VOL. XXVI. No. 40. ANN ARBOR, MICHIGAN, FRIDAY, NOVEMBER 19, 1915. PRICE FIVE CENTS

MICHIGAN TO HAVE POETRY CLUB SOON

Noyes, Markham, Howells, Kipling and Others Will Deliver Addresses

TO ORGANIZE ON WEDNESDAY

Michigan is to take the lead among universities in organizing a Poetry club. E. N. Hyatt, '17, is behind the movement, which has the support of Prof. T. E. Rankin, Dr. H. S. Mallory and Mr. L. L. Bryson, of the rhetoric faculty.

The purpose of the club, as stated by Hyatt, is to revive student interest in literature, and to bring prominent writers to Ann Arbor. Heretofore, no effort has been made to have men of letters speak here, and the club will bring to the university such writers as Edwin Markham, Richard Le Gallienne, Alfred Noyes, Edith Wharton, William Dean Howells, Rudyard Kipling, and James Whitcomb Riley.

The initial meeting of the club will be held at 4:00 o'clock Wednesday afternoon in room 233, Tappan hall. All students and members of the faculty who are interested in literature are invited to be present at this meeting. It is the intention to have the club affiliated with the Poetry Society of America, of which all prominent American writers, and several well known English authors are members.

Hyatt has already received letters from Markham, Le Gallienne and John G. Neihardt, stating that they will be in Ann Arbor from December 5 to 15, and it is expected that one of the best known American women novelists will be here at that time.

If the movement is successful here, as it is expected to be, an attempt will be made to organize similar clubs at other large universities. A circuit will then be established and the writers will make tours, speaking at all universities where such clubs are organized.

ROUND-UP CLUB WILL HOLD NOVEMBER DANCE AT GRANGER

Round-Up club will hold its November dance at Granger's tonight from 9:00 to 1:00 o'clock. During the evening the men will hold a get-together for the purpose of promoting the social interests of the organization. Several feature dances have been planned by the committee in charge.

NATIONAL MEDICAL SOCIETY COMMENDS CHICAGO DOCTOR

New York, Nov. 18.—The Medico Legal society has sent a commendatory resolution to Dr. Haiselden for refusing to prolong the life of the defective Bollinger baby in Chicago. Oscar J. Smith, who offered the resolution, said the refusal of Dr. Haiselden to perform an operation was not only saving the child misery but saving society the responsibility of caring for it.

MICHIGAN RIFLEMEN PRACTICE ON THEIR NEW INDOOR RANGE

In preparation for the annual intercollegiate rifle matches to be held in the spring, Michigan riflemen are busy practicing on their new indoor range. In the coming season Michigan expects to place high in class "B," and from scores that are being made every day prospects seem bright. Ammunition may be obtained from Ray Van Doren for indoor shooting at the following prices: Peters' ammunition, 25 cents per 100, and the government ammunition for 17 cents per 100 rounds.

August Wilhelm Escapes Internment

New York, Nov. 18.—Officers of the United Fruit steamship Tartuguero, in today from Santa Marto, reported that while she was at Santa Marto on the night of November 11 an interned Hamburg-American liner, Prinz August Wilhelm, pulled up and departed. The German-American ship had been detained in the port at anchor since the beginning of the war, fearing to go out because British cruisers were waiting for her beyond the three-mile limit. Captain Drake of the Tortuguero said the fleeing vessel was headed in the direction of Haiti.

SPHINX INITIATES 10 J-LITS

Members of Class of 1917 Initiated Into Secrets of Great Stone Face

Across the "burning sands of the Sahara" came Sphinx, junior lit honorary society Wednesday afternoon, annexing 10 members of the class of 1917, and initiating them into the secrets of the great stone face.

After the initiation the new men were entertained at a dinner at the members, together with representatives from the faculty, responded to toasts.

The initiates were T. S. Cox, W. T. Adams, A. J. Gornetsky, L. S. Arentz, W. D. Nance, W. A. Niemann, J. C. B. Parker, E. E. Pardee, T. C. Reid and V. E. Burnett.

J-HOP CHAIRMAN CALLS FIRST MEETING TODAY

Elections of Secretary and Treasurer and Plans for Hop Will Feature Day's Work.

Chairman Edward E. Mack, '17, has called the first meeting of the J-Hop committee, which will be held at the Union at 7:30 o'clock tonight. The members will elect a secretary and treasurer, and will start the work of planning for the Hop.

At a meeting yesterday afternoon the junior engineers choose the following four men to represent them on the committee: James L. Whalen, Gordon Smith, Dick B. Gardner, and Louis F. Dieterich.

"HAVE A HOBBY"—DEAN COOLEY

J-Engineers Hold Regular Assembly and Short Business Meeting

"Pick a hobby and let it amuse you," said Dean Mortimer E. Cooley to the junior engineers at their meeting yesterday. "I have had such hobbies as the history of Indian mound builders in Ohio, and old trails in the big woods."

"Strive to be capable of amusing yourself rather than let others do it for you," were the Dean's remarks in a talk on the value of an avocation.

At the business meeting which preceded the talk, it was decided that the president should appoint men to represent the class on the Technic and a publicity committee of four men. Two of these are to serve on The Daily and two on other publications.

DEAN LLOYD GIVES ADDRESS TO SOPHOMORES YESTERDAY

Dean A. H. Lloyd in an address before the sophomore engineering assembly yesterday afternoon, spoke on the relations of the graduate school to the university as a whole.

After the address President W. M. McKee announced the appointment of the following class committees: Finance committee, A. Bonney, chairman, R. Langley; auditing committee, E. B. Breckenridge, Ralph E. Page, E. R. Loveland; social committee, Fred Hough, chairman, J. D. Hibbard, F. C. Dudley, A. V. Livingstone, F. C. VanBrunt; honor committee, C. E. Briggs, F. C. Kortick. A. J. Goldberg was appointed chairman of the indoor baseball team.

The first soph engineering smoker of the year will be held within two weeks at the Michigan Union. Speeches and music will feature the entertainment.

GERMAN U-BOATS DON'T BLOW UP SONS FROM FATHERLAND

Paris, Nov. 18.—Rome correspondents corroborate the report that the Italian steamship Milano, a sister ship of the Firenze, which was torpedoed last week, was stopped on the high seas a few days ago by a submarine. On ascertaining that there were on board the Milano 70 Germans who had been expelled from Egypt, the commander of the submarine permitted the steamship to proceed safely.

Dr. Jeffers Dies at Age Seventy-Four

Newark, Pa., Nov. 18.—Doctor Eliakim Tupper Jeffers, president of the New York Collegiate Institute, died here today. He was 74 years old.

FOREIGN STUDENTS GIVEN RECEPTION

President Harry B. Hutchins and Deans Receive Foreign Students in Barbour Gymnasium

PROFESSOR HILDNER CHAIRMAN

"Michigan welcomes you, men and women of foreign lands. We feel fortunate in having you with us." These were the opening words of greeting given by President Harry B. Hutchins to nearly a hundred foreign students at the annual reception given by the president and deans of the various colleges and schools in Barbour gymnasium yesterday evening.

"At one time," President Hutchins continued, "I feel as though I were in China and South Africa and Chile. I do not believe that we are conscious of the different nationalities represented here tonight. It is your presence that is making the University of Michigan an international university. This cosmopolitan university gives you great opportunities to learn men and their different viewpoints, which is quite as important as to learn from books."

Prof. J. A. C. Hildner was chairman of the evening, and before introducing the student speakers called upon Dean Mortimer E. Cooley, who spoke of the possibilities of one universal people, the significance of which, he said, was proved by the presence of the foreign students.

The students were earnest in their praise of the university and spoke with enthusiasm of their admiration for American customs, manners and ideals. Narayan S. Hardikar, grad., from India, expressed his sympathy with and appreciation of the work of late Dean Kart E. Guthe. Others to speak were: Mitsu N. Imake, '18L, of Japan; William Robertson, dent. from South Africa; Manuel J. Constain, '19, who comes from Colombia; Jose M. Hernandez, grad., of Porto Rico; Constantine D. Tripolitis, '17E, a Greek, and Qua Ling Young, grad., of China.

William C. Achi, '17L, sang his favorite production, "Men of Michigan," while native songs were offered by Armando D. Cusicanqui, '17, a Bolivian, and Carlos Zanelli, '19E, Chile. H. S. Feizy, '18E, Turkey, and Pei Chien Yang, '18, China, played several piano solos, Yang carrying his Chinese instrument with him.

WOMEN'S LEAGUE STAGES CIRCUS

400 People Take Part in Annual Show Held This Afternoon

At 4:00 o'clock today will come the parade of the fifth annual circus of the Women's league, with more than 400 people from the different classes taking part. The women of the university and Ann Arbor in general will be the spectators.

Jemima Wenley, '16, Florence K. Lenfesty, '17, Portia Walker, '18, and Emily Loman, '19, will lead the various class stunts.

At the refreshment booths doughnuts made by Dean Myra B. Jordan will be sold, in addition to the customary lemonade, candy and popcorn.

WILSON NOT TO INCLUDE FULL REVENUE PROGRAM IN MESSAGE

Washington, Nov. 18.—President Wilson does not expect to include a complete revenue program in his annual message to congress. The president will content himself at that time with setting forth the needs of the government, particularly with reference to the army and navy. But he will leave it to congress to decide what measures shall be resorted to in order to provide needed revenue.

Penrose Will Throw Hat in 1916 Ring

San Antonio, Texas, Nov. 18.—Boise Penrose, United States senator from Pennsylvania, states that he would be a candidate for the Republican nomination for the presidency in 1916, but refused to discuss his plans beyond saying that he would make a formal announcement later. Mr. Penrose was in San Antonio as one of the party escorting the Liberty bell from the Pacific coast to Philadelphia.

PROF. PARKER TALKS TO 1916 ENGINEERS

"Devotion to Work," Subject of Talk. Pres. H. H. Phillips Names Committees

14 COMMITTEES ANNOUNCED

"Devotion to your work and to your fellow worker is the factor which makes more for success than any other personal characteristic," declared Prof. John C. Parker, head of the electrical engineering department, to the senior engineers at their assembly yesterday.

"I say devotion, as opposed to duty," continued Prof. Parker. "Devotion as springing from the heart and duty from the mind. 'Duty' has a hard sound and the world is at odds with the idea of love of work. 'Devotion' on the other hand has a beauty and appeal and includes the love of the worker for the work."

Prof. Parker who has recently come from a position at the head of the Rochester Railway and Light, Rochester, N. Y., has had the employing of about 150 college graduates. He has kept these men under observation and he declares that devotion to the work and to the workman beside him is the biggest factor that has led to graduates promotion. He said in conclusion, "If you can get the right idea of devotion you will have a big ideal operating throughout your professional life and true happiness will result."

President Appoints Committees

At the regular business meeting which preceeded the talk a quantity of new business was considered and appointments of committees were announced.

They are as follows:

Auditing—J. M. Brown, chairman; W. A. Reichle, J. D. Todd.

Banquet — S. C. Buell, chairman; P. E. Bond, R. E. Bement, J. W. Robinson, R. A. Hall.

Cane — G. B. Smith, chairman; J. L. Wermeyer, R. A. Lundell, J. H. Schmidt, B. Woodbury.

Cap and Gown—H. J. Smith, chairman; D. E. Gardner, L. S. Monroe, T. P. Soddy, A. F. Grenell.

Picture—L. E. Wilcoxen, chairman; C. R. Daugherty, C. Bottje, H. E. Barrett.

Memorial—F. T. Mack, chairman; A. A. Burrell, M. A. DelValle, P. C. Wagner, R. E. Gore.

Finance—M. S. Reed, chairman; R.

(Continued on Page Six)

CHICAGO LAWYER WILL SPEAK AT UNION SUNDAY

John Maxey Zane, '84, to Address First of Weekly Meetings; Arrange for Popular Speakers

John Maxey Zane, '84, one of Chicago's most brilliant lawyers, has been secured for this week's Sunday program at the Union, the first of the weekly meetings which are to be held every Sunday afternoon at 3:00 o'clock at the Union during the winter. The meeting will be informal and a special musical program has been arranged.

The Union has been very fortunate in securing Mr. Zane. He graduated from the University of Michigan in 1884, and is the author of a book on the law of banks and banking, and of several articles in the law reviews of the country.

Mr. Zane has been an active and loyal alumnus of the university, responding to every call from her and receiving the degree of LL.D. in 1914. Last year he and a fellow alumnus, Frank P. Reed, of Chicago, gave 15 valuable etchings of great jurists to the Law school which are now hanging in room C of the law building. He has also contributed $1,000 toward the Union building campaign fund.

Arthur Torrey, '16, chairman of the Union Sunday program committee, is making arrangements to bring many popular speakers to Ann Arbor to talk at Sunday meetings during the winter. Abraham Hart, '17, will be responsible for the musical programs, and Alvin M. Bentley, '16, is chairman of the finance committee

NAME UNION DANCE COMMITTEE

To Give Thanksgiving Dance at Union Thursday Afternoon

Prof. John E. Emswiler and Mrs. Emswiler, and Dr. Howard H. Cummings and Mrs. Cummings, will chaperone this week's membership dance at the Union Saturday evening. The dance committee has been appointed as follows: Macdonald Reed, '16, chairman, John Langs, '17, Russel Stearns, '16, Bernard Beaman, '18, and E. E. Pardee, '17.

There will be a special Thanksgiving Day membership dance at the Union on Thursday afternoon. Tickets at 50 cents, and will go on sale at 4:00 o'clock next Tuesday. The chaperones and dance committee will be announced in the near future.

DONOR OF BARBOUR GYM GIVES LAND TO UNION

Anticipate No Trouble in Raising Last $50,000 of Union Fund

Michigan's Detroit alumni are adding real estate to their other contributions to the Union fund. Mr. Levi Barbour, '43-'45L, who was formerly a regent of the university, has deeded to the Union property on the west side of the city valued at $1,000. In addition to this gift, Mr. Barbour has offered to give the last $1,000 necessary to the rounding out of the Union building fund. It was Mr. Barbour who gave the gymnasium to Michigan and his latest gift shows that he still has a most active interest in his Alma Mater.

Other donations have been made by the Detroit alumni as announced Wednesday. Among the cheerful givers were the names of Lem W. Bowen and his four sons, one of whom will graduate with the class of 1916.

Confidence is expressed by the committee in Detroit that the $250,000 will be raised in the near future. The remainder of the first $200,000 is likely to be raised within the next 10 days, according to reports, and the last $50,000 may be pledged with less trouble than any other part of the prescribed amount, as there are already indications of heavy contributions.

MANY DROP FROM HOSPITAL BOAT

English Steamer Anglia Carrying Wounded Sunk by Mine in Channel

London, Nov. 18.—The sinking of the Anglia, although the first case in the war of a hospital ship meeting disaster while carrying wounded, has caused great anxiety to the public mind, as it had been supposed that the English channel was entirely free of danger from mines.

The Anglia had 200 cot cases aboard. When the rescuing vessels reached her she was badly down by the head and her propellers were racing. Her stern was so high above the sea that one of the rescuing vessels was able to pass under her and 40 men dropped aboard.

Stanley Wilson Will Lead Freshmen

U. Stanley Wilson, '16, leader of the Varsity Glee club, has been obtained by the freshmen to lead their glee and mandolin club this year. The members of the yearling organization wish to announce that all freshmen are eligible to the club, not only students of the literary college, as was supposed by many of the engineers.

WHAT'S GOING ON

TODAY

Woman's League Circus, Barbour Gym, 4:00 o'clock.

Webster society meets, Webster hall, 7:30 o'clock.

Jeffersonian society meets, Jeffersonian hall, 7:30 o'clock.

Catholic Students' club meets, St. Thomas hall, 8:00 o'clock.

TOMORROW

Fresh lit dance, Barbour gym, 2:30 o'clock.

Michigan Union dance, Michigan Union, 9:00 o'clock.

ALLIES THREATEN GREECE TO GAIN ALLIANCE IN WAR

COMBINED FRENCH AND BRITISH TROOPS WIN VICTORY OVER BULGARS

ALLIES HOLD WAR COUNCIL

Italian Cabinet War Council Again Convoked. Important Developments Expected

Entente powers threaten Grecian government in order to secure alliance. Denis Cochin, French representative, holds conference with Constantine, King of Greece.

British and French driving back Bulgars in southern Serbia, but Franco-Serb troops lose ground. Bulgars force Prilip and Babuna Pass, and threaten Monastir. British attack near Messines (Belgium) foiled. Italian towns bombarded by Austrian planes.

London, Nov. 18. — Strong coercive measures have been leveled at the Greece government by the British and French, in order to force the wavering kingdom into joining the Allies. It is understood that the offer of the island, Cyprus, is still offered Greece as the reward for alliance.

Denis Cochin, the French special representative in the Balkans, has been in conference with King Constantine today, and states that he has fully explained to the monarch the Allies' position.

Greek Border Scene of Allies' Victory

London, Nov. 18.—Combined French and British troops have been victorious over the Bulgar invaders in Serbia, at points near the Greek border.

Earlier reports state that divisions of the combined French and Serbian troops have been driven back after the Bulgars had stormed Babuona Pass. The invaders have also taken Prilip, and are now seriously imperiling Monastir.

France Stops Shipments to Greece

Paris, Nov. 18.—A dispatch from Marseilles states that the French government has ordered the port authorities of France to refuse permission for any shipments to Greece.

British Surprise Foiled at Messines

Berlin, via London, Nov. 18.—The war office announced today that a surprise attack attempt by British forces near Messines failed. The surprise was planned to take effect against German positions on the road between Messines, in Belgium, and Ypres and Armentieres, south of Messines. Attempts made by the French in the rgonne to explode a mine in a German trench were also forseen by the Germans and frustrated. The Germans vacated the endangered spot in time.

Verona and Polune Shelled From Sky

Paris, Nov. 18.—According to a report from Rome, the city of Verona has again been attacked by hostile air craft, while 28 were killed and 30 seriously injured by the aerial bombardment of Nov. 14. Today the only casualty was a slight injury to a little girl. Slight damage was done to streets and buildings.

Italian Cabinet War Council Meets

Rome, Nov. 18.—The Italian cabinet war council was again convoked this afternoon. Exceedingly important developments are expected. Announcements of intended actions is to be delayed until the Italian military leaders find out the full negotiations of the entente allies with Greece. The correspondent is informed that the cabinet will be certain as not to proclaim a state of war with Germany.

Foreign Publications---Books---Flonzaley Quartette

FLONZALEY QUARTET WILL RETURN TO ANN ARBOR

SECOND CHORAL UNION NUMBER IS GIVEN TUESDAY EVENING, NOVEMBER 23

The reappearance of the Flonzaley Quartet in Ann Arbor, after several year's absence, will be cause for rejoicing by all who have heard them, and by all others who realize that they will have an opportunity to hear the purest and most beautiful form of music interpreted by four exponents who are now universally recognized as unique.

The program which these artists have selected for their Ann Arbor concert leaves nothing to be desired. Cesar Franck's Quartet is a sadly neglected work of exquisite beauty—neglected largely because an adequate presentation of its ethereal loveliness is excessively difficult. The three pieces by Strawinsky are still in manuscript, and may be anticipated with the keenest interest. Two years ago the Flonzaleys introduced Schoenberg's Quartet—a most obstruse, ultra-modern composition of an hour's duration; their success with this almost impossible task was practically universal. They have the courage of their convictions! Strawinsky is said to "out-Schoenberg, Schoenberg;" but if the

(Continued on Page Six)

MANY FOREIGN PUBLICATIONS COME TO UNIVERSITY LIBRARY

More than 20,000 pieces of mail are received annually at the desk in the periodical room of the General Library. This mail is composed of magazines and periodicals from all over the world.

By far the greatest number of foreign magazines come from Germany. Some of them deal with purely general and literary subjects, but the majority are scientific and philosophical publications. Next in number are the French magazines. A number of these are beautifully illustrated. Almost every European nation of importance is represented by at least one magazine, while many send six or seven excellent publications.

In former years, a number of foreign newspapers could be found on the racks, but since the opening of the war the London Times has been the only European newspaper which continues to send its issues. The French, Russian, Greek, German, Italian and Polish papers that the library receives are published in America.

Princeton Has Most Outside Students

According to figures compiled by Professor Burg, of Northwestern university, Princeton is the most cosmopolitan of universities, only one-fifth of her students coming from New Jersey. Cornell leads all universities in the number of students from insular and non-contiguous territories, followed closely by Michigan and the University of California.

NOVEMBER EDITION OF ENGINEER BOOK ON SALE

CONTAINS ARTICLES BY PROF. R. D. PARKER, R. R. TINKHAM AND F. G. MARSTELLER

With several articles of more than ordinary interest to the engineer, the unavoidably delayed October number of the Michigan Technic, which was put on sale yesterday, is easily one of the best ever issued.

One of the most significant articles is the one on "The Inductive Effects of a 140,000 Volt Transmission Line," by Prof. R. D. Parker, '05E, of the electrical engineering department, now on leave of absence. In his article Professor Parker gives an account of the interference trouble caused by the 140,000 volt 3-phase transmission line of the Au Sable Electric company which parallels the telegraphic circuits of the Western Union Telegraph company and the Detroit & Mackinaw R. R., between East Tawas and Pinconning, Michigan. The close conjunction of the power line and the telegraph lines gave rise to large electrical disturbances in the telegraphic circuits. Professor Parker was one of the engineers requested to investigate the matter.

Ralph R. Tinkham, '05E, also contributes an article on, "Notes on Riparian Rights and Boundaries." In it is developed the method of determining riparian boundaries on a concave shore, a method little known because of its limited application.

The "Relation Between Science and Industry in Germany, and the United States," is taken up in a contribution by Fritz G. Marsteller, '16E, in which the writer outlines the need of state or government laboratories such as are maintained in Germany for the assistance of the farmer, the building contractor, the mechanic, and most important of all, the intelligent inventor.

A full line of Hawaain Records at Grunwell Bros., 166 South Main St. Phone 1707 for delivery service.

NOTED METALLURGIST IS TO SPEAK NOVEMBER 29

PROF. THOMAS WEST LECTURES ON "STRUCTURES OF METALS" TO GENERAL PUBLIC

Of interest to all students of the chemistry and engineering classes as well as to the faculty in general, is the announcement made of the coming to Ann Arbor of one of the greatest metallurgists of the present day. This is Prof. Thomas West, professor of metallurgy at McGill university, Montreal, who will speak on "Structure of Metals," on the night of November 29, under the auspices of the Phi Lambda Upsilon society.

Professor West is a graduate of an English university, and has been educated under the most prominent metallurgists of England, most of his work having been done under Carpenter. He is personally acquainted with Stead, Fatfield, Desch, and other men whose work in the field of metallurgy has won them world-wide renown.

The talk will be given in room 165 of the chemistry building, and will be open to the general public. The hour will be announced later.

THE NEW BOOKS

"Public Utility Economics" is the title of a book published by the West Side Y. M. C. A. of New York. It contains 19 chapters, each one of which is a summary of a lecture delivered by experts before the Finance Forum of the society mentioned above.

The book is many-sided, and not at all confined to any one particular phase of the problem of public utilities. This is clearly seen in the titles of the chapters. Some of the subjects dealt with are: Municipal ownership and public utilities, progress of the science of lighting, and some legal aspects of the regulation of the public service commissions.

This book is worth while, not so much because of the information it contains, but rather because through the medium of this work the New York Y. M. C. A. is getting in close touch with a great number of young men whom it could reach in no other manner.

Pianos to rent. Prices and piano right, at Schaeberle & Son's Music House, 110 South Main street. oct8tf

Copyright Hart Schaffner & Marx

Varsity Six Hundred

IF you want the snappiest overcoat you ever put your frame into, you'll get one of Hart Schaffner & Marx Varsity Six Hundred Models. They're new in idea, and new in the smart little touches of style which makes clothes distinctive, and unusual.

Come and see the new overcoats; there's nothing like them anywhere else. At $25 you'll see some very rich fabrics; and very smart styles.
