cussion between ministers and Y. M. C. A. but I may ask you to please note the following:

The new organization among faculty members is not "planning the financing and building of a private gymnasium and clubhouse." Of course, we reserve the right to do so at any time if we see fit. But the fact is that we thoroughly realize the importance of our cooperation with the greater Michigan Union project and, far from doing anything that might conflict with the Union, we have done all that is in our power to assist the latter. We endeavored at first to get accomodations in the present Union building. This was absolutely impossible. We then decided to do the next best thing and we are now trying to arrange for quarters in this new Union building, even though this inevitably means that we shall live in temporary quarters until the new Union building is finished. The fact that Dean Bates, who is prominent in the Union is on our committee of organization should alone suffice to indicate that we wish to maintain the closest kind of relations with the Union.

Yours very truly,
C. L. de MURALT.

In regard to the above communication a prominent faculty member when interviewed last night, said, "There was no defense in the replies offered by the Daily as the probable stand of the Y. M. C. A. in regard to these charges. Take for instance, the 'inconsistent" charge against a certain portion of the faculty. The faculty club and the Y. M. C. A. cannot be compared in this or in any other project. The former is, and will be, a purely university organization; the Y. M. C. A. is an institution wholly alien in origin, aims and ideals to the University of Michigan, and forms no part of it. It is an unwarranted presumption to put the faculty clbuon the same level with the Y. M. C. A.

"Then as to the defense that several local churches have not been interfered with by the Y. M. C. A.'s work as shown by the increased attendance during the last few years. I know this is in no way due to the Y. M. C. A. but to the strength and personal efforts of the ministers who have occupied the pulpits of the Congregational church, which was one of the churches mentioned particularly. I refer to Reverend C. S. Patton, who was here until a year ago.

"But this is too short a space for me to treat the matter as it should be treated. You can expect a more detailed account later."

UNIVERSITY CALENDAR

Velvet

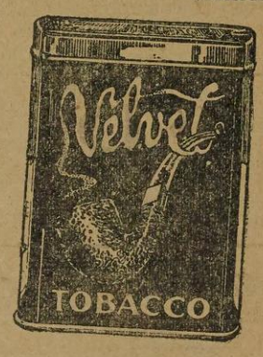

THE SMOOTHEST TOBACCO

IN a debate, there is no evading the issue. Does your smoking tobacco bite or doesn't it?

Velvet is aged 2 years—which eliminates the leaf harshness and mellows and tones the richness. Produces a fine flavor and a smoothness that smokers appreciate above all else.

Gentlemen—there is only one side to this smoke question—that's the smooth side—"Velvet." Ask for Velvet at your dealers.
