2	0

TENNIS TEAM WINDS UP TRIP BY TYING CORNELL.

Michigan's touring tennis players wandered into Ann Arbor Sunday with the report of a 3 to 3 tie with Cornell as the finish of the eastern trip. The quartette did not meet with the best of success on the invasion but the teams that were scheduled were the best that the east has this year and the Wolverines were in the midst of a bad slump. At Cornell the men began to find themselves but were unable to nose out a win. The summaries follow:

Cummings (C) beat Donovan (M) 6-4, 2-6, 6-0. Shafroth (M) beat McClave (C) 6-1, 6-2. Norrington (M) beat Hoagland (C) 6-0, 4-6, 6-1. Porter (C) beat Webster (M) 6-4, 6-4. Porter (C) and Cummings (C) beat Webster (M) and Norrington (M) 6-4, 2-6, 6-4. Shafroth (M) and Donovan (M) beat Hoagland (C) and McClave (C) 3-6, 8-6, 6-2.

NAME BANQUET SPEAKERS

Senior Lits to Have Big Time Next Monday in Detroit

Convening for the last time, the senior lits will banquet in Detroit next Monday night at eight o'clock at the Hotel Cadillac. Fred Lawton will preside and the following toasts will be delivered:

Herbert Goetz, Athletics; Prof. C. H. Van Tyne, The Great Mystery; Arthur Curtis, Education & Co.; Mayor W. R. Thompson, The Tide of the Times; John T. Sullivan, The Wide, Wide World; Prof. Robert M. Wenley, A Bit of Wisdom; Ralph J. Block, The Art of Life; John Gutknecht, The World's View of a Scholar.

Tickets, including banquet and railroad fare, may be obtained for $2.50 from the following committeemen: Stanfield Wells, R. Finkenstaedt, H. Goetz, and H. G. Myser.

AUTOMOBILE EXPERT GIVES ILLUSTRATED TALK TONIGHT.

A lecture illustrated with moving pictures, on "Building Automobiles," will be given tonight by Richard Miles, M. E., of the E. M. F. branch of the Studebaker company.

The films cost the company about $20,000 to get out, and this will be practically the first time the public has had a chance to see them. Details of the jig construction and of the turret lathes which have enormously lowered the cost of production are shown in a manner which could only be equalled by a personal trip through the factory.

The lecture will be held in the west physics lecture room at 8 o'clock, and will be open to the public.

HAS NO FAULT TO FIND WITH STUDENT CONDUCT.

"If the University of Michigan Athletic association always conducts affairs as they were conducted Friday and Saturday, Ann Arbor is the place for the annual interscholastic meet."

This statement was made by Principal W. W. Warner of Saginaw who came to Ann Arbor to investigate personally the interscholastic meet and the matters pertaining to it binted at by the Michigan Schoolmasters' club in a recent meeting.

"What followed Saturday night," said Mr. Warner further, "is only true of any aftermath of high school sports. There was no rowdyism, but just the spirit of boys, which is to be expected. I can understand that a few might have had a better time, but I did not find it so."

WIRELESS STATION IS NEARLY READY

Airline Communication Will be Established With Ypsi in Near Future

WIRELESS TELEPHONE LATER

Poles for the new wireless station that is being installed by the engineering department, have been set up on the south side of the engineering building. There are two sixty foot poles which will give height enough for local messages. The wires will be run between these poles and connected with instruments in the engineering building this week. It is hoped to have the station in operation by the end of this week.

The station will have to work in conjunction with the Ypsilanti station and the local high school plant for the present. It is planned to run some of the wires to the top of the heating plant stack, thus securing a height sufficient to make communication with Detroit possible. These, however, will probably not be put in place before next year.

The station will be equipped with facilities for all kinds of experiments in wireless telegraphy. The arrangement of the poles allows the lowering and raising of the wires and the changing from different systems of transmission and receiving. In time the department plans to install a wireless telephone and conduct experiments along that line.

FAMOUS PEOPLE TO COME

S. L. A. Secures Some Big Names For Next Year's Program

An array of famous people has been secured by the Students' Lecture Association for next year. The leaders of the program are Senator Robert M. LaFollette, of Wisconsin; Francis J. Heney, the noted California attorney; and John Mitchell, former president of the United Mine Workers of America. Mr. Heney comes to the university for the first time while both Mr. Mitchell and Senator LaFollette have appeared here in past years.

The Donald Robertson players, who created much favorable comment this year, will return and give two numbers. Catherine Ridgeway, the famous dramatic reader, will also appear in University Hall next year offering some of her noted interpretations. Hamlin Garland, the author of "Main Traveled Roads," is the other speaker so far secured.

The association expects to have two more speakers to be chosen in the near future.

WILL HOLD NOVICE CROSS COUNTRY RACE TOMORROW.

A novice cross-country race will be run Wednesday afternoon at 4:15 providing the weather is propitious. If a sufficient number enter C. C. Cook will be awarded the first two men to finish; otherwise but one set will be given out. No men who have won their letters will be eligible to compete.

COMMERCE CLUB MEETS TONIGHT.

The regular monthly business meeting of the Commerce Club will be held tonight at seven-thirty in the Economics laboratory. Officers for next year will be elected and the constitution will be revised.

ELECTRICAL ENGINEERS ARE BUSY WINDING LOAD COILS.

Several students in electrical engineering are spending the warm afternoons in the research room of the telephone and telegraph department winding load coils for an artificial cable that is being constructed there. It is rather tedious work as each coil takes about one day for winding and there are twenty-five of the coils.

The cable, when completed, will have all the characteristics of a fifty mile cable but will only be about ten feet in length. Load coils are used in order that the voice may be transmitted over the cable. When finished, the apparatus will take its place among the few of its kind in the country, there being only seven or eight of these in colleges and large electrical plants. A single apparatus costs over $500 to construct.

ALUMNI ARE ENTHUSIASTIC

Parker Things Union Will Be Able to Get Money for New Home

"Bob" Parker, '04-'06 L., and wife, formerly Miss Bessie Stafford, '05, of Ann Arbor, now residents of Southern California, are spending the week here. Parker, who is now managing editor of the Pomona Review, of Pomona, Cal., was active and prominent in campus affairs while in college, being leader of the Glee Club for three years and first president of the Michigan Union. The active campaign now on for the new club house has interested him greatly.

"How does Ann Arbor seem to me after six years absence? Why just the same—only when I heard those freshmen give the yell of 1914 it seemed as though the aches of ages were in my bones. But your crackerjack of a band saved the day for me by playing that glorious old "Victors" march written by "Ach Louie" Elbel; after that I just walked over to the campus, rolled my trousers up at the bottom and in the presence of no one but my wife, gave nine rahs for myself and forthwith was a college boy again. And," Mr. Parker added, "I'm going to wear them that way until I get back to California and my partner makes me turn them down again."

"How do the Alumni feel about the Michigan Union?" asked the reporter.

"When they understand it," Parker replied, "they are enthusiastic in its support. But the enthusiasm of the alumni depends very much upon the enthusiasm of the student body. We will most certainly get the great club house we have planned; how soon we shall get it depends on how you who are on the ground go after it. Scattered over this old world are over 33,000 alumni, and with varying degrees of intensity, they love this institution as their alma mater. The rank and file are willing to do all their means justify. But you have first got to educate them to the pressing need of this Union Club. You have got to convince them that such a club will make life not only pleasanter here for the professors and the students but that it will be instrumental in turning out broader, better, cleaner Michigan men. When they understand this, and further, that such a club will be a home to the old grads when they return, then I am positive the money will be forthcoming. I confidently believe that before long one alumnus or several alumni will give a lump sum of several hundred thousand dollars on condition that the alumni in general subscribe an equal amount. Then it is up to you men on the campus. You show your enthusiasm and interest and we will show ours; you just dig in after us and we will dig up for you."

SUNDAY'S TEACHINGS CAUSE RESTITUTION

Women's League Receives $4.10 From Convert Who Stole Lemon Ice in 1902

HE'LL ALSO RETURN THE CAN

"Billy" Sunday may boast another feather for his cap. His teachings have reached the campus. Incidentally the treasury of the Women's League is richer by $4.10 as a result of the baseball evangelist's campaign in Toledo. The money came yesterday and with it the following letter:

Toledo, Ohio.
May 21, 1911.

To the Pres. of the Women's League—

In December of the year 1902, your league gave a reception to the freshman girls at Barbour gymnasium and at that time I carried out from the gymnasium, a three gallon can of lemon ice from under the stairs going up from the outside. Several other fellows helped me dispose of the "goods." But I carried the can and so I am responsible for the theft. Since Evangelist "Billy" Sunday has been conducting meetings in this city for six weeks, I have decided to square this matter. For the Christian man this is the only thing to do. I am therefore enclosing my check for $4.10 which is to cover the cost of three gallons of lemon ice at 90 cents per gallon and interest amounting to $1.40.

I will also send the can back for I have it at home. If you desire you can publish this letter in the Michigan Daily to show that when one is a Christian everything must be made square with everyone else. Trusting that this is satisfactory, I am,

Yours very truly,

FRESH LAWS NOSE OUT '12 ENGINEERS IN GOOD GAME.

	WON	LOST	PCT
Junior Lits	3	0	1.000
Fresh Laws	3	1	.750
Junior Eng.	2	2	.500
Senior Medics	0	1	.000
Homeops	0	2	.000

The fresh laws finished their regularly scheduled work in the interclass baseball semi-finals yesterday when they defeated the junior engineers at South Ferry Field by the score of 4 to 1. The victory gave the barristers a boost in the percentage column and allowed them to finish at .750. Should the junior lits lose to the senior medics in today's game, the laws will get a chance to play the lits for the campus championship, but should the lits win, the championship goes with the victory.

The score by innings follows:

Fresh Laws . . . 1 1 0 0 2 0 *—4
Junior Eng. . . . 0 0 0 0 0 1 0—1

Batteries—Lanigan, Nelson and Butler; Whitman, Davidson and Miner; umpire, Snadir.

Today's contest brings together the junior lits and the senior medics.

PROF. KELSEY IN ATLANTIC CITY.

Prof. F. W. Kelsey is in Atlantic City where he is to speak at the general assembly of Presbyterian churches. He will return Wednesday.

GRADUATE SCHOOL ANNOUNCEMENTS OUT.

The official announcements of the graduate school for 1911-12 have been received and are being distributed.
