HUNDREDS TURNED AWAY FROM STATE NORMAL SCHOOLS

SUPT. JOHNSON CLAIMS LACK OF NECESSARY FUNDS AS MAIN REASON

ENROLLMENT INCREASE APPROXIMATES 2,000

Administrative Board Deliberates Methods of Overcoming Situation

Lansing, Sept. 27. — Failure of the legislature to appropriate amounts for the operation of the state's four Normal schools has so handicapped the institutions that they find it necessary to turn away hundreds of students who had planned to enter them this week, Thomas E. Johnson, state superintendent, told the administrative board today.

Members of the board are considering means of meeting the emergency, although some doubt exists over the legality of transferring the required amount from the emergency fund. Registration at the Normal schools Superintendent Johnson reported today amounts to 2,929, an increase over last year of nearly 50 per cent. In preparing the budget allowance was made for this expected increase, but the legislature cut the appropriation from the $2,500,000 requested to $1,954,000, the fund available not permitting employment of additional instructors needed to handle the large enrollment, Mr. Johnson declared.

RAILWAY STRIKE LOOMS AS BALLOTS ARE CAST

Chicago, Sept. 27. — An immediate strike of the 188,000 railway men employed on the American roads will be ordered if the strike vote, now being counted, favors it, James Murdock, vice-president of the organization, announced tonight.

"As a matter of fact," said Mr. Murdock, "a strike really was authorized already by the leaders. The minute the vote is counted the strike ordered will be issued — provided the vote favors a strike and there is little chance that the leaders will oppose the wishes of the men." Counting of the strike ballots will be completed within a few days.

PROF. GOULDING REPORTS LOSS OF MAP FROM DESK

Loss of a small map of a portion of France, from his desk yesterday, was reported last night by Prof. H. J. Goulding of the drawing department, who requested that if a student has it, that he return it immediately as it was not his property.

SUBSCRIBE TODAY!

The subscription price for The Michigan Daily is $3.50 per year to local and out-of-town subscribers. By writing The Daily office or signing a subscription card on the campus you will be assured immediate delivery.

All Michigan Dailies should be received regularly, in good condition and on the porch before seven-thirty in the morning. Subscribers will confer a favor on The Daily if they will report any unsatisfactory delivery.

Stunts Arranged For League Party

Funny darky minstrels, frolicksome dancers and the best of the campus singers expect to make freshman women forget that home and mother are far away, and give the upperclass women an added thrill to coming back at the opening party of the Women's league which is to be given at 7:30 o'clock tonight in Barbour gymnasium. Elise Smith, '22, Christine Murkette, '22, and other stars from last year's Junior Girls' play, "Selina Sue," will repeat parts of the play.

Dean Myra B. Jordan, Mrs. Marion L. Burton, Mrs. J. R. Effinger, Miss Marion Wood, and Miss Marion Dawley will form a receiving line to greet the members of the league. An orchestra will furnish music for dancing and refreshments will be served. This party is for all University women.

PRICES ON ROOMS DROP 25 PER CENT

Records Will Be Moved to Office of Dean Bursley After Today

LIGHTENED DEMAND CAUSES TUMBLE OF HIGH PRICES

"Plenty of rooms are still available for students. Prices have dropped 25 per cent in the past week and are still too high," stated J. C. Stevens, '23, chairman of the Union housing committee, yesterday.

More than 500 rooms are still unrented and the demand is practically at a standstill according to Stevens. These are mostly double rooms and suites, and would accommodate perhaps 1,000 students. Very few single rooms are vacant.

Double rooms which were held for $8 are now easily rented for $6.50, while single rooms formerly priced at $5 to $6 can be obtained now for $3 and $4, according to the committee's data. People who bought houses to obtain high rents are the ones responsible for the prices prevailing last week, in Stevens' opinion.

The committee meets for the last time from 8:30 to 11:30 o'clock today in the second floor reading room of the Union, after which the office of Joseph A. Bursley, Dean of Students, in University hall will handle requests for rooms.

Treasurer's Office Moved From Gym.

Following yesterday's business in Waterman gymnasium, the treasurer's office was moved back into old quarters in the south wing of University hall.

The final day in the larger quarters brought in the enrollment fees of 217 students, and numerous payments on gymnasium locker tickets and laboratory privileges.

The moving of the treasurer's office to temporary quarters in the gymnasium again proved to be one of the best ways of relieving congestion during enrollment week, according to officials. There was practically no waiting in line as there has been when the office remained in its permanent quarters.

New Fraternity Established

Alpha chapter of Beta Phi Delta fraternity, chartered last spring, has now fully organized on the Michigan campus and secured a house. This is the home chapter, but it is expected that other chapters will soon be established in the colleges of the Middle West. There are 25 members in this chapter. The house is situated at 908 Monroe street.

PRESIDENT GREETS FRESHMEN TONIGHT

Union Reception Committee Completes Arrangements for Welcome to '25 Men

LARGE TURNOUT EXPECTED TO FILL ASSEMBLY HALL

Plans were made by the reception committee of the Union at a meeting yesterday for President Marion L. Burton's meeting of the members of the freshman classes which will be held in the Michigan Union Assembly hall at 7 o'clock tonight. Members of the Sphinx and Triangle and the reception committee will introduce each freshman to the President. The Union orchestra will furnish music for the evening.

Emerson Swart, '22E, president of the Union, will give a short talk and then introduce President Burton, who will deliver an address of welcome to the members of the class of '25.

The reception committee hopes that there will be a large turn-out of freshmen to meet President Burton. The committee of the Union arranging the reception is composed of James G. Frey, '22, chairman; James Hume, '21, assistant chairman; David L. Boers, '22, Lawrence P. Murphy, '22L, Burton E. Dunlap, '23, Max R. Schraver, '23E, Samuel A. Ginsberg, '22, Victor H. Method, '23, Clifford W. Sipurt, '22, and Paul G. Goebel, '23L.

PROFESSIONALISM, NOT QUANTITY, AIM OF SCHOOL OF EDUCATION, DECLARES DEAN A. S. WHITNEY

"I don't want quantity, I want professionalism," Prof. A. S. Whitney, acting dean of the School of Education, said yesterday in an interview concerning the new education department. "We want to train people to be leaders in educational lines, high school principals, superintendents and college professors. We are not in the least interested in the young woman wearing a diamond ring on her third finger who wishes to teach school for a year and then specialize in cooking."

Enrollment Large

The School of Education, which was first installed at the University at the beginning of the Summer Session, has enrolled a total of approximately 300 students, many of them graduate students, including one having a degree of Ph. D. So far 139 have enrolled for the fall term. Dean Whitney stated that he expected an increase of about 100 students each year, and that those students would receive the highest training possible for education as a life work, work in which success and advancement were as much a reality as serious minded students wished to make it. This is the first year in which it has been possible to carry on highly advanced work in education for graduate students.

The germ of organization for the school was formed under the presidency of James B. Angell, who recognized the need for a well developed department of this kind, not only as best ways of relieving congestion during enrollment week, according to officials. There was practically no waiting in line as there has been when the office remained in its permanent quarters.

The School of Education includes a four year course in physical education in which entering students may enroll. The number of physical education students so far have numbered somewhat less than 30. Other students entering the regular School of Education must have 60 hours of university credit.

There are 15 members of the School of Education faculty, including Prof. James B. Edmonson and Prof. Guy M. Whipple, and eight professors of other colleges of the University who have been enrolled for part time instruction.

OPERA REHEARSALS WILL COMMENCE NEXT WEEK

PLANS FOR TRIP OF 1922 UNION PRODUCTION ANNOUNCED BY SHUTER

Rehearsals for the 1922 Michigan Union opera will begin next week in the newly constructed theater, according to E. Mortimer Shuter, director of the opera. A final opportunity for the appearance of tryouts will also be given some day next week.

The road trip which the opera will take this year is the longest ever taken by the cast of any previous production. Performances will begin on the night of Dec. 5 for a week's run at the Whitney theater. After a rest interval of five days the troupe will take the road, opening its road performances at Grand Rapids on Dec. 1. On leaving Grand Rapids performances will be given in the following cities, in order: Indianapolis, Dayton, Lima, Pontiac, Port Huron, Bay City, Saginaw, Flint, Toledo, Cleveland, Cincinnati, Chicago two nights, and finishing with two performances in Detroit.

Five plays have been submitted and the committee's action upon them will be announced in the near future. Several men are already writing music for the opera and anyone intending to do so should report to Mr. Shuter for lyrics upon which to work.

Relief Measure Meets Approval

Washington, Sept. 27.—Unanimous agreement about the emergency relief measure on the part of manufacturers to be recommended to the national conference on unemployment was reached today by the committee in charge of this branch of the country's employment problem.

The committee's report, which was not made public, is to be submitted to the full conference for adoption when it reconvenes on Oct. 5. It was understood, however, that the report would suggest some arrangement of working time to permit of a more numerous employment of workers by the manufacturers.

The first public hearing of the conference was held today on unemployment statistics and a number of witnesses presented data for the use of the delegates. Unreadiness to accept work at reduced wages was assigned as a contributory cause of the unemployment situation by Russell Phelps, director of statistics of the Massachusetts labor department, while Harry D. Jacobs, president of the ex-service men's employment bureau, declared the problem among former soldiers was to find positions for the great percentage of illiterate and unskilled men, too weakened from their service for hard labor.

ACCURATE CHECK ON ENROLLMENT INDICATES EARLY PREDICTIONS OF BANNER YEAR TO BE EXAGGERATED

TREASURER'S RECORDS SHOW 7,931 REGISTERED THIS FALL

WITH SUMMER FIGURES TOTAL WILL PASS 10,000

New Entrants for Second Semester May Make Year Surpass 1920-1921

At the present time there are 7,931 students enrolled for the regular University term and now on the campus, according to figures obtained from the treasurer's office at the close of Tuesday's business.

This figure does not include the Summer school enrollment of 2,767 with which, after subtractions are made for double enrollments, the total will be more than 10,000.

Late Entries Expected

Compared with last year the figure is still somewhat lower, but late entries are expected daily. A mean between the estimates made by the registrar's office and the treasurer's office would indicate that Daily 500 are still expected to present themselves for late registration. Should this estimate prove accurate, the enrollment of the student body actually on the campus would still be about 100 less than it was last year.

Figures and estimates do not show that the 10 per cent increase expected during the registration week will be reached. However, second semester registrations included in the totals for the past year, may bring this year's enrollment to a point above that of the University year 1920-1921.

4,500 in Literary College

Slightly more than 4,500 are enrolled in the College of Literature, Science, and the Arts, according to their records, and unconfirmed advices are to the effect that the Engineering school enrollment will be slightly more than 2,000. Because of transfers the secretaries of the various schools and colleges have not as yet completed their rolls.

Yesterday 217 students paid their tuition fees, and from now until the end of the first week in October there are 25 a day expected. Registrar A. G. Hall has given a great number of students entering late release from the payment of a tardy fee. Many presented reasons that they were unable to return until they were certain of financial conditions caused by the depression in the nation's business.

CONCESSION BIDS WANTED

Bids will be received for the Refreshment Concession on Ferry field for the college year 1921-22 up to 6 p. m. Thursday, Sept. 29, 1921. See Mr. Tillotson, Athletic Office, in reference to conditions and restrictions governing the concession.

RADIO NEWS SERVICE TESTS PROVE SUCCESS

SIX BIG TEN SCHOOLS REPORT STATIONS READY FOR OPERATION

Preliminary official tests, conducted by the Western Conference Radio News service for the purpose of determining the practicability of the proposed system for handling intercollegiate press, proved successful Monday night, to the extent of conducting an interchange of news between six of the Conference schools, Purdue, Wisconsin, Minnesota, Illinois and Northwestern sent out news briefs through the central station, "9ZN" at Chicago, and reported "ok" when that station later broadcasted the reports.

More Tests Tonight

Further tests will be conducted tonight, and it is believed that the system may soon be perfected so that news may be handled regularly between the various universities of the Big Ten.

At the present time the Michigan station, located on the Engineering building, is hampered by the fact that the main aerial was blown down late in the summer and has not yet been repaired. Pending rather extensive alterations and repairs, the University set is operating on the R. O. T. C. aerial, just south of the building, and is using the R. O. T. C. government call letters, "WUS." In spite of the difficulty attendant upon working under such conditions, however, the station Monday night was in direct communication with Wisconsin and with the central station at Chicago, and succeeded in putting through Michigan news with dispatch.

Time Schedule Arranged

The tests tonight will begin at 11:30 o'clock, Ann Arbor time. As before, Purdue, Indiana, Ohio State, Michigan, Wisconsin, Minnesota, Iowa, and Illinois will call "9ZN" in order, 15 minutes time being allowed for each. At 1:30, "9ZN" will then broadcast all reports sent him. The Chicago station is in communication regularly by telephone with Chicago and Northwestern universities, both of which are somewhat lacking in radio facilities.

The wave length used by most of the stations for the tests is 375 meters.

Women's League Offers Aid to Houses

In order to assist the league houses in individual organization the Women's league will, upon application to Joyce McCurdy, '21, vice-president, send a trained league woman to conduct the first house meeting, and to offer suggestions for efficient organization for the year.

Daylight Saving Time Ends Oct. 30

Ann Arbor clocks will be set back one hour Sunday, Oct. 30, changing the time here from Eastern to Central. This change will be made in accordance with the daylight saving plan ordinance of this city.

WARNING ISSUED AGAINST LIGHTING LAW VIOLATION

More than 50 persons, one-half of whom were students at the University, were arrested in Ann Arbor last Tuesday night in violation of the city ordinance which provides that no automobile shall be parked on any public highway at night unless it is lighted by at least three lamps, two in front and one in the rear, according to Chief of Police Thomas O'Brien of Ann Arbor.

"I wish to impress the people of Ann Arbor of their infringement of this ordinance," said the chief of police. "Many were also arrested last Monday night on this same charge."

BUSINESS TRYOUTS

Tryouts for the business side of The Michigan Daily may apply between 2 and 4 o'clock any afternoon this week. Men interested in advertising writing can be used at once. First semester freshmen are not eligible.

IMPORTANT NOTICE

Students must exchange athletic coupon fo athletic book before 12 noon October 1st, 1921. Otherwise they will have to pay admission of Fifty Cents for the Mount Union game. Books can be secured at the Athletic Office.

USHERS WANTED

Ushers wanted for Ohio State and Minnesota games. The Athletic Association will pay a fee of $1.00 for each game to University students, providing they are able to report at Ferry Field at 4:00 P. M. Friday, the day previous to the game, and at 12 noon on the day of the game.

Applicants for ushering appointments call immediately at the Athletic Office, Room No. 7, Ann Arbor Press Building, to leave coupon No. 4 and No. 5 with name, class and address on reverse side of each coupon.
