No. 82 ANN ARBOR, MICHIGAN, WEDNESDAY, JANUARY 22, 1913. PRICE FIVE CENTS

LAW ELECTION FOR COUNCIL IS HELD VOID

Protest Against Junior Law Election of Representatives Is Allowed by Act of Student Council.

WILL HOLD NEW ELECTION FIRST OF NEXT SEMESTER.

Action of Council Exonerates Candidates From All Blame and Makes Them Eligible.

After being in executive session for half an hour last night the student council decided to allow the protest presented by Edward Kemp and Sylvan Grosner against the junior law election of January 13 on the grounds that friends of both candidates solicited votes for them although without the knowledge of either candidate. The sentiment of the council was embodied in the following motion:

"It was moved, seconded and passed that the election of student council representatives from the junior law class on January 13, 1913, be declared invalidated; that a new nomination and election be held and that Messrs. W. J. Laidlau and G. C. Grismore be not declared ineligible for student council; and that the campus be notified that Messrs. Laidlau and Grismore are entirely exonerated from all blame."

In other words the council wishes to thoroughly impress the fact that the two candidates are entirely innocent of the charge of soliciting votes; that merely the over-eagerness of their friends was responsible for the protest and the subsequent invalidating of the election; that the action taken was absolutely necessary to guard against the possibility of the repetition of the occurrence. Either of the two men who were candidates may run again in the next election as they had no knowledge of campaigning in

(Continued on page 4.)

HOP COMMITTEES REPORT ON WORK

Increased Expense of Social Function Will Better Every Feature of Event.

REFRESHMENT PLANS ARE NEW.

At a meeting of the Junior hop committees yesterday afternoon plans for the big function neared completion. Added features in every department will make the annual affair a bigger and more representative event than it has ever been before. Already nearly $300.00 more has been spent in preparation for the hop than at this time last year. The added expense is expected to make every part of the hop more distinctive. At present almost as many have signified their intention of attending the hop as attended last year.

Invitations Are Now on Hand.

Invitations have been received from E. A. Wright of Philadelphia and may be received at the Beta Theta Pi house from Wendell Smith, chairman of the invitations committee. Admission will be more than last year on account of the added expense. The price was discussed yesterday but will not be definitely decided upon until next meeting.

The arrangements committee reported in regard to the contract for refreshments which was let Saturday to Mrs. M. O. Smith of Detroit. This important part of the hop will be greatly improved. The Detroit caterers will serve 200 at one time and lots were drawn for places in being served. According to the scheme decided upon yesterday there will be three sections, one of which will be served at a time, thereby doing away with all former confusion.

(Continued on page 4.)

THE WEATHER MAN

Forecast for Ann Arbor—Wednesday, generally cloudy with the probability of snow; warmer; moderate southerly winds.

University Observatory—Tuesday 7:00 p. m., temperature, 20.6; maximum temperature, 24 hours preceding, 24.0; minimum temperature, 24 hours preceding, 11.8; average wind velocity 10 miles per hour.

To Inspect Stage Frames in Chicago.

In order to secure more definite ideas and details regarding a portable stage for the new Hill auditorium, Superintendent of Grounds Marks will make a trip to Chicago week after next, where he will inspect the steel frame models such as are used in the Thomas Orchestra hall of that city.

UNION OPERA TO BE STAGED OUT OF TOWN

Senate Council Grants Permission for Performance of Annual Opera in Detroit on April 19.

TOUR WILL MARK NEW EPOCH FOR UNIVERSITY DRAMATICS

Detroit Alumni Association Will Manage Seat Sale For Production.

For the first time in the history of university dramatics, a Michigan Union opera will go on tour this year, permission having been granted by the senate council yesterday afternoon for the 1913 production to be given in Detroit on April 19. As this date comes soon after the resumption of school following the Easter vacation, it is expected that those who participate in the presentation and management of the opera on its Detroit trip will not be compelled to interrupt their studies materially, this having been one of the points which has prevented the operas in former years from going out of town.

The Detroit performance, it is expected, will be given in the new Washington theater in that city. This playhouse is now in process of construction, and it is probable that the Union opera will be the initial attraction on its boards. The sale of seats and the advertising for the Detroit presentation will be handled by the alumni association of that city, which is sponsering the trip.

To Take Entire Production.

According to the General Chairman Philip K. Fletcher, '13E, who with President Edward G. Kemp, '14L, of the Michigan Union, was in conference with the senate council yesterday afternoon, the entire 1913 production will be carried to Detroit. Several cars and coaches will be required to transport the bevies of dimply danseuses, stately chorusmen and rollicksome principals, as well as the scenery and properties, for the show.

It has been decided to call a meeting of the men trying out for reading roles in the opera for tomorrow evening. At this time the selected tryouts, to whom portions of the book to memorize for competitive rendition after exams. The choruses will not be called out until the beginning of next semester, at which time active preparation for the 1913 performance will be commenced.

Y. M. C. A. Raises a Large Fund.

Officials of the city and the university Y. M. C. A. have been conducting a canvass for funds which closes this evening. An attempt is being made to raise a total of $7,700, which includes a fund for the Y. W. C. A. as well. Last week $4,500 had been collected, although not more than half of those on the list had been solicited. Wellington H. Tinker, of the University Christian association, said last night that all were confident of their ability to raise the necessary sum, and present indications are that the amount will exceed their expectations.

BURNETT WINS IN POSTER CONTEST

Judges Select His Drawing as Best Fitted for Advertising Annual Union Opera.

WORK IS OF HIGH CLASS

At a meeting of the judges for the Michigan Union opera poster contest, held yesterday morning, the drawing submitted by Leo N. Burnett, '14, was picked as the winner. Burnett will receive the first prize of $10, and his design will be emblazoned on the prints used to advertise the annual opera. Prof. William C. Titcomb and Librarian Theodore W. Koch constituted the committee which made the award.

Burnett's poster represents a knight and lady fair on board a more or less rampant charger. The valiant gentleman is draped in a becoming suit of iron, while the clinging creature at his side is garbed in a flowing gown of old rose hue. The back-ground of the picture is dark olive, with the lettering in black and white.

Second Place Won by "Bill" Fanning.

Second honors in the contest go to William S. Fanning, '13E, whose effort, while possessing much artistic merit, was adjudged as hardly available for advertising purposes. Fanning's drawing pictures an armored knight, also proudly astride a prancing steed, and holding erect a deadly spear. On the left of the poster, the back-ground is panelled to reveal a glimpse of a green forest with a feudal castle on a precipice beyond. Green, yellow and blue are the colors used. It is probable that Fanning's production will be used on the sheet music for the opera.

Two tickets for the opera will be awarded as second prize, while the third prize of one ticket will go to Herbert L. Burgess, '13E, whose entry was judged as highly creditable. Honorable mention was awarded to the contribution handed in by William G. Sprague, '15E.

According to Prof. Titcomb, one of the judges in the contest who has served in this capacity for several years, the poster picked for first place is of exceptional worth. "Burnett's drawing is practically perfect for poster purposes," said Prof Titcomb yesterday. "The lettering is especially clear and attractive, while the design is without a fault, and almost equal to professional work."

The winning posters will not be put on exhibition until after exams, at which time the name of the 1913 opera will also be announced.

REGISTRAR'S OFFICE HOURS TO BE LONGER NEXT WEEK

Change is Made to Aid Students in Making Elections For Coming Semester.

In order that all students may have ample time to arrange their next semester's elections, Registrar Hall's office will be open from Monday until Friday during the first week of examinations. His office hours will be from 9:00 o'clock to 12:00 and from 2:00 to 5:00 o'clock in the afternoon. A fee of $1.00 will be charged for all blanks not turned in by Friday. Students enrolled in combined courses will be compelled to fill out blanks for each department. Extra hour petitions may be filed with the election blanks.

Freshman students will receive their blanks in rhetoric classes Thursday and Friday. Those who make changes in their courses must first consult with Prof. Rankin, chairman of the committee on elections, who will be in the registrar's office from 2:00 to 4:00 o'clock next week.

Will Try to Communicate With O. S. U.

Attempts will be made at 11:00 o'clock tonight to communicate with the Ohio State university wireless station by the local plant. Although talks are held almost daily with Cleveland stations, attempts to communicate with the state university at Columbus have failed on account of the weakness of their station. But as improvements have been made it is expected that the effort tonight will be successful.

SEES DANGER IN LITTLE POLITICS

Governor Hadley Believes Greater Interest in Politics Would Prevent Present Evils.

AVOIDS BIG POLITICAL TOPICS.

"The evils of public politics are more often due to partisanship than to dishonesty," said Governor Herbert S. Hadley of Missouri in a lecture delivered last night in University Hall, "and instead of having too much politics it is my belief that we have too little. The great problem of our government today is to reconcile the rules of business and the laws of men."

Governor Hadley's remarks covered the broad field of our political, industrial, and judicial systems; in which he sketched the accomplishments of the past, the problems of the present, and the possible solutions of the future.

In speaking of the influence of colleges in politics the speaker declared they taught the doctrine that anything whatever was preferable to running for office, and that politics was an unworthy and unprofitable field.

"I am glad to know that Michigan men are practicing what I preach," he said when informed that there were more Michigan graduates in Congress than those of any other institution. "I believe that college men can best solve the questions which are now before the country; involving, as they do, principles of social and political science."

Governor Hadley refused to commit himself upon questions of national political significance, declaring that his visit was social rather than professional. His reminiscences of his previous visit to Ann Arbor as a member of the victorious invading debating team from Northwestern University were amusing in the extreme.

While in the city the governor was the guest of Prof. H. E. Riggs, of the engineering department, who was one of his classmates at Kansas University. He was banqueted by Delta Sigma Rho fraternity at the Union last night, and left early this morning for his home.

NEW POWER PLANT IS PUT INTO OPERATION YESTERDAY

Turbines Will Generate 1500 Kilowatts For Local Supply and Nearby Towns.

Marking the culmination of more than a year's continuous labor, the Barton plant of the Eastern Michigan Edison Co. was put into operation for the first time yesterday afternoon. With the opening of the gates, the water raced into the huge turbines, setting the powerful generators in motion. Recent rains have greatly swollen the Huron and the flood has been pouring over the spillway of the new dam for more than a week.

Gardner S. Williams, consulting engineer in connection with the work, announced last evening that the station would be turning current into the lines some time next week. It has a capacity of 1,500 kilowatts, and will help supply Ann Arbor, Chelsea, Dexter, Ypsilanti, and other neighboring towns.

Canoeing on the new lake will be facilitated by a path to the left of the dam, while a windlass and rollers on the right hand side will take care of boats and heavier craft. A fishway will empty into the tailrace, providing a passage up and down stream for the citizens of the Huron.

Delta Sigma Rho holds initation.

Delta Sigma Rho, the honorary debating fraternity, initated the following men last night: John McElroy, '13L; Bartel Jonkman, '14L; Lyman Hulbert, '14L; and Paul Blanshard, '14L. A banquet was held at the Union after the initation, at which Governor Hadley was the guest of honor. President-Emeritus James B. Angell, and Roland Fisel '12, '14L, were the other speakers, and Sol Blumrosen, '13L, presided as toastmaster.

We, the 1913 medical class of the University of Michigan do hereby wish to express our deepest sorrow over the loss of our classmate and friend Martin Judy, and to extend our heartfelt sympathy to his bereaved parents.

He was held in the highest esteem by all with whom he came in contact, and we feel that our class has lost one of its brightest and most promising members.

COMMITTEE.

Alumna Speaks at Newberry Hall.

"The Stimulant of Life" was the theme of an address given at Newberry hall yesterday afternoon by Martha Downey, '06, now of Detroit Y. W. C. A. The message dealt with the value of college experience in after life.

TO TEACH TWO NEW SUBJECTS THIS SUMMER

Architecture and Designing to be Included in Summer School Curriculum for First Time.

SUMMER LECTURE SCHEDULE WILL BE ANNOUNCED SOON.

1,000 Abridged Announcements of Hot Weather Sessions to be Mailed.

At least two new subjects will be added this year to the summer school schedule which will contain many more courses than have been given in previous years. This summer, courses in landscape designing and architecture will be given for the first time as hot weather subjects.

The regular summer school faculty, with Prof. Kraus as dean, will include a number of professors from the leading universities of the country. Prof. F. A. Updike, of Dartmouth, will conduct the courses in political science. Prof. M. Parmelee, of the University of Missouri, will be connected with the sociology department and Prof. Frank Carney, of Denison university, who is now in charge of Prof. Hobb's work, will continue his courses during the summer session. He will conduct the customary excursions to Put-in-Bay and Niagara Falls.

The schedule of summer lectures will be made public within the next two weeks. In addition to members of the faculty the program announces Gov. F. N. Ferris, State Geologist R. C. Allen, and Regent L. L. Hubbard. Several other prominent educators have been asked to take part in the work but their dates have not yet been arranged.

More than 100,000 abridged editions of the summer school announcements containing several pages of illustrations are to be sent through the mails within a few days. The complete announcements will be off the press the last of February.

USE HONOR SYSTEM IN EXAM.

But Six Members of Prof. Turner's Class Oppose New Method.

Satisfied with the merits of the honor system as proved in a recent "bluebook," 275 members of Prof. E. R. Turner's lecture class in English history voted yesterday to use the system in the final examination. Opposed to the introduction of the new method, six of the freshmen elected to take the examination under the supervision of the instructors, there being three more against it this time than when it was first introduced.

Prof. Turner is highly enthusiastic over the plan, and optimistic as to its future on the campus and with the system in active use among his own classes and those of Prof. C. O. Davis, he believes that the good results of the present work will be shown next year in a wider adoption of the honor system by the classes all over the campus.

OFFICERS FOR SECOND TERM ARE SELECTED

Student Council Holds Regular Semi-Annual Election of Officers For the Coming Year.

STUDENT BODY ADOPTS NEW BASIS FOR REPRESENTATION.

Flags From Pole Rush Are Presented to Men Who Tore Them Down.

At the last meeting of the student council for the first semester of the present year held last night, the semi-annual election was held and the following officers were chosen to guide the destinies of the council during the second semester: president, J. Edwin Hancock, '13E; vice-president, W. Scott Hopkin, '13E; recording secretary, Cyril Quinn, '14; corresponding secretary, Howard Wilson, '13; treasurer, Robert L. Mayall, '13L; auditor, Selden S. Dickinson, '13. These officers as well as the new councilmen recently elected were sworn in at the meeting.

Following a petition from the upper classes of the dental department claiming that they do not have a council representation in proportion with the enrollment of the department, a committee was appointed to investigate the representation of all departments in the council. The committee made the following report which was adopted by the council, which will hereafter serve as a basis for representation in that body.

"The apportionment among various departments shall be based upon the fall enrollment figures of the various departments in accordance with the following scale, the number of representatives to be based upon the figure to which the numbers in the departments most closely correspond. An enrollment of 100 will require a representation of one councilman; enrollment of 250, two councilmen; enrollment of 450, three councilmen; en-

(Continued on page 4.)

BARTON RESIGNS FROM UNIVERSITY

Varsity Football Player and Track Man Intends to Leave University.

WILL ENGAGE IN BUSINESS.

Charles Barton, '14E, Varsity football player and member of the Varsity track squad, has tendered his resignation to the engineering department of the university. If Barton persists in his signified intentions of giving up his university work, Michigan will lose a valuable athlete, and the friends of the lengthy gridiron star are doing their best to deter Barton from taking the step.

It is understood that Barton desires to give up his work in the university in order that he may enter business, though it is possible that he may return to the university at some future date to resume his studies. Barton has announced to his friends, however, that he will not finish this semester's work.

Barton made his football "M" during the season just closed when he filled the position of Varsity end. Barton became popular with the Michigan football supporters because of his ability in receiving forward passes, and in this line of gridiron play he proved most valuable to the Michigan team. Barton was ineligible for the 1911 Varsity team, but in 1910 he was a member of the 1914 All-Fresh team playing the entire season at the center's post.

In track work, Barton's specialty was the pole vault, and although his weight kept him from being a marvel in the art of leaping the bar with the aid of the long stick, he managed to set up some good marks, especially in the indoor meets.

Large Amateur Finishers agree that Tank Development for Films gives more detail and better contrast than the old hand method—and there is not the inclination to slight the work in a rush, while the chances of scratching the emulsion is practically eliminated.

In tank development the developer is easily kept at the proper temperature and strength, which is very essential but almost impossible in any other method. It will pay you to consider our methods in fixing and washing, as well. It is rather expensive for you when your films are spoiled in developing. Better bring them to me and make sure. If you want we'll show you how it's done here.

LYNDON

Saturday night will be in charge of the following committee: E. C. Wilson, '15, chairman; D. W. Ogilbee, Morell Bentley, Jr., '14, and R. W. Turner. The tickets will be placed on sale Thursday afternoon at 5:00 o'clock, as usual.

MARIS ON ATHLETIC STAFF OF DETROIT PUBLIC SCHOOLS

Bert G. Maris, formerly assistant athletic trainer at Michigan under Keene Fitzpatrick, has been appointed assistant athletic director of Detroit public schools.

From 1904 to 1906 Maris worked here under Fitzpatrick, and through his efforts the present system of interclass basketball games was established. A university team was also organized, but maintained but one year, owing, principally, to the fact that Maris resigned his position here and went to Notre Dame as basketball and track coach.

VICTOR GORE TO TAKE SEAT FOR FIRST TIME AS REGENT

Victor M. Gore, '82L, of Benton Harbor, the new member of the board of regents, will take his seat for the first time at the board's next meeting, January 27. William Comstock of Alpena, who was appointed by Governor Ferris to fill the vacancy left by the death of Judge John Grant, January 26, 1913, will step out at this time.

Many Graduates Are Given Positions

The following people have been placed by the appointment committee since January 1: Ruth Davis, '13, Jackson, Mich., to teach English; John Powell, Jan. '14, St. Stephens School, Colorado Springs, to teach modern languages; Margaret Rolmesh, '10, Akron, Ohio, to teach German and Latin; Ethel Wright, '13, Wayne, Mich., to teach Latin and German; Gertrude Bogenreider, Jan. '14, Hart, Mich., to teach English.

J-Laws Elect T. E. Agee to Council

T. E. Agee was elected to the student council from the junior law class yesterday, winning over T. F. Murphy by a vote of 30 to 24. Junior lits will elect two councilmen today from the following candidates: Cecil Brown, Lyle Harris, H. M. Lacy, C. H. Lang and A. W. Mothersill. Junior medics will elect Friday morning, while the time has not yet been set for the junior engineer election.

Hoppe Returned Victor in Initial Play

"Willie" Hoppe, world's champion at 18.2 balk line billiards, last evening won the first block of 1,000 to 600 handicap match, from Jacob Schaefer, Jr., at Huston Brothers parlors, by the score of 500 to 238 in 17 innings. Hoppe's high run was 127, and his average 29, while Schaefer's best was 58, and his average 14. The men will play the second block this evening, and also play a special match this afternoon.

PREPARING MUSICAL CLUBS FOR COMING HOME CONCERT

Strenuous efforts are being made to round Michigan's musical clubs into shape for the home concert, scheduled for February 10, before the coming examinations force a let down in the work of rehearsing. In line with this idea, a rehearsal has been called for Wednesday afternoon.

Several changes will be apparent at the next concert. Instead of working under a platform leader, the Mandolin club will be directed from the orchestra pit by Earl V. Moore, of the university school of music. This change was necessitated by the recent illness of Russell Mills, '14E, leader of the Mandolin club. Mr. Moore was secured to take over the task of directing, as soon as it was learned that Mills' illness would incapacitate him for further duties.

Tentative plans are under consideration by the managers of the two clubs to feature Fred Lawton's song hit "Laddie," which was introduced into Ann Arbor a month or so ago.

NICARAGUA NEEDS TEACHERS IN HER NEW MODEL SCHOOLS

The appointment committee has received a request from the Department of the Interior for teachers for several institutions in Nicaragua. A director and three professors for the Institute of Granada, and twelve other teachers are wanted. The teachers will have charge of kindergarten, intermediate and upper grade work in four model elementary grade schools to be established by the Nicaraguan government. At least four of the teachers must be men, and all must be able to read, write and speak Spanish. Appointments will be made for three years commencing in May or June of this year.

HAFF IS PICKED ON A. A. U. ALL-AMERICAN TRACK TEAM

Carroll B. Haff, '15L, captain of last year's Varsity track team and premier Wolverine middle distance man, has been picked for the All-American track team by James E. Sullivan, secretary of the A. A. U.

The Michigan runner is named as the best 440 man on both the All-American team and on the All-American college team; each of which teams are picked annually by the head of the union.

MICHIGAN TO TAKE PART IN WORLD-WIDE WIRELESS TEST

Mr. H. S. Sheppard, of the electrical engineering department, has received a letter from the British Association for the Advancement of Science, in regard to an international wireless test to be held during next year. The Michigan radio telegraph station is asked to join with other stations throughout the world in conducting investigations in wireless telegraphy.

TOLEDO QUARANTINE TO BE RAISED WITHIN TWO DAYS

The Ann Arbor city health officer, J. A. Wessinger, expects to raise the quarantine against Toledo within 48 hours. Passengers from that city may stop at Ann Arbor as soon as official notice is received from Lansing to the effect that that sufficient precautions are taken by the Ohio health authorities to prevent people with smallpox from leaving the Toledo terminals.

There is a possibility that Herbert Donnelly, '16, who left for his home in Toledo Saturday because of illness, has been detained there on account of the quarantine.

Position of Private Secretary Is Open

A request has been received by the university appointment committee for someone to act as private secretary to a physician who is head of an eastern institution. The applicant must be fairly well versed in chemistry, and have a rudimentary knowledge of medicine. His principal duties will be to recast the physician's speeches and to read and digest books for him.

Has Not Made Computation of Comet

Prof. R. H. Curtiss stated yesterday, in denial of previous reports, that it would be almost impossible for a comet to pass between the earth and the moon. No computation of the Comet Delavan has been made by anyone at the university observatory.

Lane, '53, Guest of Honor in Detroit

George M. Lane, '53, the sole living member of a class of 11, who attended the university when it had less than 100 students, will be the honor guest of the Michigan alumni of Detroit at a luncheon tomorrow.

Former Pastor Will Teach at Harvard

Rev. Henry W. Foote, pastor of the first Unitarian church in Ann Arbor from 1908 to 1911, has been appointed assistant professor of preaching and parish administration at the Harvard Divinity school.

1913 Graduate Announces Marriage

H. R. Ohlmacher, '12, has notified his friends of his marriage to Miss Margret McCoy, of Detroit. The event occurred in Battle Creek last October, but was kept secret until recently.

NEW DIRECTORS SELECT CROWE FOR PRESIDENT

(Continued from page 1.)

detail.

Plates of the Varsity letters in football, track, baseball and tennis, will be reproduced in black, drawn to scale, with an explanation of the basis of award.

The selection of some suitable track insignia was also considered, the basis of award to be the winning of five points in the four dual intercollegiate meets. This insignia, like the baseball and football "R's," will be on a regular jersey, instead of on a track jersey, in the case of the "AMA's," awarded to all members of the track squad.

The board voted to award athletic association hats to the interscholastic manager, and secretary and treasurer of the association. All other members of the board now receive hats, and the new measure abolishes the "AMA" caps for managers.

The hats will now be awarded to the managers upon the assumption of their duties, instead of at the time of the awards to the respective teams.

CAMPUS IN BRIEF

—**Men's regular gymnasium classes** will close for the first semester on Friday of this week. All men having absences have been requested to consult Dr. May at once and arrange to make them up.

—**Prof. Herbert Cross, of the fine arts** department, has returned from Adlan where he lectured to the members of the high school.

—**In his address at the Union Sunday** afternoon, Prof. Filibert Roth, head of the forestry course, took up the subject of state control of river rights, together with a discussion of the Conservation Congress which met recently in Washington.

—**T. F. Keller, '16E, left Ann Arbor** Saturday for New York, where he will join his parents and sail with them for Europe, Thursday, on a pleasure trip. The party will spend two or three months touring Italy and other parts of Southern Europe. Mr. Keller will resume his studies at the university in October.

—**At its last meeting, Acolytes, honorary** philosophical society, elected Herman Van Polen, '15, to membership. The next meeting will be held Tuesday, February 10. Professor David Friday, of the accounting and auditing department, will read a paper.

—**The Union membership dance on**
