Forecast For Ann Arbor:
Wednesday—Fair and warmer; moderate northerly winds.

The Michigan Daily

ONLY MORNING PAPER IN ANN ARBOR

Vol. XXIII, No. 171. ANN ARBOR, MICHIGAN, WEDNESDAY, MAY 28, 1913. PRICE FIVE CENTS

TRACK STARS LEAVE TODAY FOR BIG MEET

Ten Athletes Are Entered in Eastern Intercollegiate Meet Held in Boston Friday and Saturday.

WOLVERINES SHOULD CAPTURE AT LEAST FOURTH POSITION.

Haff and Jansen Will Run in 440 Only While Brown and Lamey May Enter Half.

Ten Michigan track men, who will represent the Maize and Blue in the Eastern Intercollegiate track and field meet at Boston Friday and Saturday, leave Ann Arbor for the east at 4:50 o'clock this afternoon over the Michigan central railroad.

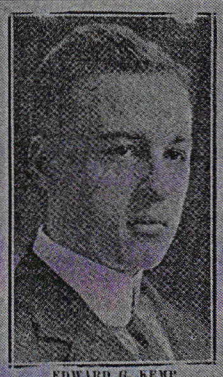

The men who will make the trip are Captain Haff, Bond, Seward, Kohler, Jansen, Craig, Sargent, C. B. Smith, Lamey and Brown. In addition Manager Denison and Trainer Farrell will be in the party. The Michigan contingent will be quartered at Mansfield, Mass., a suburb 20 miles from Boston, during the entire meet. The party will arrive at Mansfield at 3:15 o'clock Thursday and will not leave for the Harvard Stadium until after lunch on Friday. After the preliminaries, the Michigan men will return to Mansfield until time for the finals on Saturday.

Trainer Farrell has announced that Haff will run in the 440 only, as that is his best event. Jansen, who can run either in the quarter or the half, will also participate only in the 440. Jansen runs a better race in this event, and Farrell has made this decision for the same reason as in the case of Captain Haff.

Brown will not be Michigan's lone representative in the half mile, as Lamey will probably be selected to keep him company. If Lamey does not qualify for the finals in the 880, it is also probable that he will be sent into the mile. C. B. Smith will be Michigan's representative in the mile, but it is possible that he will also participate in the two-mile race. Halmbaugh's injury leaves Michigan in a bad hole as to the two-mile run, and Smith may be rushed to the breach if the occasion warrants it, according to the Michigan trainer.

Bond and Seward will take part in both sprint events. Both men have been improving, and Farrell expects them to be at their best in the eastern meeting. Kohler will go into the shot put and hammer throw, and according to Farrell will carry away some points. Though Kohler has not been up to form at any time this season, he too has shown improvement this week, and should make an excellent showing. Sargent is expected to place in the high jump, this year, in spite of the fact that he usually jumps in hard luck at big meetings. Craig will go into the hurdles, and is expected to place.

On the whole Michigan's chances of placing among the first three teams in the meeting do not seem particularly bright, but it is expected that the Wolverines will return to Ann Arbor with at least enough points to insure fourth place in the meet.

EDWARD G. KEMP
President of the Michigan Glee and Mandolin club, which, with the Girl's Glee club, will give a farewell popular concert in University Hall tonight at 8:00 o'clock.

Campus Short-cuts to Be Prohibited.

Workmen are busy sodding the various bare spots in the campus green, which have been worn by those who have learned that a straight line is the shortest distance between two points. It is planned to sod all such spots and to keep them from being worn again, signs requesting the burrying ones to observe and use the sidewalks have been put up.

Dr. Novy to Address Sigma Xi Society.

At the banquet of the Sigma Xi honorary society this evening at the Union, Dr. Novy of the medical department, will speak on the "Sanitation of the Panama Canal." Following the toasts, there will be an initiation, and officers for the ensuing year will be elected.

TODAY'S GAME IS TO DECIDE TITLE

Wet weather kept the campus championship from being decided by the junior laws and the soph engineers yesterday afternoon as scheduled. The game will be played this afternoon at 1:00 o'clock on Ferry field.

The two teams will use practically the same men who fought in the last game Saturday, and the result is as much in doubt as it was before the first contest, as the two teams were on a par.

Spencer will be sent back on the mound for the lawyers, and Haddon is booked to twirl again for the engineers. Lackey will perform behind the bat for the juniors and Shepard will handle the big mit for the sophs.

Medic Is Recovering From Paralysis.

The condition of D. A. Hagedorn '14M, who was stricken with paralysis on one side of the body some time ago is rapidly improving. At first it was thought complications might set in but there seems to be no doubt at present but that complete recovery will result.

Forestry Club Elects Officers Tonight.

Members of the forestry club will hold their last meeting this evening in the engineering building. Prof. P. S. Lovejoy will give a short talk on some of the practical problems of forestry. At the conclusion of the meeting, officers will be elected for next year.

NAME MANAGERS OF 1914 OPERA

Mimes Coose Karl B. Hoch, '14, and R. H. Braun, '14E, to Head Committees.

WILL HOLD ELECTIONS TONIGHT.

Karl B. Hoch, '14, was appointed general chairman of the 1914 Michigan Union opera yesterday afternoon. Robert H. Braun, '14E, was named as chairman of the costumes committee. The appointments were made by the committee on committees of the Mimes consisting of Jacob Crane, '13E, chairman, Edward Kemp, '14L, Philip Fletcher, '13E, Selden Dickinson, '13, and Homer Heath.

Competition for the general chairmanship this year was exceptionally keen, and the committee found it difficult to select the man for the place. Three meetings were held before a decision was reached. Cyril Quinn, '14, Karl B. Hoch, '14, and R. H. Braun, '14E, assistants to this year's general chairman, P. K. Fletcher, were the men eligible for the appointment.

The position of costumes manager goes hand in hand with the chairmanship, and ranks practically as important. There are a number of appointments yet to be made, of which the property chairman and the three assistants to the general chairman will probably be selected within a few days. The publicity committee, assistant treasurer and assistants to the costume and property chairmen will not be announced until next fall.

The mimes meet tonight at the Union for the annual spring elections to membership. All men who have taken part in at least one opera as a member of the cast, orchestra, or committees are eligible, and from this number the new members will be chosen. All men connected with an opera are considered associate members until it has been presented, when this relationship expires.

Reports from Chicago indicate that the Alumni association lost money in presenting the show there, but they are enthusiastic about the venture nevertheless, and are planning to take steps toward making the trip an annual affair. The enthusiasm with which it was received has apparently more than made up for a slight money loss. As one alumnus put it "If we can't have Michigan up here in football, we can have her in the opera."

FRESHMEN LAWS WILL VOTE ON HONOR SYSTEM TOMORROW

Fresh laws will vote on the plan of taking examinations under the honor system, in the several sections on Thursday afternoon. Printed copies of the plan proposed, bearing possible amendments, will be distributed as ballots and, if possible, the end of each hour will be given over to discussion and the taking of the vote.

A representative number of the class was not present at the class meeting yesterday, so it was decided to adopt the plan of having a vote on the question when the classes are in session. The result of the vote, if there is a majority in favor of an honor system, will be submitted to the faculty as the expression of the sentiment of the class on the proposition.

DEAN COOLEY LEAVES FOR TWO WEEK'S STAY IN EAST.

Dean M. E. Cooley of the engineering department, left yesterday afternoon for Baltimore to consult with his physician and also attend the annual reunion of the class of '78, Annapolis, June 5. Although the health of the dean has not been good the last year, there is nothing serious in his condition at present, but he made the trip to see the physician before he leaves for abroad. The dean will return in about two weeks.

STAGE FAREWELL CONCERT TONIGHT

Glee and Mandolin Clubs Will Combine With Girls' Glee Club in Ragtime Selections.

POPULAR PRICES WILL PREVAIL.

Ragtime, stunts, and quartet harmony will be the order of the evening at the combined concert of the Michigan Glee and Mandolin club and the Girls' Glee club, to be given tonight at 8:00 o'clock in University Hall. The program for the affair has been arranged so as to include a preponderance of popular selections, and those in charge promise that it will be far from a heavy performance that will be offered.

"Sail on Silvery Moon," "Jerusalem Morning," "On the Trail of the Lonesome Pine," and "You Great, Big Blue-eyed Baby," will be part of a merry melange of tunefulness to be rendered by the Midnight Sons' quartet. Waldo Fellows, chief comedian with the Glee club, whose stunts made a hit on the recent trip to that organization to the Pacific Coast, will be on the program with a number of specialties.

Popular prices, as well as popular selections, will prevail for tonight's concert. Admission will be 25 cents with a few seats reserved at 50 cents. Tickets may be secured at the State street book stores, or at the box office in University hall immediately preceding the affair.

WIRELESS HOLDS ENDURANCE TESTS WITH SOUTH DAKOTA

Twelve Hour Experiments Are Made to Determine Strength of Transmission.

The university wireless station made a series of tests with the one located at the University of North Dakota, from 8:00 p. m. Monday till 6:00 a. m. yesterday. Messages were sent every hour by the local station.

The tests were made to determine the strength of the wireless transmission, especially at night time. The operator at North Dakota received the strongest transmissions between 1:00 and 2:00 o'clock in the night. Complete data of the results will be made later.

No experiment of this kind has ever been made before over large areas of land, excepting those made by commercial stations. Scientific experimental stations, situated along seashores and large bodies of water, have made similar tests; but the results were considerably affected by reflected light.

SENIOR LITS DROP BANQUET

May Forego Annual Feed On Account of Senate Ruling.

Senior lits will have no class banquet this year, owing to the rule of the senate council in regard to our o town functions. This was practically settled when no action was taken by the class at a meeting held yesterday afternoon to decide concerning the affair.

The matter was discussed at length and it was decided that, as it was necessary to obtain the consent of the senate council for a banquet in Detroit or Toledo, and as a petition previously presented had been turned down, it was best to let the matter drop.

Grndnate Will Represent University.

Guy H. Albright, '99, has been appointed by President Harry B. Hutchins to represent the university at the twenty-fifth anniversary of the administration of President Slocum of Colorado College at Colorado Springs, Col., June 11. Albright is now professor of mathematics at Colorado College.

COMMUNICATION.

Editor The Michigan Daily:—

We are informed by an official of the athletic association that at the baseball games with Pennsylvania, to be played on Ferry field June 23 and 25, admission prices of 50 and 75 cents will be charged to all who enter, regardless of whether they are students or not. If this program is carried out, it will mean that the purpose of the blanket tax of five dollars, paid last fall by every student in the university and thought by him to entitle him to admission to every athletic contest on Ferry field this school year, has been misunderstood and the tax paid under a misapprehension.

Our informant justified this charge on the ground that the "school year" ended June 15 (the Pennsylvania games being therefore "post season" games), and on the further ground that these games were scheduled after the coupon book, which has so far this year admitted students to contests, had been made up. With regard to the first of these reasons, we believe that it is a mere playing with words, as we are quite sure that in the minds of all on the campus the "school year" does not end until Commencement; and with regard to the second reason, we do not understand that the admission of students to athletic contests free of charge under the blanket tax was conditioned on the time when the coupon book was made up, or on the number of coupons included in it.

We believe that, if admission is charged to students for the games with Pennsylvania, an understanding held by every undergraduate on the campus will be violated and a grave injustice will be done to the student body.

Yours respectfully,
HAROLD E. DOUGLAS, '13.
ROBERT T. LANE, '13.
HAROLD P. SCOTT, '13.

NEW COUNCILMEN TAKE UP DUTIES

Student councilmen, recently elected, were sworn in and initiated to their duties at the regular meeting of the organization held last night. The first year law controversy was decided by allowing only one man, J. S. Hocks, to take his seat. It was discovered that the law department is entitled only to four men, and, as there are two old men who retain their seats in the council and one new member from the junior class, Hocks only was seated, since he received the highest number of votes.

Reports of spring games and cat night committees were presented and many suggestions offered for future celebrations. Chairman H. Wilson, '13, of the pushball committee recommended that the field be made much shorter, advocating that its length be reduced that the contest be divided into four quarters with a 10 minute interval between halves. Chairman G. F. Brown, 13E, of the tug-of-war committee advised that the teams be composed of only 50 men in the future, because of the difficulty of getting sophomores to come out for the event.

Chairman H. S. Hulbert, '14M, of the cap night committee, advocated that all saloons and theaters be closed a 8:30 p. m. on the night of the celebration. He also recommended that only photographers who have secured permits from the student council be allowed to take pictures at any event which is supervised by that organization. Many other suggestions were made by the committee for the bettering of the freshman celebration.

Individual members of the council voted to purchase six dining room chairs which will be donated to the Michigan Union.

STOCK OF MICHIGANENSIANS IS ALMOST ENTIRELY SOLD.

The unusually heavy sales of the 1913 Michiganensian have almost exhausted the entire edition of 1,200 copies. Only 100 volumes of the year book remain unsold, and, according to Business Manager Carl G. Schoeffel, '13, these will be disposed of before Saturday. The remaining books are on sale at the State street book stores.

MAKE CHARITY CONFERENCE AN ANNUAL EVENT

Delegates to Organize on Permanent Basis; Prominent Speakers Discuss Various Social Problems.

VISITORS WILL TOUR CAMPUS AND BOTH HOSPITALS TODAY

Mayor Brand Whitlock, Rabbi Franklin, Caroline Bartlett Crane, and Others Speak Today.

That the present Michigan State Conference of Charities and Correction is destined to become an annual event, was practically assured last night when Father Schmidt of Grand Rapids, Mr. L. H. J. Simpson of Lansing and Mrs. C. H. Burritt of Cadillac were named as a committee to nominate the general officers for a conference to be held next year. The place for the 1914 meeting will be selected tomorrow.

Public health was the subject for consideration at the meeting yesterday morning and afternoon. The speakers in the morning were Dr. A. S. Warthin and Dr. E. McClure, assistant secretary of the state board of health. In the afternoon the meeting was addressed by Dr. E. A. Christian, superintendent of the Pontiac State hospital, Dr. G. L. Kiefer, health officer of Detroit and Miss L. M. Burton, chief woman inspector of the Department of labor.

Alexander Johnson, of Angola, Ind., secretary of the national conference, discussed the problem of public relief as against private relief at the meeting last night.

Bishop J. N. McCormick, chairman of the state board of corrections and charities, told of the work the state had been doing, with particular attention to the institutions.

Playgrounds and the general recreation movement were discussed in a stereopticon lecture by Mr. Charles H. Mills, supervisor of recreation in Grand Rapids. He showed pictures of playgrounds in many of the cities throughout the country, and treated especially the work in Grand Rapids.

L. Fred Lawton, '11, Will Read Paper.

The program for the meetings today is as follows:

9:00 a. m., Housing and Recreation. Speakers, Mayor Brand Whitlock of Toledo, the Rev. Caroline Bartlett Crane of Kalamazoo, Rabbi Leo M. Franklin of Detroit, and G. A. Bellamy of Cleveland. General discussions will be led by Dr. V. C. Vaughan, Mayor D. C. Sauer of Jackson, and C. H. Mills.

9:00 a. m., Children's committee. Round Table Session. Speaker, Judge H. S. Hulbert of Detroit. The general discussion will be led by J. Fred Lawton, probation officer of Detroit, who will read a paper on probation. Lawton is a Michigan graduate of the class of 1911 and was prominent in campus affairs.

In the afternoon, the delegates will be taken upon a tour of inspection through the university buildings and grounds. From 4:00 to 6:00 o'clock they will be entertained at a reception at the home of Regent and Mrs. J. E. Beal.

8:00 p. m., Children's Work. Speakers, Dr. C. E. Chadsey of Detroit, J. B. Montgomery of Coldwater, and Dr. J. M. Mcindoo of Farmington. Discussions will be led by Miss Ada Freeman of Detroit and Fred M. Butzel of Detroit.

COSMOPOLITAN CLUB WILL PICNIC AT WHITMORE LAKE.

Arrangements have been made for the Cosmopolitan club picnic to be held at Whitmore Lake Friday. The special car will be attached to the Ann Arbor train, which leaves at 8:40 a. m. At the lake the day will be spent in games, including a Cosmopolitan Marathon and a baseball game. Stillboats and row boats have been engaged to help entertain the members. The return trip will be made at 7:00 o'clock.

PRINCIPALS OF ECONOMICS MAY PERFORM ON DIAMOND

That learning and sport go hand in hand and that the latter is in a stage of increasing returns is definitely proved by professors of the economics department, who have organized a real baseball team and are out after the campus championship. When classes are over and blue books are corrected, the economists don baseball uniforms and in some undiscovered neck of the woods bat up flies and scamper around bases with boyish zeal.

By combining capital in the form of baseball paraphernalia, and labor with the proper proportions, the professors have learned the secret of efficiency by a scientific method, and defy any other organization of professors on the campus.

The statisticians of the department know exactly the amount of labor expended in running from first to second and can estimate the economic value of a fly.

The gate receipts will be handled by the accountants if any other professors have the nerve to come out for the pennant. Otherwise the faculty team will merely continue to run base and apply the law of comparative costs for its amusement.

HAFF WILL LEAD NEXT YEAR'S TRACK SQUAD.

Quarter Miler Was Chosen by 1912 Team After Eastern Intercollegiate.

Carrol B. Haff, '13, Kansas City, Mo., was elected captain of the 1913 track team on the return of the cinder artists from the eastern intercollegiate meet. He won his "M" for the second time this year when he took second to Reidpath of Syracuse in the quarter. Last year he also placed in this event. On the day that he was elected captain he received notice from the Olympic committee that he had been placed on the American team and would be with Ralph Craig.

"BE AN OPTIMIST" SAYS REVEREND C. S. BURCH '75

Baccalaureate Speaker Urges Near Grads to Make Best of Opportunity.

"Be an optimist," was the keynote of the baccalaureate sermon delivered by Right Reverend Charles Sumner Burch, '75, to the class of 1912, in University Hall Sunday night. "We live in an age of unrest," he said further, "but never in the history of our nation has a greater opportunity beckoned to the well-trained men and women who go out from our college."

University Hall was crowded by friends and relatives of the graduates. Besides a special solo by Prof. Howland a choir of picked voices from the School of Music gave two selections.

U. OF M. WIRELESS STATION TO SEND COMMERCIAL MESSAGES.

A program to large cities throughout the country and to boats plying the Great Lakes may be sent out from the wireless station of the university in room 102 new engineering building during Commencement week. The station will be open each day for messages until 10 p. m.
