DAILY OFFICIAL BULLETIN

Publication in the Bulletin is constructive notice to all members of the University. Copy received by the Assistant to the President until 3:30 p. m. 431-59 a. m. Saturday.

Volume 8. FRIDAY, MARCH 23. Number 134.

University Senate:

The third regular meeting of the University Senate for the year 1927-1928 will be held in Room C, Law building on Monday, March 26, at 4:15 p.m.

Order of Business: Election of a member of the Board of Directors of the Michigan Union.

John W. Bradshaw, Secretary of the Senate.

Faculty, Colleges of Engineering and Architecture:

Because of a meeting of the University Senate which has been called for Monday, March 26, the meeting of the faculty of these Colleges, which was announced for that date, will be postponed to Tuesday, March 27, at 4:15 p.m., in Room 348 West Engineering Building. The purpose of this meeting is to consider the report of the special committee appointed to present to the Regents the action of this faculty on the University College.

Louis A. Hopkins, Secretary.

Faculty, Colleges of Engineering and Architecture:

The mid-semester reports on engineering and architectural students in their classes whose work is below passing should be made on cards which may be obtained in the office of the secretary, 261 West Engineering Building, or from the messenger boxes. These reports are to be filed in the secretary's office not later than Friday, March 30.

Louis A. Hopkins, Secretary.

To All Concerned:

In order to end the misunderstandings which have attended efforts to check long distance telephone bills each month the following rule will be effective on and after March 26:

All long distance telephone calls going out through the University Exchange will be placed with the University operator and not with the long distance operators of the Telephone Company. The users of University telephones for long distance purposes will hereby give to the University operator the same information that has been required in the past by the long distance operators of the central telephone exchange. The University operator will keep a record of each call and will thus be in position to check the bills for long distance service rendered by the Telephone Company.

It is not thought that this new plan will in any appreciable way interfere with the effectiveness of the service. The same plan has been in operation through the University Hospital branch exchange for some time and has given satisfaction there. There is not in any sense any curtailment of service or convenience. There is simply a centralization of the necessary records. Long distance calls will be placed over "direct lines" the same as in the past and no change whatever is contemplated by this new rule in the service at the University Hospital. The plan has been discussed and approved by the Deans.

Shirley W. Smith, Business Manager.

All Faculties and Students of the University:

The students of the Engineering College cordially invite you to attend their combined Engineering Open House and Exhibition which is being held in the various engineering buildings: East Engineering Building, West Engineering Building, the new Physics Building, and the University Power Plant, on Friday, from 1 p.m. to 5 p.m. and Saturday, from 8 a.m. to 5 p.m. Not only will all departments of the Engineering College be open to inspection, but in addition many interesting and valuable exhibits from outside the University will be available. We earnestly hope that you will all take advantage of this opportunity to visit our College.

Perry M. Shoemaker, Chairman Open House Committee.

Du Pont Fellowship For 1928-29:

The Department of Chemistry announces the renewal of the du Pont Fellowship (compensation $750) for the year 1928-29. Preference will be given to students who have had at least one year of graduate work. Applications should be addressed to the Department of Chemistry and sent to Room 212 Chemistry Building. They must be in by April 5.

M. Gomberg.

Transportation Exhibit:

The Ballentine sound film "The Fate of the Iron Horse" will be shown repeatedly, Room 1042, East Engineering Building, Friday and Saturday from 9 a.m. to 5 p.m. During the intervals the Department of Chemical Engineering will offer a 15 minute exhibition of popular experiments.

J. S. Worley.

Senior Engineers:

Every man now actively engaged in the mechanical operation of the Open House is asked to meet Friday at 4 p.m. in Room 348 for the purpose of ushering visitors through the Engineering College.

Harold L. Matheson, President.

All Engineers:

Your attention is especially called to the Michigan Content air-brake inspection car which will be in operation and on exhibition today from 8 a.m. to 4:00 p.m., directly behind the Health Service. It is distinctly worth visiting.

Perry M. Shoemaker, Chairman Open House Committee.

Senior Mechanical Engineers:

Mr. F. A. Pope, representing the Worthington Pump and Machinery Corporation of Harrison, New Jersey, will be in Room 221, West Engineering Building, Friday, March 23, for the purpose of interviewing those interested in positions with this company.

H. C. Anderson.

Rehearsals For Dubois' Seven Last Words of Christ are Scheduled as follows:

Chorus, soloists, and orchestra meet in School of Music Auditorium Monday, March 26, at 7 o'clock, p.m.

Chorus and soloists meet in Hill Auditorium, Room 312, Friday, March 30, at 11 o'clock, a.m.

Soloists and orchestra meet in School of Music Auditorium at 4 o'clock on Friday, March 30.

Chorus and soloists meet in Hill Auditorium, Room 312, Monday, April 2, at 11 a.m.

Chorus, soloists, and orchestra meet in the School of Music Auditorium, Monday, April 2, at 7:30 p.m.

Chorus, soloists, and orchestra meet in School of Music Auditorium, Tuesday, April 3, at 8 p.m.

Chorus, soloists, and orchestra meet on stage in Hill Auditorium at 11 o'clock a.m., Wednesday, April 4.

Chorus, soloists, and orchestra meet on stage in Hill Auditorium at 4 o'clock, Wednesday, April 4, for concert.

Roy S. Langham, Conductor.

Ann Arbor Art Association:

The Print Makers' Society of California exhibition of Etchings, Dry Points, Lithographs, and Wood Blocks opened Sunday afternoon, March 18, and closes Sunday afternoon, April 1.

Bruce M. Donaldson, President.

RADIO OPERATOR FOR UNIVERSITY GREENLAND EXPEDITION TO MARRY

When Paul C. Oscanyan, Jr., radio operator for the University Greenland expedition, leaves the Mt. Evans weather observatory on March 28 or shortly thereafter, he will proceed to Copenhagen to consummate his radio romance of the past summer.

Aboard the Disko, Danish government steamer, while the Hobbs party was proceeding last summer from Copenhagen to Nolatenborg, Greenland, Oscanyan, to his enormous resentment, found a woman operator in the radio cabin. The woman was Miss Astrid Funder, better known on the campus as the daughter of the director of the famous Copenhagen school of navigation.

Resentment, it is said, was the only emotion that Oscanyan registered throughout the entire part of the voyage. At Godhaab, however, amid the countryalities of a party aboard the Disko, Oscanyan and Miss Funder became better acquainted. When the Disko reached Nolatenborg it was found by the Hobbs expedition that Oscanyan dinned the entire evening with Miss Funder at a party given by the governor.

Their ways parted there, and Miss Funder continued with the Disko while Oscanyan went down to Mt. Evans. Letters, however, and candy drifted into camp for Oscanyan whenever the Disko passed the mouth of Scoresby Sreound at the head of which was Mt. Evans. A longwave receiver, also, was set up in the Mt. Evans radio cabin to intercept messages broadcast from the Disko.

The Disko, however, was without a short-wave receiver to catch messages from Mt. Evans until Ralph L. Delknap delivered a spare one from Mt. Evans. The night after the set was delivered Miss Funder talked all night with Mt. Evans, speaking long wave and receiving replies in short wave. She also received several queries from owners of long-wave sets in the region as to her purpose in transmitting a lot of amorous nothings, without receiving any replies. On the second night of two-way communication a proposal was radioed from Mt. Evans and accepted from the Disko.

A short-wave amateur in New Jersey happened to pick up the proposal, and sensing an affirmative answer, transmitted first news of the engagement to Oscanyan's father in New York the following day. When the Disko docked the Skaus-Blade of Copenhagen carried a cut of Miss Funder with the caption, "Horlovet. Radio med Hobbs Ekspeditionen Radio-Telegrafist, Mr. Oscanyan."

The Training School for Jewish Social Work

Offers a fifteen months course of graduate study in Jewish Family Case Work, Child Care, Community Centers, Federations and Health Centers.

Several scholarships and fellowships ranging from $250 to $1300 are available for especially qualified students.

For information, address

The Director

The Training School for Jewish Social Work

210 W. 91st St., New York City

DETROIT MANAGER TALKS OF YOUTH

"We believe in young people," said E. S. Shick, credit manager for the Crowley-Milner company of Detroit, in a speech delivered yesterday afternoon in Tappan hall. He went on to discuss the subject by showing that young men and women, lauded by a comparatively small number of more experienced people, put the necessary punch into an organization.

In discussing the reputation for a good credit man Shick pointed out the need of being well acquainted with one's locality in regard to the people employed, their salaries, and the degree of stability of the positions. These facts are necessary to determine the amount of merchandise that can be safely advanced on credit to these employees.

BOOKS ON BIRDS ARE INCLUDED IN DISPLAY

Many Works Of Famous Old Naturalists Are Being Exhibited At Main Library Now

ENGRAVED PLATES SHOWN

Books pertaining to birds with life size pictures in their natural colors constitute the latest collection on exhibition in the Main library, where works of famous naturalists of the 18th century are on view.

Audubon, the French naturalist, published 29 sets of life-sized pictures of birds for American subscribers in the early part of the nineteenth century. The University acquired a set in 1835, which was one of the first books to be bought by the library. A full sized picture of the American Turkey, as well as a drawing of the Ruby Throated Humming bird are on exhibition.

Two copper plates were loaned to the library by the University museum, and were engraved by Alexander Wilson, noted American naturalist. John Gould has two books of bird life in the collection, one shows the Trogon family, while the other, Birds of Australia, shows the Bower-bird. The Sappho Hell-star, of the Humming bird family, is a rare bird, found only in La Paz, Bolivia, at the foot of the western side of the eastern Cordilleras. It lives on dry elevated land, about 11,000 feet above sea level.

A laborious compilation of the bird genealogy is the contribution of Thomas Pennant, whose works were written between 1766 and 1777. The work is opened at a picture of the common wild dove or pigeon.
