Vol. XXV, No. 153. ANN ARBOR, MICHIGAN, WEDNESDAY, MAY 5, 1915. PRICE FIVE CENTS.

BAD WEATHER JINX PURSUES MICHIGAN

In Last Two Days, Varsity Has Been Able to Take Field Only for Short Time

STAGE FIRST STRUGGLE WITH SYRACUSE ON FIELD TOMORROW

Brandell Will Appear at Short-Stop, Davidson May Do Pitching

If the bad weather jinx continues to pursue the Michigan baseball team, it is likely that the Orangemen will come here from Syracuse with a squad more fit to take the field than Coach Lundgren will be able to muster. In the last two days, the Varsity has been able to take the field for only a short time, and most of the regulars have failed to get any practice in that time.

Tomorrow's game with Syracuse is the first of two struggles staged with the Orangemen for this week, the other being due after Coach Carr's men return from East Lansing on Saturday. With their team which defeated Dartmouth, the easterners will give Michigan a good ball game, and the best of the regulars will be used.

Brandell, who has been able to take part in the practice will be back at shortstop, and the Varsity will be able to put its best front against the Orangemen. If it is about, Davidson's turn to work in the box, and he may be expected to face the Syracuse nine in one of the games, while the choice for the other game will depend on the condition of the other available pitching material.

RAYNSFORD AND "MAC" M'HALE DIRECT SPRING GRIDIRON WORK

Two veteran football men will have charge of the spring football practice, which will be resumed this afternoon. Ex-Captain Raynsford, and "Mac" McHale will have charge of the drilling of the men.

Captain Coetzee issued a call last night for all of the candidates for next years team, and it is expected that a large number of men will turn out for today's session, which will begin at 3:30 o'clock on Ferry field.

Graduate Sends Thesis for Degree

Word has been received by the astronomy department from the Graduate School that a thesis for a doctor's degree has been received from Laurence Hadley, who is now teaching at Earlham College, Richmond, Ind. Mr. Hadley's work is a spectroscopic investigation of one of the stars in the big Dipper. He began his graduate work here two years ago, and at the last summer session completed his investigations, which have been made with the Hg telescope in the observatory.

Hillsdale Club Completes Organization

Organization of the Hillsdale club was completed Monday evening when about 35 charter members gathered in Newberry hall to banquet together for the first time. Prof. H. R. Larrabee, of Hillsdale College, addressed the members on the subject, "Hillsdale Spirit Everywhere." The following officers were elected: President, Rockwell Kempton, '18M; vice-president, James Carmichael, '16, secretary and treasurer, Thomas Robertson, '18M.

Alpha Nu Banquets Tomorrow Night

Alpha Nu literary society will hold its annual banquet at the Union, at 6:00 o'clock tomorrow night. Prof. David Friday, of the economics department, and Prof. P. N. Scott, of the rhetoric department, will give the addresses of the evening. Tickets for members are now on sale.

Today and Tomorrow

TODAY

Michiganensian out, 12:00 o'clock.

Annual cup debate, room B, law building, 3:00 o'clock.

Craftsmen society dances at Armory, 8:00 o'clock.

Tau Beta Pi Dinner, Michigan Union, 6:00 o'clock.

TOMORROW

Baseball—Michigan vs. Syracuse, Ferry field, 4:05 o'clock.

Hon. George Macaulay Trevelyan speaks on "The Balkan Situation" in Sarah Caswell Angell hall, 8:00 o'clock.

Charity vaudeville at Whitney theater, 8:15 o'clock.

MICHIGAN ANNUAL TO APPEAR AT NOON

Year Book Dedicated to Coach Yost to Contain Large Amount of High Class Art

VOLUMES SELL AT USUAL PRICE

Michigan's 1915 year book will be submitted to the campus this noon, and 1,600 copies which arrived by freight yesterday are ready for sale. Tents will be erected at the flag pole and at the law walk from which the annual will be sold. The Michiganensian will contain a greater amount of art work of higher class than has characterized former year books. Following the dedication page to Coach Fielding H. Yost, is a section containing 24 full-page views in monogravure of campus and Ann Arbor scenes. The regatta, the spring contests and all of the 1914 football games are fully illustrated and described, an innovation with the 1915 book.

The cost of publishing the annual amounted to $7,000, or approximately $4.50 per volume. This is an increase over the cost of the book last year, although the retail price of each volume will remain the same. The year books will sell for $2.50 apiece, and will be on sale at 12:00 o'clock.

MICHIGAMUA TO HOLD ROPE-IN AROUND TAPPAN OAK TONIGHT

Michigamua, senior all-campus honorary society, will hold their annual "Rope-in" at 6:00 o'clock this afternoon. The initiates will gather around the Tappan Oak, according to the custom of the tribe. The members of Michigamua, who are arrayed as Indians, will conduct the pale-faces to their private rooms after a brief public ceremony.

Forestry Field Day Set for May 14

Friday, May 14, has been set as the date for the annual field day of the forestry department, and present plans indicate that between 50 and 60 of the woodsmen will attend. The pack train will leave the economics building at 12:00 o'clock, and will go to the country south of the forestry farm. Saturday will be spent in demonstrations and races, with a possible chopping contest. Exhibits will be shown on Sunday.

Canfield Speaks on Admiralty Law

Mr. George L. Canfield, of the Detroit bar, gave the first of a series of lectures on Admiralty Law at 4:00 o'clock Monday afternoon in room C of the law building. Mr. Canfield is giving a short course on admiralty law, and will lecture every day at the same time for the next two weeks.

MAGAZINE PRAISES TREVELYAN'S TALK

"The Living Age" Commends Manner In Which He Portrays Spirit of Events

SPEAKS ON BALKAN SITUATION

Commended by "The Living Age" because he "tries to give not merely events, but also the spirit of events," the Hon. George Macaulay Trevelyan will deliver a public lecture at Sarah Caswell Angell hall at 8:00 o'clock tomorrow night on "The Balkan Situation."

In a recent article in "The Living Age," published weekly in Boston, and a magazine which devotes considerable space to foreign and American writers, considerable credit was given Mr. Trevelyan not only for his accuracy as a historian, but also for his rare ability to give the events a spirit that few historians are able to portray.

It is expected that the campus in general, as well as the faculty of the history department, await the coming of Mr. Trevelyan, and in advance pronounce it to be a rare treat. The unique feature of Mr. Trevelyan's lecture will be his intimacy with present conditions in Europe, for he has just returned from the battle front in Servia.

Few noted historians have lectured here in the last few years, and as Mr. Trevelyan is considered one of the best English historians of today, his lecture probably will attract a large crowd.

HONOR SYSTEM COMMITTEE NOT TO MEET UNTIL END OF WEEK

Another meeting of the honor system consideration committee of the engineering college probably will not be held until the latter part of the week. It was intended to hold a session yesterday for the purpose of going over the material, which is to be published in the pamphlets to be issued by the committee, but the first draft of the booklet has not been completed.

An opinion on the honor system from Colgate College, Hamilton, N. Y., has been received by the committee and will be added to the tabulated list of rules, which has been placed on the bulletin board in the south second floor hall of the engineering building. An opinion from the University of California is also expected within a few days.

Gargoyle Shows Sorority House Plan

Although the Gargoyle is not an architectural publication, the feature of its May number is a groundfloor plan of a modern sorority house, executed by R. H. Ruedemann, '15, and George C. Caron, '17L. The cover design of this number, which will be placed on sale Friday, will be from the pen of C. E. Yokulicek, '18, a new contributor to the humor magazine. There will be 10 full pages of drawings, and a double page spread by Clark Smith, '17A.

NOMINATE MEN FOR OFFICES OF ORATORICAL ASSOCIATION

Nominations made Monday for next year's officers of the Oratorical association are as follows: President, W. M. Bracker, '16L, H. D. Parker, '16L, M. O. Tate, '16; vice-president, G.C. Classen, '17L, H. H. Springston, '17; secretary, J. R. Cotton, '16, R. M. Carsons, '17; treasurer, C. S. Neithercut, '16L, N. E. Pinney, '16.

Elections based on these nominations will take place from 10:00 to 12:20 o'clock Saturday, May 8, in the main corridor of University hall. Additional nominations may be made by petition, if presented before tonight.

PROF. J. P. BIRD WILL LEAVE UNIVERSITY

Secretary of Engineering College Will Accept Position with College in Minnesota

JOINED STAFF HERE IN 1903

Prof. James P. Bird, secretary of the Colleges of Engineering and Architecture, and head of the romance language department of those colleges, will leave the university this summer to accept a position as professor of romance languages at Carleton College, Northfield, Minn. He will assume his duties there at the beginning of the 1915-16 college year. Carleton college is a non-sectarian educational institution with an enrollment of about 500. Professor Bird visited the college about a week ago, following an invitation to accept a professorship in the institution.

Professor Bird came to the university in 1903 as an instructor of romance languages, and in 1905 was appointed secretary of the engineering college. It is not known who will be chosen to occupy the two places which will be left vacant by Professor Bird.

TECHNIC WILL APPEAR EARLY

Issue Contains Articles by Professors and Outside Engineers

Announcement has been made of the appearance of the Michigan Technic by the 20th of this month, a full month earlier than that of the last few years. In the number, which contains a wealth of technical articles, are: "The Connors Creek Power Plant," by C. F. Hirshfeld, chief of research department, Detroit Edison company; "Some Recent Developments in Transformers," by W. C. Smith, '15E, chief transformer engineer of the General Electric company. An article of interest to all engineering students is one by Prof. G. W. Patterson and Mr. F. H. Stevens on "Bending Moments and Shear."

The department known as "Transitory Slants," edited by H. R. Schradzki, '15L, and J. H. Schmidt, '16E, is one which is promised to contain extra quality and quantity of humor.

Newell Replaces Baker of Illinois

Prof. Ira O. Baker, head of the civil engineering department of the University of Illinois, who was one of the lecturers in the short course in highway engineering given by the university about three months ago, has resigned after 41 years continuous service as an instructor and professor of civil engineering at the Illinois college. He will be succeeded by Frederick Haines Newell, of Washington, D. C., who also spoke to students of the engineering college here about two months ago.

Boat Club Continues Campus Canvass

Follow-up campaigning for members for the Boat club has been precipitated by the membership management, which will confine its activities to fraternities and house clubs, which were, because of expediency, not approached in the recent canvass of the campus.

One man will have complete charge of the work in his particular organization. The solicitation will cease Saturday night, according to A. M. Bentley, '16, who is in charge. Incomplete returns show that the total enrollment of the club is between 200 and 300.

Visitors Inspect Engineering Building

W. A. Ball, a trustee of Rose Polytechnic Institute at Terre Haute, Ind., and Herbert Foltz, an Indianapolis architect, were in the city Monday to inspect the engineering building. The two men are visiting various engineering colleges over the country to secure ideas for the construction of a new engineering building at Rose Polytechnic Institute.

FRANCES HICKOK TO DELIVER PEACE ORATION BEFORE PUBLIC

Will Be First Woman to Represent Michigan on Forensic Platform

Frances L. Hickok, '15, Michigan's representative in the Northern Oratorical League contest to be held at Iowa City, May 7, will deliver her oration, "The Mission of New Womanhood," at 4:10 o'clock this afternoon in University Hall. The speech will be open to the public.

The university oratorical contest of March 4, which awarded Miss Hickok first place, likewise conferred upon her the unique honor of being the only woman ever chosen to speak for Michigan in either oratory or debating, and the oratorical department has expressed the hope and expectation that the women of the university will lend their support and encouragement for the coming battle by a large attendance at the talk this afternoon.

SYRACUSE PLAYERS PREPARE FOR FRAY

Series of Two Games with Wolverines and Clash with M. A. C. Scheduled

NICHOLS AND SLATER TO PITCH

SYRACUSE, N. Y., May 4—Coach Carr's boys have been hard at work following their trip to Dartmouth, planning on rough struggles with the Michigan nine on Thursday and Saturday of this week. The Michigan trip will include a game with the Michigan Aggies at Lansing, as well as the two clashes with the Ann Arbor nine.

The game with Dartmouth brought forth the real merit of the Orange team, when the Varsity snatched a 2 to 1 game away from the Green. Conible's fielding and Wilbur's hitting featured the game. Slater, who was in the box for the Methodists, held Dartmouth to three hits, two of them, however, being bunched in the seventh, cut off chances for a shut-out.

Bad weather kept the Syracuse nine from playing the Amherst Aggies according to schedule, but conditions have cleared, and Carr has been working his men for the games which are now on hand, these being the conflicts of the Michigan trip. Captain Nichols has played in four games so far, and since he has not pitched for some time probably will oppose the Wolverines in one of the games, while Slater, who showed so well against Dartmouth, will be the other choice to face Michigan.

GRAND RAPIDS EIGHT WISHES TO TRY SKILL OF DETROITERS

GRAND RAPIDS, May 4.—Among out-of-town events for the local Boat and Canoe club, the first will be at Ann Arbor, May 29, when the local eight will match their skill against the coterie of stars representing the Detroit Boat club. The race will be staged on Barlow Pond at an annual regatta under the auspices of the Boat club of the University of Michigan.

The Grand Rapids junior aggregation, which won the national championship at Philadelphia last year, is intact as to personnel, and its captain, Sophus Johnson, a former Wolverine, is anxious to show the university students what the major aquatic sport is like.

Professor Secures Number of Fossils

While in Italy recently, in the interests of the university library, Prof. F. W. Kelsey, of the Latin department, secured for the geological department a valuable collection of invertebrate fossils from the island of Capri. It was donated by Dr. Ignaz Cerio, a geologist who for some time has been connected with the University of Naples.

RAIN ALSO CHECKS TRACK MEN'S WORK

With Notre Dame Meet But Three Days Away, Coach Hopes for Better Weather Conditions

EXPECT GOOD BATTLE IN MILE BETWEEN CARROLL AND WAGGE

Donnelly Probably Starts Two-Mile Race Against Catholic Distance Men

Continued bad weather checked the Varsity track team again yesterday, the men indulging in nothing but light workouts, although the Notre Dame meet is but three days away.

If the weather clears up today, and continues fair for the rest of the week, the squad should be in good shape, but the coach can do little with his men on a day like yesterday or Monday.

One of the feature events of the meet with the Catholics should be the mile struggle between Carroll and Wagge. Carroll is in good shape, or should be if the weather clears up.

"Lee" Waterbury, the high jumper, attributes his defeat last Saturday to a poor pair of shoes, and hopes to have some new ones by the time the squad leaves for South Bend. As a rule, Waterbury is one of the most consistent performers on the squad.

From present indications, Donnelly will start the two-mile race against Notre Dame. The time in the Varsity meet was not particularly fast, but "Red" finished strongly, and unquestionably could have run the event faster if there had been any need.

Cross will have a big task on his hands in the weight events, for the Notre Dame team possesses a couple of good performers with the hammer and discus.

ELECT McMAHON PRESIDENT OF MINES AT MEETING LAST NIGHT

Choose Leonard Vice-President, Cliff Secretary, John Treasurer, Halsip Librarian

George P. McMahon, '16, was elected president of Mines, the operatic society of the Michigan Union, at last night's meeting and was automatically placed on the committee or committees whose duty it is to select the chairmen for the Union opera. John S. Leonard, '16L, was chosen to act as vice-president; Lyle M. Cliff, '16L, as secretary, W. A. P. John, '16, as treasurer, and Edward Halsip, '14L, as librarian.

In order that the book for next year's opera might be selected as soon as possible, a book committee composed of Prof. Louis A. Strauss, of the English department, Prof. Evans Holbrook, of the Law School, Earl V. Moore, head of the organ department of the school of music, Homer Heath, manager of the Michigan Union and P. Duffy Koontz, '14-'17L, president of the Michigan Union, was chosen. The personnel of this committee will have to be ratified by the board of directors of the Union before they will be considered active.

Immediately after the adjournment of the Mimes meeting, the committee on committees composed of Homer Heath, P. Duffy Koontz, Charles J. Kendrick, '15, Edward Halsip, and George P. McMahon, held a meeting for the purpose of selecting the general chairman for the 1916 opera. Definite action was not taken, however, and a second meeting has been called for 9:30 o'clock tomorrow night, when the business will probably receive its final consideration. Louis Bruce, '16L, Russell Collins, '16, and Francis T. Mask, '16E, are the men eligible for the position.

MAY ISSUE OF ALUMNUS WILL BE MICHIGAN UNION EDITION

Send Copies to Regular Subscribers and 25,000 More to Others

By an arrangement with the editor, the May number of the Michigan Alumnus will be a special Michigan Union issue. In addition to the regular circulation of the magazine, copies will be sent to about 25,000 alumni and former students, making a total issue of about 40,000.

The edition will contain plans of all five floors of the building and the basement, and pictures of the structure from two views. It also will have views of the various rooms, such as the lobby, lounge, swimming pool and similar pictures. Another section will have photographs of the organizers, of the campaign committee, and of the 170 men who will carry on the campaign in the various cities when it starts in October.

Dean Bates will write a formal announcement of the campaign, Allan K. Pond, '80, will write a description of the building plans, and there will be an article by E. W. Hinkle on the publicity and work of organization and editorials by W. B. Shaw, editor of the Alumnus. The issue will also contain official endorsements from the regents, the Alumni association and the university senate.

"EFTIE" JAMES BECOMES COACH

Takes Charge of Athletics at Ontario Agricultural College

"Eftie" James, who has been at one of the flank positions on Michigan's football team for the last two years, will make his debut as a regular coach when he takes up the reins of athletic directorship at Ontario Agricultural College, at Guelph, Ontario, September 15 of this year. His immediate work will be with the football team.

At Guelph they play football of the Walter Camp kind, and not the John Bull variety, so "Eftie" will be in his element in instructing the Canadians in the college pastime. He will also take charge of the baseball, track and basketball squads.

The contract between the Ontario Aggies and the Michigan end will extend for the period of one year, during which time the Wolverine lad will have charge of the major sports. The material at Guelph is usually promising, and last year was developed into a good eleven.

ANOTHER BIG CLEAN-UP OF slightly worn kodaks—Prices start at from 20% to 50% off regular prices, and reduce at the rate of ten cents per day until sold. Every one plainly marked—This is the biggest snap you ever saw.

DANCING classes and private lessons at the Packard Academy. Phone 1859-M. eod Wed

ENGINEERS MAKE EXPERIMENTS WITH DIFFERENT AUTOMOBILES

Try to Determine Actual Horse-Power Delivered to Road in Driving Car at Various Speeds

Work now being carried on in the automobile laboratory of the engineering college is attracting much attention among automobile men of the country. Experiments intended to determine the actual horse-power delivered to the road in order to drive various types of automobiles at different rates of speed are being carried on. The tests are made on a speedway on Fourth avenue, from Williams to Packard street. In this work it was found necessary to design a special electrical timing apparatus, to determine the rates at which the cars are speeding up or slowing down.

Permission for the speedway was obtained from the mayor and the police department several months ago. At this time experiments were conducted with a Hudson and a Krit. In the near future, work is to be started on a Hudson 6-54, a Franklin, a Packard and a Winton.

This is the first work of its kind to be undertaken in this country, the only other work ever done along these lines being carried on at Brooklyn's, London, England.

University Ave. Pharmacy Martha Washington Candy. Cigars. Cigarettes and Tobacco.

MAKE NEW USE OF WIRELESS STATION

Michigan Chess Team to Clash with Ohio State Via Ether Next Week

PLAY ONE CONSULTATION GAME

Wireless telegraphy will be used as a medium for the playing of a chess match when the University of Michigan team clashes with Ohio State University next week. Prof. L. C. Karpinski, of the mathematics department, one of the leading chess players in the United States, when interviewed last night, made the statement that, to the best of his knowledge, this would be the first chess match ever played by wireless.

Ohio State University issued a challenge to the Michigan chess team to play a game of chess by wireless. The challenge was accepted and the game will be played some time during next week, it being impossible to set any exact date owing to the fact that atmospheric condition changes have considerable effect upon the transmission of wireless messages. One game only will be played, this to be a consultation match. The different moves will be transmitted and received by the university operator at the wireless station in the engineering building.

The members of the Michigan team which will oppose Ohio State via the ether are: W. P. Adams, '17, William G. Given, '16E, Samuel Cohen, '17E, Fred Sacia, '15E, and E. C. Roth, '15.

In the correspondence tournament of five games, which has been going on with Harvard since last November, Harvard has just resigned one game to Michigan. The captain in charge of the winning game is W. P. Adams, '17, his opponent being R. K. Kanna, '17, of Harvard. The remaining four games, if not completed by May 26, will be adjudicated by the officials of the American Chess Bulletin.

APPOINTMENT COMMITTEE HAS TEACHING POSITIONS FOR 15

By placing 15 teachers last week, mostly members of the senior lit class, the appointment committee ended the worries of a few of the vast number who are looking for positions. All the appointments but one are in the state, that being in Valley City, North Dakota.

Those who received the appointments are as follows: Mabel Willison, '91, instructor of languages, Houghton; Ella Hunsberger, '15, history, Wyandotte; Mildred Williams, '15, teacher in County Normal, Croswell; George L. Altenburg, '15, science, Highland Park; Lelia Duff, '15, English, Ionia; Margaret Page, '15, languages, Manistique; Ruth Crandall, '15, languages, Munising; Helen Moise, English, Hancock; Ilda Jennings, history and English, Marine City; Gertrude Doyle, '15, languages, Howard; Elaine Shields, English, Valley City, N. Dak.; Hazel Goodrich, '15, English, Owosso; Ruth Dietz, '16, languages and principle, Grandville; Ruth King, English and mathematics, Detroit; Esther E. King, English, Midland.

DOCTORS READ PAPERS BEFORE MEETING OF CLINICAL SOCIETY

Papers will be read by Drs. Reuben Peterson, R. B. Canfield, A. S. Warthin, C. B. G. de Nancrede, C. G. Darling and J. G. Van Zwaluwenburg at the May meeting of the Clinical society of the University of Michigan, in the medical amphitheater of the university hospital, at 7:30 o'clock tonight.

At 9:30 o'clock the society is invited to the surgical amphitheater, to the meeting of the Michigan State Nurses' association, where demonstrations will be given of medical asepsis in the care of contagious diseases, and the preparation for operations in private residences.

University Ave. Pharmacy Drugs and toilet articles. Phone 416. tf

BATTING AVERAGE OF VARSITY SLUMPS SINCE LAST FIGURES

Leaders Fall Off, But Men at Foot of Column Show Steady Climbing

Hitting on the Varsity nine has suffered a slump among the former leaders, which has resulted in a falling off in team average in spite of a steady climbing in the averages of some of the men who were at the foot of the list when the averages were compiled after the southern trip.

The three games played since that time have pulled the team average for batting from .296 to .290. Six men, who have played in Varsity games, still have an average of more than .300, while the men who were below that figure at the last count have shown a tendency to rise, Maltby coming from .280 to .285, and Sheehy from .226 to .255. McQueen, Waltz and Labadie, on the other hand have suffered slumps.

The names, position, number of games played in, number of times at bat, number of hits and average of every man who has played in a regularly scheduled game follow:

Player, Pos.	Games	A.B.	H.	Avg.
Nichols, p.	2	4	2	.500
Harshman, c.	2	2	1	.500
Davidson, p.	5	15	6	.400
Sisler, p.	10	41	16	.392
Benton, c.	10	39	15	.384
Brandell, ss.	9	38	13	.346
Maltby, 1b	10	35	10	.285
Labadie, rf.	10	44	12	.272

PRESIDENT HUTCHINS TO TALK AT ANNUAL EPISCOPAL DINNER

President Harry B. Hutchins, Prof. Arthur L. Cross, of the history department, and Bishop Charles D. Williams, of the Episcopal diocese of Michigan, have been secured as the speakers at the annual Episcopal students banquet to be held at 6:30 o'clock Friday evening in Harris hall.

After the banquet, which is for all Episcopal students and faculty in the university, an informal dance will be held. The tickets, which are 50 cents a plate, may be secured from the curator of Harris hall, Irwin Johnson, '16, from 3:00 to 5:00 o'clock any afternoon, and from 7:00 to 9:00 o'clock any evening.

Paul Blanshard Wins Prize for Essay

Word has just been received in Ann Arbor that Paul B. Blanshard, '14, who was winner of more than a dozen forensic awards during his college career, has won the first prize of $200 for an essay submitted in a national contest held under the auspices of the National Church Peace Union. He wrote on the subject "Industrial Patriotism," taking as the basis of his work his experiences in social work in Boston.

"KING OF NEWSBOYS" PAYS ANN ARBOR VISIT ON WAY TO COAST

"Keystone" Sam Cole, who styles himself "king of the newsboys," was in Ann Arbor yesterday on the last lap of a 3,500 mile walking and riding trip between Key West, Florida, and San Francisco. Cole is accompanied by his wife, whom he married in Toledo a week ago. He makes his expenses by advertising shoes and men's clothing and is also a vaudeville performer, giving a talking and dancing act at various theaters on his route.

He claims to have been three times around the world during his travels, and to have covered 294,000 miles on these trips.

COCHRAN BELIEVES IN "AMA" INSIGNIA

Varsity Captain Favors New Award to Men on Team Not Making "M's"

ROWE SANCTIONS NEW MONOGRAM

Varsity Football Captain Cochran last night expressed himself as heartily in favor of the recommendation sent by the board of directors of the athletic association at their last meeting to the board of control, in regard to the awarding of "aMa's" to members of the Varsity football squad who do not receive their "M's."

The purpose of the board of directors in advocating the adoption of the new insignia in football, was to distinguish the large number of men who receive "R's" for their services on the second and third string football teams, from the comparatively few men who land on the Varsity squad, but fail to place in enough games to earn their "M's." The idea is similar to the awarding of "aMa's" in track to men who win their races in certain meets.

"The new plan would be a decided improvement," said Captain Cochran. "The 'R's' did not represent the amount of work the different men did last year. A total of 28 'R's' were given, men on the third team receiving them who rarely played, or even reported for practice, while the men who just fell short of making the Varsity received no other recognition. I hope that the new plan is adopted before the next football season, as it should be an added incentive for the men to work.

"The awarding of 'aMa's' to men on the Varsity squad would give them the recognition they deserve," said Intramural Director Rowe. "A few of the men should be distinguished from the many who receive their 'R's.' Care should be taken, however, to weave the 'a' in some sort of monogram, so that they could not be cut off, leaving the men in the possession of 'M's.' This has been done in the past with the track 'aMa's.'"

DOCTOR PETERSON TO ADDRESS COMBINED GATHERING TODAY

Speaks to State Nurses' Association and League of Nursing Education

Dr. Reuben Peterson will address the combined second-day sessions of the Michigan State Nurses' association and the State league of Nursing Education, at 9:30 o'clock this morning, in Sarah Caswell Angell hall. Professor Peterson's subject will be, "The Relation of the Nursing Profession to the Cancer Propaganda and Institutional Treatment of Contagious Diseases." Following this will be a talk on "Hospital Social Service," by Miss Sarah Burrowes, social service worker at the university hospital.

Prof. A. S. Whitney will speak on "Vocational training for Women," at the afternoon session of the organizations which will be held in Sarah Caswell Angell hall, at 2:00 o'clock this afternoon. Following Professor Whitney's speech, Miss Alice Lake, who is associated with Harpers hospital, Detroit, will talk on, "The Nursing Profession as a Vocation for Women."

The three-day session of the organizations will end tomorrow.

Auto Concerns Invite Inspection Tour

Several automobile factories in Detroit have extended to the automobile engine classes in the college of engineering an invitation to visit their factories and make a complete inspection of their equipment and production. Although the offer is made to the classes which are actually engaged in auto engine work, it is expected that all those interested will take advantage of the offer. Those who intend to take the trip are requested to hand their names to Prof. F. T. Fishleigh. The trip probably will be made on May 15.
