## UNION TAKES UP QUESTION OF DANCING

**Michigan Union Committee Discusses Situation and Will Start Crusade Against Dances of Unusual Nature.**

**WILL BAR ALL DANCES THAT ARE OF QUESTIONABLE FORM**

**Boston and Tango to be Permitted But One Arm Must be Out at One Side.**

That the ban must be placed upon all dances of the kind termed "objectionable," was the decision reached by the chairmen of the Michigan Union dance committee, following an extended discussion of the subject last evening.

According to the new edict, the Boston and Tango will be allowed to go unmolested for the present at least at Union parties.

It is understood that the action of the Union officials comes as a certain forewarning of a general campus crusade against dances of an unusual nature. Faculty action on the matter of radical dancing has been taken at a large number of universities, and it is said that an intimation of similar measures here precipitated the rule laid down by the Union.

**Regulation Goes Into Effect at Once.**

The new regulation will go into effect at the regular Union dance Saturday night. All persons who do not dance in the manner prescribed by the committee will be informed by those in charge of the affair. Besides eliminating "close" dancing, all displays of otherwise objectionable dancing will be barred.

"No, we are not trying to revolutionize the social activities of the campus," said Manager Homer Heath, of the Michigan Union, last evening. "It does seem, however, as if matters have reached a point where something severe needs to be done. For this reason we have barred one type of dancing, as an experiment, and will now watch results. We were forced into this action by the abuse of dances which are in themselves perfectly proper."

**Tickets for Tomorrow Are on Sale.**

Tickets for tomorrow night's dance went on sale at the Union yesterday afternoon, and over half of the total number of admission cards were disposed of during the evening.

**SENATORS ARE APPOINTED TO ATTEND MEMORIAL SERVICES**

A committee of seven state senators has been appointed by the legislature at Lansing to attend the memorial services in honor of the Hon. W. W. Wedemeyer which will be held in University Hall at 2:30 o'clock Sunday afternoon. In addition to the representatives of the State of Michigan and the United States, members of the Ann Arbor Arbeiter Verein, Schwaben Verein, and of the Maccabee and Masonic lodges will attend in a body.

**Positions are Open to Engineers.**

Several positions are at present open to students of the engineering department. Prof. H. C. Anderson, of the mechanical engineering department, has received two letters, one from the American Aluminum Co. of Niagara Falls asking for two or three men, another from the Bay City Industrial Works asking for five.

**Prof. Shull to Speak in Battle Creek.**

Prof. A. F. Shull, of the zoology department, will deliver an extension lecture on "Eugenics" at Battle Creek this evening. The address will be given under the auspices of the Battle Creek nature club.

Ruth Graybill, of Williamsport, Pa., was elected captain of the girls fresh tie basketball team at a dinner of the team candidates held after practice in Barbour gymnasium yesterday afternoon.

**HOLD ELECTION OF OFFICERS**

Pres. Harry B. Hutchins and 68 alumni gathered at the Hotel Gordon last night at the annual meeting of the Washington, D. C., alumni association of the University of Michigan. Pres. Hutchins was the guest of honor and in his speech he described the steady growth and progress of the university. Senator Townsend, formerly the undisputed champion wrestler of the university, also gave a short talk. Justice William R. Day, '70, of the supreme court of the United States sent a letter regretting his inability to attend the banquet. A proposal was made to raise the scholarship fund in the memory of the late W. W. Wedemeyer who was a member of the association.

An election of officers preceded the banquet and the following were chosen: president, Robert Hill, '66; first vice-president, D. A. Edwards, '94; secretary, M. E. Porter, '93; and treasurer, C. H. Spencer, '96. The association honored Mrs. J. A. Leroy of Detroit, wife of a former track captain of the university, by electing her the second vice-president of the organization.

**VULCANS WILL TRAVEL IN SPITE OF ABSENCE OF SNOW**

Despite the fact that the gods have frowned upon the Vulcan sleighing party scheduled for this evening and have refused to send snow, the society will have its outing as planned. Hayracks instead of bob-sleds will be the means of conveyance to Whitmore lake. The start will be made at about 7:00 o'clock, and the principal feature of the evening, aside from the banquet, will be dancing.

Parts in the 1913 Michigan Union opera were given out to 33 men for competitive preparation, at a meeting of the tryouts for reading roles in the production, held at the Union last evening. Lines from each part in the book were assigned to several candidates, while some of the tryouts were given portions of several parts to memorize.

The next meeting of the cast tryouts is called for Wednesday, February 12, at which time the aspiring Thespians will be required to give their parts. Following this session, the pruning process will be commenced in earnest, in an effort to award the various parts to the most competent men in time for them to prepare for the first rehearsals.

**WIRELESS STATION HEARS FROM OHIO STATE APPARATUS**

Wireless messages from Ohio State university were received Wednesday night for the first time by the local station. Although B. N. Burgland, operator of the local plant, plainly understood the message from Ohio, steady conversation could not be maintained because of the inability of the Ohio State operator to catch the message sent by the local station. The reason is not known, but it is supposed that the receiving apparatus of the southern station was not correctly tuned, because just prior to the test stations in different parts of Ohio reported receiving communications sent by the university wireless apparatus.

**CONDUCT EDUCATIONAL CIRCUS**

**Faculty, Students, and Equipment of Gopher Institution go on Road.**

"President Vincent's Educational Circus," or the new traveling University of Minnesota, is attracting much favorable comment in that state. The plan consists in a representative portion of the university faculty, students, and equipment going on a tour of the small towns of the state and giving what is called a "university week."

Teams are pitched, and the students study and recite in their regular classes, while the people of the town have an opportunity of learning the real workings of higher education.

The plan is more than a university extension, for a portion of the university is practically detached and set down in the different towns of the state. The plan is approved and commended by the United States bureau of education as bringing the state institution and its supporters into better mutual understanding.

Firmin Roz in his brilliant lecture last evening on the modern theater and its relation to contemporary manners. The distinguished scholar and critic is touring America under the auspices of the Alliance Francaise. His lecture here was attended by a large audience which found his penetrating criticism deeply interesting.

M. Roz began by discussing the importance of the theater in all the periods of French literature, and the reason for its occupying this place which he found in the peculiar literary genius of the nation. He discussed at length the beginning and development of naturalism and symbolism as seen in the drama, with many rich illustrations from his close familiarity with the French theaters.
