WOLVERINES YIELD VICTORY TO AGGIES

Batting Slump and Poor Fielding Give Game to M. A. C. by Score of 3 to 1; Michigan Stages Sorry Exhibition

VISITORS TALLY TRIO AFTER SIDE SHOULD HAVE BEEN OUT

Sisler Drives Captain McQueen across with Only Local Score, in First Stanza

Michigan's batting slump was accompanied by a falling off in fielding ability in yesterday's game, resulting in a 3 to 1 victory for M. A. C. in the first game of the Wolverine's series of three with the Lansing nine. Two hits by Primodig and Bibbins, coming in the same inning with three Michigan errors, gave the visitors a two run lead which they held for the remaining six and one-half innings.

Michigan's lone score came in the first when McQueen walked and stole second, scoring from there on a hit by Sisler. Sisler died trying to make second base, and the side was retired. Lahadie started the fifth with a hit, but after being sacrificed to second by Maltby died there when Waltz fied to the first baseman and Ferguson struck out. Michigan made a hard try for a score in the eighth when Stewart, batting for Waltz grounded to Springer, who had replaced Miller on the mound for the Aggies. Niemann was sent in to hit for Ferguson, and reached first when hit by the pitcher. With two down and a man on first Sheehy failed to connect.

The Aggies' scores came in the third, when, with two down, Fuller drew a pass and stole second. Brown fanned, but reached first on Benten's bad peg. A passed ball scored Fuller, and Primodig's hit put Brown on third. Bibbins singled, scoring Brown, and driving Primodig to third. He was enabled to score on McQueen's error which put Bibbins safely on second.

Coach Lundgren occupied his old place on the bench in yesterday's game, and there is a chance that he may be seen there from now on. While he may not be there on every occasion, it is probable that he will be allowed on the bench when the opposing team has their mentor with them.

The summaries and box score follow:

(Continued on page 4)

SECOND ROUND OF INTERCLASS BASEBALL TO START TOMORROW

Second round of the interclass baseball tourney will start tomorrow afternoon, and the schedule, as made out, will be announced in The Daily on tomorrow morning.

Those teams which were to have played games in the interclass league and failed to do so will have to finish their contests today or be credited with a loss before the second round starts. There have been several postponed games, and those teams which were among these will be forced to play all games this afternoon.

The fresh medics will enter into the second round in place of the sophs of that department, because of the forfeiture of the first game played between these two teams over a week ago. In this game the sophomores played ineligible men and Director Rowe awarded the contest to the yearlings, thereby giving the series to the 1918 men.

Prof. Kahlenberg to Address Chemists

Prof. Louis Kahlenberg, director of the course in chemistry at the University of Wisconsin, will speak under the auspices of the Phi Lambda Upsilon, honorary chemical society, at 7:30 o'clock tonight in the chemical amphitheater. All students in the department of chemistry as well as the general public are invited. Professor Kahlenberg has selected for his subject, "A Neglected Principle of Chemistry and Some of Its Applications."

University Rifle Club Gets New Guns

Intramural Director Rowe has just received a shipment of 27 new rifles for the use of the university Rifle club. Matters of interest to the members of the club will be discussed at a meeting to be held at a later date.

Today and Tomorrow

TODAY

Dr. Louis Kahlenberg lectures on "A Neglected Principle of Chemistry and Some of Its Applications," room 165 chemical building, 7:30 o'clock.

Prof. R. D. T. Hollister's class in interpretative reading will give Tennyson's "Maude," room 205 north wing, 8:00 o'clock.

Combined Glee and Mandolin club will banquet at Union, 5:30 o'clock.

Prof. R. C. Ford speaks to University of Michigan State Normal College club, Newberry hall, 7:30 o'clock.

TOMORROW

H. S. Sheppard lectures on "Wireless Telegraphy" in room 248 engineering building, 8:00 o'clock.

First senior sing at campus band stand, 7:00 o'clock.

Combined junior lit and engineer dance, Union, 9:00 o'clock.

Comedy club meets in Cercle Francais rooms, 4:00 o'clock.

FARRELL WORKS ON MILE-RELAY SQUAD

Huntington Max Robinson and Fontana Sure of Berth, But Fourth Man Has Not Been Found

SPRINTERS' TIME KEPT SECRET

Coach Farrell spent considerable time with his quarter milers yesterday afternoon, in an effort to build up a mile-relay team for the Syracuse meet which comes next Saturday afternoon. Huntington, Max Robinson and "Stan" Fontana seem to have their places cinched, but the coach is somewhat up in the air as to who will comprise the fourth member of the quartet. Both Huntington and Fontana were sent over the 440-yard route yesterday afternoon, and the coach announced that he was satisfied with the times that the two runners made, although he refused to divulge the same. Close observers, however, detected a smile on Steve's face when he squinted at the watch after the two performers had completed the distance.

Max Robinson has been troubled with a bad leg, but he expects to be in shape by Saturday afternoon. The 440-yard run should prove one of the prettiest races of the afternoon, as there will probably be a half dozen speedy preformers entered. The captain of the Syracuse aggregation, Donohue, is a 440-man and a good one. In

(Continued on page 4)

FORESTERS DEPART TOMORROW FOR THIRD SISTER LAKE CAMP

Barbecue Dinner, Talks and Practical Contests Planned; Will Return to City Monday

Third Sister Lake will be the scene of the Foresters' Field day this weekend. About 100 rangers of the woods will leave their packs at the economics building at 10:30 o'clock tomorrow, preparatory to the leaving of the pack train from that place at 12:30 o'clock. The camp breaks up in time to get the foresters back in Ann Arbor Monday.

One barbecue dinner, at which a quarter of beef will be cooked and served with the necessary trimmings, will be part of the training which the campers will receive while on their trip. This excursion will fulfill the function of giving the members of the forestry course practical experience in camping out, and in care of the camp and its provisioning.

Following the barbecue dinner, which is to be held Saturday noon, Professors Roth and Johnson, of the forestry course, will give talks on subjects pertaining to the curriculum. The teaching force of the forestry course will attend the camp in a body.

The time at camp will not be entirely devoted to the more serious side of life, since contests are to be held in horse packing, fly casting, and panning gold from the waters of Third Sister Lake. Compass races and baseball games will fill in the leisure time, while the evenings will be devoted to the social meetings around the glowing camp-fire.

PROF. J. S. TATLOCK LEAVES UNIVERSITY

Will Resign to Take Chair at Leland Stanford; Enters New Position Next Fall

TO TEACH ENGLISH PHILOLOGY

Prof. John S. P. Tatlock, of the English department, will leave the university next summer to accept the chair of English philology of Leland Stanford University, Palo Alto, California, succeeding the late Prof. Ewald Flugel who died last fall.

Professor Tatlock has been connected with the English department of the university since 1897. He was born at Stanford, Connecticut, in 1876, and in 1896 he took the A.B. degree at Harvard University, being elected to Phi Beta Kappa. In 1897 he took the A.M. degree, and in 1903, Ph.D., both from Harvard. He was instructor in English at the University of Michigan from 1897 until 1901, and from 1903 until 1905. He became assistant professor in 1905, and junior professor in 1907, in which capacity he served until the year 1913, when he was elected to a professorship in English. During the summer of 1909 he was professor of English at the University of Chicago.

Professor Tatlock is a member of the Modern Language Association of America, and of the Philological Society of London. Besides being an author and the editor of several literary works, he is an extensive contributor to a number of philological journals.

"LACK OF POISE IN LUSITANIA EDITORIALS"—PROF. F.N. SCOTT

Deplores Newspaper "Hysteria" Before Members of Sigma Delta Chi; G.O. Ellis Present

"I have noticed with regret the lack of poise displayed by the majority of newspapers throughout the country in treating the various phases of the recent sinking of the Lusitania," said Prof. F. N. Scott, of the rhetoric department, in speaking at the annual dinner of the Sigma Delta Chi journalistic fraternity, held at the Union last night. "I had thought that the newspaper editors of the country had reached a stage in journalistic development where they would exercise a cool and conservative judgment before commenting on the crisis which is confroniing the United States at the present time, but the general hysteria which has characterized the editorial utterances of most of the papers I have examined during the past few days has had a very discomaging effect upon me so far as the progress in true journalistic ideals is concerned."

At the dinner, Griffith Ogden Ellis, publisher of The American Boy, was ormally initiated as an honorary member of the fraternity. Walter Towers, '10-'12L, a former managing editor of The Daily and at present assistant editor of The American Boy, gave a brief talk on his experiences in the magazine game in Detroit.

After the more formal part of the evening's program, the incoming officers of the fraternity were installed, and plans for the coming year presented.

TENNYSON'S "MAUDE" WILL BE PRESENTED BY READING CLASS

Prof. R. D. T. Hollister's class in interpretative reading will give Tennyson's "Maude," tonight at 8:00 o'clock, in room 205, north wing. The class has been working on this reading for several weeks and everything bids fair to give a successful interpretation of Tennyson's work.

The following students will take part in the reading: E. B. Skaggs, '16, E. M. Hendershott, '15, H. D. Hopkins, '16, F. Hickok, '15, I. Snelgrove, '16A, I. Roman, '16, K. M. Fox, '15, L. G. Slee, '15, B. Baker, '15, C. E. Weller, '15, C. L. Kendrick, '15, J. Carmichael, '16, S. J. Skinner, '15, and D. M. Kauffman, '15.

Marshall Butters Weds Miss Snyder

Marshall H. Butters, ex-'13, was married Tuesday night at Crawfordsville, Ind., to Miss Helen Snyder, of that city. Butters is in business in Detroit, and the bride and groom will reside in that city.

DUTCH JOURNALIST SPEAKS ON RUSSIA

Says Ten Years' Work on History of Empire Made Him Realize Bigness of Subject

MIXES HUMOR IN HIS LECTURE

Dr. Hendrik Van Loon, in his lecture on, "The Russian Empire," yesterday afternoon, said: "It goes with Russian history, as with American, that when a foreigner has been within the borders for three weeks he says, 'What a magnificent country you have. I guess I'll write a book about it.' But after 10 years in the country it is all over. I have been working at a history of Russia for 10 years, and now know that I know nothing about it.

"The Norsemen helped to settle Russia and then with their usual facility were assimilated by the Slavic tribes already in possession. From the Byzantine empire they acquired their religion, a queer conglomeration of Christian doctrines and ancient deities of fable. Then came the Tartar invasion which put back civilization for 600 years. But the Tartars, like all Russian invaders, were swallowed skin and bones. The princes of Moscow by clever trickery, took the power in their hands and ruled in feudal manner.

"Ivan the Terrible is a fine figure for grand opera, but from my standpoint as a doctor, he was a neurasthenic. He perfected the feudal and serf system just as the serfs in England were set free. His grandson and successor, Peter, of the house of Romanoff, would have been half witted had he had more sense. He married a German cook and made all her relatives into dukes and duchesses. Next he changed the capital from Moscow to a dreary swamp up North, and killed 50,000 peasants a year trying to fill it.

"The peasantry were chained to the soil. So ignorant were they, that when an attempt was made to introduce a constitution, they thought it was the wife of Constantine, of whom they had vaguely heard. During the Napoleonic wars were sown the first seeds of discontent which has developed now into a full grown spirit of revolution. I have little doubt that, this war once over, Russia will be plunged into revolution again.

"In closing I ask that, if, in the course of events, Holland is dragged into the present conflict, you will extend your sympathies, for that is all you can extend, to the country I represent."

MAKE FINAL CHOICE OF CAST FOR SENIOR WOMEN'S DRAMA

"The Arrow-Maker," Indian Legend, to Be Presented During Week of Commencement

Announcement of the final choices for the cast of "The Arrow-Maker," the dramatized Indian legend by Mary Austin, which is to be presented by senior women during commencement week, was made yesterday by Marion McPherson, '15, general chairman, as follows: Tribesmen of Sagharawite: Choco, Mary Lewis, '15, Winnedumah, Ada Inglis, '15, Pamaquash, Sarah Hopper, '15, Yavi, a youth, Catherine Reighard, '15, Parwotz, Beatrice Stanton, '16, Seegooche, wife of the chief, Helen Burlingham, '15, Tiawa, an old woman, Vivian Glaus, '15, Wacoba, wife of Pamaquash, Elizabeth Platt, '15; The Chisera, friend of the gods, medicine woman of the Paintes, Minerva Bowen, '15, Bright Water, daughter of the chief, Ethel Fox, '15, companions to Bright Water: White Flower, Evelyn Roehm, '15, Tuiyo, Marguerite Haag, '15, Pioke, Anita Conners, '15; Suniva, the arrow-maker, Jane Hicks, '15, Padahoon, fighting man and rival of Suniva, Bess Baker, '15, Rain Wind, chief of the Paintes, Ethel Busby, '15, Haiwai, a young matron, Helen Malcomson, '15.

In addition to these cast parts, the play calls for about 25 other characters representing fighting men and women and children of the tribe of Sagharawite.

Rehearsals for the play are taking place almost daily under the direction of Prof. John R. Brumm of the rhetoric department. The play will take place in the evening, on a date not yet decided, and probably out of doors.

STRAW HAT DAY.

—o—

Saturday will be Straw Hat Day. It will mark the emancipation of the Festive Lid. Dame Fashion and Emperor Tradition unite in warning the Stude not to appear in the cloth cap or soft hat of yester year. Remember—it's this Saturday; not a week from Saturday, or that later Saturday when ordinary people will Bloom Forth. The day will be fair—the rain is being saved for the regatta, Cap Night and other minor functions. The main thing now is Straw Hat Day. Wear yours to the Syracuse meet and the Cornell game. It's Saturday.

Tau Delta Sigma To Hold Initiation

Tau Delta Sigma, honor architectural society, will initiate five new members to its body at a banquet to be held at 6:30 o'clock tonight in Foster's Tea Room. The initiates were elected to the society about six months ago.

MAKEUP OF TENNIS TEAM DETERMINED

Reindel, Crawford, Mack and Switzer Chosen as Squad Which Goes on Eastern Trip

MEN LEAVE IN GOOD CONDITION

Reindel, Crawford, Mack and Switzer, playing in that order, will make up the Varsity tennis team which will leave on its eastern trip tomorrow.

This was decided yesterday by Captain Reindel and Coach Lee, after watching the results of a week's practice between the successful candidates and Cohen and Polasky, who were possibilities. "Round-robin" matches were played between the try-outs, with the cheif competition existing in the race for the fourth position.

Reindel will pair with Crawford, and Mack with Switzer, in the doubles, all four playing singles. The team will go from Ann Arbor to Cleveland tomorrow, and to Oberlin Saturday to meet Oberlin college. From Oberlin the team will proceed east, meeting with all the best college teams, including the Navy.

The Michigan team is in good condition this year, having been on the courts for some time. Outside competition in the form of matches with the Toledo and Detroit tennis clubs has served to put the men in shape.

The men, with the exception of Reindel, are newcomers to Varsity competition, and for that reason Coach Lee is not predicting much success for the squad. Nevertheless, the form that the players have shown indicates that they will give all the teams met a good argument.

ASPIRANTS FOR FRESH-SOPH CONTESTS TRY OUT THIS WEEK

Tryouts for this spring's annual fresh-soph contests, of May 21 and 22, will be held from 2:30 to 5:00 o'clock today and tomorrow.

Relay aspirants, both first and second year men, will report at the fair grounds and run the 220-yard dash under the supervision of Clair Ditchy, '15A.

Tug-of-war tryouts will report to the gymnasium to either Dr. May or H. S. Parsons, '15E. The scales in the gym basement are inaccurate, and no credit will be allowed for weighing which is not done under the direction of the student councilman in charge.

PROFESSOR CLYDE TO ADDRESS MICHIGAN STATE NORMAL CLUB

Prof. R. Clyde Ford, of the Michigan State Normal College, speaks to the members of the Michigan State Normal College club of the University of Michigan, at its final meeting of the semester, to be held at 7:30 o'clock this evening in Newberry hall. A program has been prepared and refreshments will be served.

The members of this year's senior class at the Normal College who expect to enroll in the university next fall, have been invited to attend the meeting, and a comittee will be appointed to assist those students who will enter for summer session work.

ENTHUSIASM RULES AT UNION MEETING

Judge R. F. Thompson Asserts Alumni Will Give Necessary Funds; H. E. Bodman Outlines Campaign Plans

DEAN BATES STATES PROJECT IS NOT WITHOUT PRECEDENT

President Harry B. Hutchins Presides; Dr. James B. Angell Absent; McNamara Makes Hit

"Smiles and handshakes will just fill that million-dollar clubhouse. You are building the foundations for brotherly love and mutual attachment. It's a great project, and it's going through. We alumni are going to dig and give you what you want."

Judge Robert F. Thompson, '92L, was the speaker. The occasion was the big Michigan Union mass meeting in Hill auditorium last night. The listeners were some 2,000 Michigan men, with an admixture of women and townspeople in the upper balcony. Applause was constant and there was a lot besides the weather to warm the crowd. It was an inspiring occasion.

"You men are all privates in the army of Michigan," continued Judge Thompson. "Of course you're a different species than the old-time student who wore his father's cast-off clothes. Now you wear 'em first. That M. A. C. game this afternoon makes me think that perhaps you are better dressers than fighters. But you have the right idea. You are working for cohesion, and that is everything."

Bodman Explains Campaign

Henry E. Bodman, '96, was one of the principal speakers. Mr. Bodman is chairman of the Detroit campaign committee. "When the summer's campaign ends up with a big Michigan dinner in each city, we hope to have the million dollars all subscribed," said Mr. Bodman. "The country has been divided into eight or 10 districts, and 183 local committees have been appointed to handle the solicitation. We have found the addresses of the 3,000 Michigan men in Wayne county, and each one will be approached by at least two solicitors.

"The campaign will be short and intensive. Telegraphic reports will be sent every day to the general committee. There will be a great amount of publicity concerning the campaign in national magazines."

Dr. Hutchins Presides

President Harry B. Hutchins introduced the speakers. Dr. James B. Angell was unable to attend the meeting. In his place, Dean Henry M. Bates, of the law school, outlined the plans of the Union.

"Michigan men need not be afraid to attempt the raising of a million dollars," said Mr. Bates. "The Stevens Institute of Technology, with an enrollment of 200, has raised $1,300,000, while Wellesley College has obtained nearly two millions for a similar project.

The specifications for the new Union club-house, which the million is to buy, were explained by I. K. Pond, '79E. Mr. Pond's remarks were amplified by more than a dozen lantern views of the proposed structure. "We are trying to produce a building which will exemplify the spirit of Michigan

(Continued on page 4)

FIRST SENIOR SING OF YEAR TO BE HELD TOMORROW NIGHT

Glee Club Will Lead Melodies of 1915 Class; Varsity Band Music Also on Program

Led by the glee club, and combined with a musical program by the Varsity band, the first senior sing, to be held at the campus band stand, at 7:00 o'clock tomorrow night, is expected to be one of the largest affairs of the kind ever staged here.

Arrangements are being made to place 200 chairs and benches around the stand for the singers, and a program of favorite Michigan songs is being prepared. The Varsity band will open the program with "Victors." Music by the band will alternate at intervals with the singing.

Among the songs will be the "Friar's Song," "'Tis of Michigan We Sing," "I'll Ne'er Forget My College Days," and others of similar character.

WIRELESS USED TO PLAY CHESS MATCH

Michigan and Ohio Engage in Contest By Air Communications! Game in Progress

ADVANTAGE FAVORS WOLVERINES

* * * * * * * * * * * * * *
* BULLETIN. *
* Word received at 2:00 o'clock *
* this morning from Captain E. *
* Roch of the Michigan team, stat- *
* ed that complying with Ohio's *
* wishes, the match had been dis- *
* continued for the night. It will *
* begin again tomorrow. *
* * * * * * * * * * * * * *

For the first time in history, so far as is known, wireless telegraphy served as a medium for a chess match when the University of Michigan players engaged the Ohio State University team last evening. As The Daily goes to press the evenly matched game is being continued, with the advantage resting slightly with the Wolverines.

The first spark was flashed by Operator D. A. Nichols at 8:54, and although much static was present in the ether, communication was well and fully established by 9:30. The first move was transmitted at 9:58, and the game progressed steadily from that time on, each side being placed upon its honor to report the correct time of the receipt of moves and to send the answering move within five minutes.

A telephone system was installed between the wireless room and the room adjoining, where the chess boards were laid, the various plays being transmitted by the players to Operator Nichols by this means. Last reports were that, weather conditions remaining favorable, the match would be continued to a conclusion last night.

The line-up of the teams follows:

Michigan		O. S. U.
W. T. Adams, '17		Raymond Miller
E. C. Roth, '15		Paul Gloy
W. H. Green, '16		Edw. Clayton
Samuel Cohen, '17		Henry Schiner
Fred Sarin, '15		James O. Lore
Rex B. Cunliffe, '16		Jacob Bowers

WHIPPING CORNELL INTO SHAPE

Coach Sharpe Confident but Cautious; Prepares for Michigan Clash; Expects Good Game

ITHACA, N. Y., May 13.—Coach Sharpe's Cornell baseball team plays Columbia here tomorrow, and following that comes the Michigan game at Ann Arbor on Saturday.

The Cornell aggregation has been spending a busy week, and should be in excellent shape for the journey west to meet the Wolverines. Princeton proved easy for Cornell last Saturday, although the Notre Dame squad managed to squeeze out a victory here on Monday. The Catholic squad had a narrow escape at that, for Clary was racing for the plate with the winning run in the 10th inning, when Captain Dugan's splendid peg from center field nipped the Cornellian at the plate, forcing the contest another inning. Notre Dame jumped all over Johnson in the 11th, and shoved four runs across the platter, giving them the contest, although Cornell rallied and scored once. Notre Dame has been defeated by Michigan, which indicates Saturday's game should be a corker. Notre Dame has far and away the best collection of national pastimers that have appeared here this season.

The chances are that Regan will work against the Wolverines, as Coach Sharpe wants the strongest possible combination against Michigan. Regan is in excellent shape, as a certain nine gentlemen from Princeton will readily testify. Regan stopped the Tigers absolutely in the Princeton game, and should give Michigan a great battle.

Fall To Secure Prof. Anatole Le Bras

Attempts made recently to get Prof. Anatole Le Bras, of the University of Rennes, Paris, to lecture in Ann Arbor had to be abandoned due to lack of funds to carry out the plan. Prof. Le Bras has been lecturing in colleges throughout the country and the fact that he is a very able speaker makes it regrettable that he will not lecture in Ann Arbor.

PRESSING Goods Called For and Delivered

NO LOSS BY FIRE

DR. CUMMINGS DENIES STORIES OF CHENOT HEART OPERATION

That no heart operation was performed on James Chenot, 16, now at Grace hospital, Detroit, was the statement made by Dr. H. H. Cummings of the university health service staff, yesterday, after a consultation with the hospital authorities in Detroit.

"A needle was put in the pericardial sack and some bloody fluid was drawn out," said Dr. Cummings, "but as to stories that a heart operation was performed—they are absurd. Operations on the heart, except to sew up a stab wound, are unknown in the field of surgery. Several German surgeons claim they have tried such operations, but admit failure in every instance."

Sheppard to Lecture Before Engineers

Mr. H. S. Sheppard, of the electrical engineering department, will lecture before the Detroit-Ann Arbor section of the American Institute of Electrical Engineers at 8:00 o'clock tomorrow night, in room 248, engineering building. The subject of Mr. Sheppard's lecture will be, "Wireless Telegraphy," and the talk will be supplemented with a visit to the wireless laboratory of the engineering college. The public is welcome.

FARRELL WORKS ON MILE RELAY TEAM

(Continued from page 1)

addition to him, the Orange will have at least one and perhaps two or three other good men in the race.

The coach staged a 100-yard dash between the two sprinters, Captain Smith and "Obie" O'Brien, the captain breasting the tape in the lead, although the Irishman was right on his heels. Again the coach refused to make public the story told by the watch, after his inspection of the timepiece, which examination took place with the onlookers stationed in the back ground, but he wore one of those expressions that he used to summon last year after "Chink" Bond, "Hal" Smith and "Howdy" Seward had just torn off the distance in practice. This should be enough information for any good Michigan man.

Clarence Ufer ran a quarter to judge pace, and if the Ufer person completes the half next Saturday at the same speed, the days of "Phil" Jansen and Murphy will be back again. This Chicago youth, if pushed, is going to run a mighty fast race against Syracuse, as he has the stuff.

Carroll wasn't out, but no one seems to be worrying particularly about "Eddie" as far as can be seen. The last time the rooters saw him in action in the Varsity meet, he finished his mile running so strongly, that the coach hastened several assistants out upon the track to detain the sophomore, fearing that "Eddie" might have lost the count and might be figuring that there was still another lap to run.

Trials over the low hurdles will be staged this afternoon.

and of democracy," declared Mr. Pond.

McNamara Makes Hit

"Danny Deever" was rendered stirringly by Edward J. McNamara, baritone, of Paterson, N. J. The singer was greeted with continued applause and cheers, and his second and last number, "Oh, for a Breath of the Moorlands," by Thomas, was also well received. McNamara's voice proved a revelation even to those who heard him here last year. Selden S. Dickinson, '13-15L, chairman of the committee in charge, accompanied McNamara at the piano.

Three amendments to the Union constitution, affecting the qualifications for life membership, the manner of nomination of officers by petition and the details of the election of officers, were carried without opposition. President P. D. Koontz, '14-17L, of the Union, was in charge of the business meeting.
