Any member of the association is eligible to run for either secretary or treasurer on the presentation of a petition signed by 75 members of the association. A petition nominating Louis Huller, '14L, for the office of secretary was presented last night and the athletic board will approve it today.

ANNOUNCE THE '13 HOCKEY SCHEDULE

Coach Douglas and Manager Du Bois Meet Class Managers to Discuss Season's Work.

SCHEDULE FIRST GAME JAN. 17.

Hockey Manager F. W. Du Bois met the managers of the different department hockey teams last night at the Union and drew up the schedule for the season's contests. It was decided that the games would be played in three series, one section to be finished before the examinations.

The science team is a combined aggregation of the dental, homeopathic and pharmic departments. The medic department will not enter a team in the race on account of a lack of hockeyites among the doctors. This leaves only four teams to battle for the flag.

Coach Douglas, who will have charge of all the squads, attended the meeting and told of the great importance of proper training to a real live hockey team. It was arranged that the different squads will have regular afternoons to practice upon the rinks. All the games will be played in the afternoon with a possible exception that some of the science contests may be played in the evening.

The first third of the schedule is as follows: lits vs. science, January 17; engineers vs. laws, January 18; science vs. laws, January 20; lits vs. engineers, January 22; lits vs. laws, January 24; science vs. engineers, January 25.

MEDICAL COUNCIL CONSIDERS GRIEVANCES OF MANY SCHOOLS

At a recent meeting of the council of medical education of the American medical association in Chicago, Dr. W. C. Vaughan, of the medical department, with the four other men who constitute this body, considered grievances presented by medical schools of this country. The most important question which came up for discussion dealt with the entrance requirements to medical schools. Modern languages proved to be one of the stumbling blocks to many of the institutions. The University of Tennessee which complained that it was not raised high enough by the association, succeeded in having certain data accepted favorable to itself and in being placed in a high class. The classes run from A to D and Michigan has the distinction of ranking high.

J-HOP PLANS ARE NEARING COMPLETION

General Committees for Annual Function Meet and Round Into Shape Arrangements for Big Affair.

RESOLUTIONS PASSED TO BAR QUESTIONABLE DANCES

Guests Will Not Wear Flowers; Efforts to be Made to Serve Refreshments in Good Style.

Definite action regarding the nature of dances at the 1914 Junior hop was taken at the meeting of the combined committees at the Alpha Delta Phi house yesterday afternoon. The committee on dance resolutions reported that the approved dances will be the waltz, two step, Boston, and tango. All fast dancing as well as all forms of an exaggerated and questionable nature will be strictly barred. Moreover dark dances which have been a distinctive feature at previous hops will be discontinued. On account of the opinion recently expressed by the faculty, the hall must be properly illuminated at all times. There will, however, be several feature dances, and the committee will communicate with the orchestras in regard to them.

Various Contracts are Arranged For.

The music will be furnished by the Fisher orchestra of Kalamazoo and the Pinzel band of Detroit. Both aggregations have agreed to play until 3:00 a. m. As usual there will be 48 dances. Decorations, which are in charge of the National Flag Decorating Co., of Detroit, will be entirely new. The old maize and blue canopy will be discarded, and with a new canopy and a number of features in the line of large hanging baskets, the general effect will be especially unique. The contract for invitations and programs was let to the E. A. Wright Co., of Philadelphia, who have handled the work before.

The committees decided that no favors are to be worn by the guests at the hop itself. The committee on refreshments made no definite report, but it was decided that the contract will not be given to the local caterer who handled the job last year. The contract will be let in the near future to a Detroit firm. By a new system of serving, it is expected that much of the usual waiting will be avoided. It was decided to make the recital to be given by the musical clubs on Thursday evening, preceding the hop, an informal affair.

Petition of Delta Chi Laid on Table.

The petition of Delta Chi to be incorporated in the hop management was tabled until the clause in the constitution relating to the matter is examined. Delta Chi has had floor space at the hop for about 15 years.

The hop committees will meet at Rentschler's at 12:15 o'clock today for a Michiganensian picture. The next regular business meeting will be held Thursday at the Alpha Delta Phi house at 4:30 o'clock.

Independent Hoppers Meet Today.

Independents, who expect to attend the 1914 affair, will meet at the Michigan Union at 4:30 o'clock this afternoon. The meeting will serve as a get-acquainted function and definite plans will be made both for the hop and the party on Saturday evening following.
