MICHIGAN WINS FROM IOWA AND LEADS BIG TEN

HOME RUN BY TESS EDGAR IN TENTH INNING SCORES WINNING TALLY

SCORE IS 6 TO 5

Wolverines Score First In Third But Hawkeyes Tie Score In Fourth; Loss Ties Count In Ninth

Michigan captured the lead in the Big Ten baseball race yesterday when Tess Edgar came to bat in the tenth inning with the score tied and hit a home run that rolled to the tennis courts giving the Wolverines a 6 to 5 victory over Iowa.

The home run culminated the most thrilling game seen on Ferry field this season, a free hitting game in which both teams alternated at taking the lead, an argument, and a crowd cascading on the field to greet the victor at the finish. Edgar was the first man to come to bat in the tenth inning. The first ball Towne pitched was wide, the second was keen high and on the outside of the plate, and Edgar hit it, sending it over the head of the second baseman and between the right and centerfielder to the middle of the first tennis court. By the time Flinn reached the ball Edgar was rounding third base and he scored standing up.

Walter Strikes Out Four

Besides the home run Edgar got a single in the third inning, and he with Loos led the Wolverines in batting during the afternoon, each getting two hits out of four attempts. Walter, pitching his second game in four days, allowed the visitors 12 hits, keeping them scattered in all but the fourth and ninth innings, striking out four men and walking the same number.

The Wolverines scored first in the third inning on a single by Jablonowski, a sacrifice by Walter which Loos was safe on a fielder's choice and Captain Wilson scored both of his teammates with a double to left field.

The Hawkeyes tied the score in their next time at bat, Flinn and Terry singled, Hoben grounded to Kubicek, neither of the runners advancing, and Smith singled along the first base line scoring both men.

The Iowans took the lead in the fifth inning when Walter walked McNabb; Flinn reached first on an error and both scored on Terry's hit to center field.

Count Evened in Eighth

Michigan evened the count in the eighth inning. Coates showed signs of weakening by walking Oosterbaan and Edgar. To the howling of the crowd who sensed a score, Kubicek crowded both runners with a sacrifice, and Jablonowski sent them both home with a double over first base.

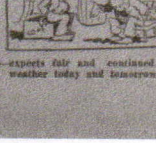

Iowa again took the lead in the ninth. Carbin tripled and scored on a single by Heinemann, and the Wolverines, not to be outdone, also scored a run. Loos walked and stole second, went to third as Wilson was being retired at first and came home on Neville's sacrifice fly to center field.

Box score:

Iowa	AB	R	H	PO	E
Heinemann, lf	4	2	1	0	0
McNabb, ss	3	1	0	1	0
Flinn, cf	5	2	2	2	0
Terry, rf	4	1	2	1	0
Hoben, 1b	4	0	1	9	0
Smith, 3b	4	0	2	1	0
Ruggeman, 2b	4	0	0	2	0
Miller, c	5	0	1	5	0
Carbin, p	4	1	2	0	0
Towne, p	0	0	0	0	0
Totals	37	5	10	27	0

Michigan	AB	R	H	PO	E
Loos, ss	4	2	1	2	0
Wilson, 1b	4	0	1	10	0
Kubicek, rf	3	0	0	0	0
Oosterbaan, rf	4	0	2	0	0
Edgar, c	4	2	2	9	0
Puckelwartz, cf	1	0	1	2	0
Kubicek, 2b	4	0	1	2	0
Jablonowski, 3b	4	1	2	1	0
Walter, p	3	0	0	2	0
Totals	31	6	9	30	1

Summary: Home run—Edgar. Three base hit—Carbin. Two base hit—Wilson, Jablonowski. Struck out—By Carbin 5; Walter 4. Bases on balls—Off Carbin 5; Walter 4. Umpire—Cleary, Notre Dame.

—Expects fair and continued cool weather today and tomorrow.

SPERRY DISCUSSES THEORIES OF TOIL

Harvard Theologian Defines His Three Conceptions Of Human Work At Sunday Convocation

SKEAT RENDERS MUSIC

Human toil, considered as labor for bread, then as the drudgery of the majority for the privileges of a minority, and finally as a co-partnership with God, was the theme of Dr. Willard L. Sperry, dean of Harvard Theological seminary, in his convocation address Sunday in Hill auditorium. Dr. Sperry's subject was "Our Part in the Work of the World."

"The first conception of human toil," said Dr. Sperry, "is that found in the 3rd and 7th chapter of Ecclesiastes. This view of human toil is that the majority of men are condemned to hard labor and drudgery that a minority may enjoy privileges, —that culture in the lot of the minority. This is the view held by Nietzsche and Bertrand Russell. The problem is then to so organize society that the minority may be free to enjoy its privileges." Dr. Sperry pointed out that this has never been worked successfully and cited examples of men in recent times who had to labor at work they did not enjoy and were forced to say, "I never like it."

"The third conception," concluded Dr. Sperry, "is that of the copartnership with God, the placing of a religious interpretation upon human toil. This interpretation of work requires that people have the right to demand of work that it give food, clothing, and security against old age; that the universe be thought of as a living universe and not as a sinking ship to be scuttled; and, that human beings gain a true conception of their reliance upon and relationship with others."

Howard Y. McClusky of the psychology department gave the prayer. William J. Skeat, graduate of the School of Music, was at the organ, and Julius Nishaus, S. of M., sang. The convocation was the second of the four services planned by the Student council for University students and faculty.

Changes Made In Official Ballot

Meeting to fill the vacancies in the list of candidates for the position of literary vice-president of the Union, caused by the ineligibility of Stanford N. Phelps, '27, and the withdrawal of John Halsted, '27, the nominating committee of the Union last night nominated Gordon Van Loan, '27, to bring the number of candidates up to the required number.

At this time, the petition of Howell Enos, '27, requesting that he be withdrawn from the list of candidates for the presidency of the Union, and Halsted on the ballot for recording secretary, was accepted.

Yesterday the name of Robert S. Miller, '27, for president of the Oratorical association was withdrawn and the name of Jerome Mikesell, '28, substituted. To replace the withdrawal of Mikesell's name from the vice-presidency, Lyle E. Eiserman, '28, was added.

Thomas V. Koykka, listed for treasurer of the Oratorical association, withdrew his name from that position, and the name of Frederick Schoemann, '28L, was substituted.

Arnold G. Andersen, '27, by petition, has been placed on the ballot as candidate for president of the Student Christian association.

MEXICO CITY.—Radio reports say 200 rebels, under the orders of the Vidales brothers, attacked Acapulco

KALAMAZOO IS WINNER IN HIGH SCHOOL LEAGUE

RECEIVES UNANIMOUS VOTE OF JUDGES IN DEBATE WITH HUDSON TRIO

TEAMS GET CUPS

More Than 2,000 People Hear Child Labor Questions Discussed In Hill Auditorium

Before an audience which packed the main floor of Hill auditorium last night, Kalamazoo Central high school debating team won the sixth annual state championship contest of the Michigan state high school debating league. Successfully defending the negative side of the question—"Resolved: That the Proposed Child Labor Amendment to the National Constitution Should be Adopted by the United States," the Kalamazoo team was awarded the decision by unanimous vote of the judges. The affirmative was supported by Hudson high school.

The teams were composed of three members, each of whom was permitted ten minutes for constructive argument and five for rebuttal. Representing Kalamazoo was Dudley Johnston, John Geer, and Harry Lee Eadsley. The personnel of the Hudson team was Wilbur Reiserring, Robert Baldwin, and Robert Tripp.

Winner Make Three Points

Kalamazoo debaters maintained their position chiefly on three points: first, that the adoption of the proposed amendment for federal child labor control would mean an excessive overburdening of our government, already unable to cope with existing legislation efficiently; second, that it would mean a similar overburdening of the courts; and third, that laws enforced under this amendment might prove too sweeping in their effect. The affirmative endeavored to prove that the amendment should be adopted because of the inadequacy of existing state child labor regulations, because of a lack of uniformity in standards and enforcements, and because of the duty of the government to protect the welfare of the country's children.

Contestants Given Prizes

More than 2,000 people are estimated to have been present at the debate, and included in the audience were representatives from more than 35 of the high schools enrolled in the debating league. Dr. W. D. Henderson, director of the Extension division, acted as chairman of the program, and was introduced by G. E. Densmore, league manager. Prior to the opening of activities, the Varsity band rendered several selections. Other debate officials were Mr. S. E. Elliott, principal of the East Grand Rapids high school, and Ola B. Hiller, Yale debate coach who acted as timekeepers.

The judges selected were: Dean John R. Effinger, Ira H. Smith, University registrar, Profs. Thomas C. Trechbeal of the public speaking department, Joseph R. Hayden of the political science department, and James B. Edmonson of the School of Education.

The winners were awarded a permanent bronze, silver-ornamented loving cup, a smaller one going to the runners-up.

Initial Flight Of University Balloon Sunday Is Successful

Making their first flight in the University's balloon, three students of the aeronautical engineering department, Milton Thompson, grad., Vernon B. Qua, '26E, and Herbert Winter, '26E, traveled Sunday morning from Detroit to Fayette, Ohio, by way of Jackson and Bryan, Thompson, accompanied by Prof. Ralph H. Upson, chief engineer of the Aircraft Development company, Detroit, who acted as pilot. They were in the air 6 hours and covered more than 130 miles.

After delaying their departure from Saturday night, as scheduled, until 5:45 o'clock Sunday morning on account of slight leakages in the bag, the party started from the Highland Park plant of the Ford Motor company and were carried forward and Ann Arbor by a westerly wind. After passing over the campus at approximately 7:30 o'clock they proceeded to Jackson, where an altitude of 2,000 feet was attained to investigate the direction and speed of the air currents at higher levels.

In this observation, only southwesterly and southeasterly currents were encountered. Choosing the latter of these, the party left Jackson, and traveling at a 10 mile an hour rate reached the vicinity of Fayette, Ohio at 11:30 o'clock. Although the flight could have been prolonged several hours, it was decided to land there. After descending from the 6,500 feet level an ordinary landing was attempted by valving gas. Because of the brick ground beacon and numerous air pockets, however, this was unsuccessful, and Professor Upson was forced to pull the "rip panel", completely deflating the balloon.

In relating the story of the trip, Thompson described the sensation experienced during the flight as one of "great calmness" produced by traveling at the mercy of the wind. Beautiful scenery was seen throughout the journey, and many lakes were observed in Jackson county, he said. Pictures were taken of the campus when the party passed over Ann Arbor as well as at the start and finish of the trip.

When interviewed yesterday, Prof. F. W. Pawlowski, head of the aeronautical engineering department, declared that the flight was "an interesting demonstration of the safety of free ballooning," which he described as "the least dangerous sport."

The balloon, which was filled with coal gas at the Highland Park plant of the Ford Motor company, has a capacity of 40,000 cubic feet, being more than 45 feet in diameter. The basket, suspended beneath the bag, will hold four passengers comfortably. After its deflation, the balloon was shipped to the Detroit laboratory of Professor Upson.

Plans are now being made for a second trip to be taken during the next week-end by another crew of aeronautical engineering students.

Summer Camp Funds To Be Raised Today

Opportunity to contribute to the Fresh Air camp fund will be provided this morning at five places on the campus where the Student Christian association will station collectors to receive donations to help finance the summer camp, according to John S. Denton, '27, chairman of the drive. The committee hopes to raise more than $1,500 which is the quota set for student contributions, the remainder of the budget being contributed by business men of Ann Arbor.

Tags will be sold at the Union, Engineering arch, the Library, the State and North University corners of the campus and at Harbour gymnasium by members of Sphinx, Triangle, Druids and the "M" club. Tags have also been sent to fraternities and sororities for which the contribution should be sent to the chairman of the drive at Lane hall. All other students are requested to make their donations at the places designated on the campus.

Last year, more than 400 boys from poor and needy families were provided with ten-day vacations in the country which otherwise would have been impossible. The boys are chosen from the community centers of Detroit, Ann Arbor, Flint and several other cities.

All money received goes into the operation of the camp, except as the donor specifies the gift for a definite purpose. The overhead expense is handled from the general budget of the Student Christian association which makes possible the progressive continuity of this work for needy boys. As more adequate equipment is provided, many campus organizations will have the use of the property for week-end conferences in the spring and fall.

HOBBS PRAISES WORK OF BYRD IN POLE FLIGHT

Expressing himself as immensely pleased to learn of the flight over the North Pole Sunday by Lieut. Commander Richard E. Byrd, Prof. William H. Hobbs of the geology department stated yesterday that it is probably the greatest exploration achievement since the discovery of the pole by Admiral Peary in 1909. Professor Hobbs, who is well acquainted with the United States navy aviator and his brother, Charles F. Byrd, governor of Virginia, sent a message of congratulations to the latter yesterday in behalf of his brother's feat.

"I am very glad to learn of Byrd's success," said Professor Hobbs, "and he is certainly entitled to hearty congratulations. Byrd is a fine fellow and a very good sport."

Upon the request of Byrd, Professor Hobbs presented him with a photostat of the official map of Greenland just previous to his departure for the polar regions.

A. B. Parker Dies

(By Associated Press)

NEW YORK, May 10.—Alton Brooks Parker, who rose from the obscurity of a post's quest on a New York state farm to bear the standard of the Democratic party against Theodore Roosevelt in the presidential race of 1904, died today while riding in an automobile through Central Park.

BOARD CHANGES CHIMES' POLICY OF PUBLICATION

MAGAZINE TO BE DISTINCT FROM DAILY; WILL BE ISSUED ON SATURDAY NIGHT

HORNBERGER EDITOR

Board Offers $100 Awards For Students Maintaining "B" Grade While On Publications

By action of the Board in Control of Student Publications yesterday afternoon the policy of Chimes, campus literary magazine, was altered to the extent that next year it will be a distinct publication from The Daily, to be distributed separately, and will probably be considerably changed in make-up and size. A resolution was also adopted at yesterday's meeting providing for an award of $100 to every student working on publications whose scholastic record is "B" grade or better, and who has satisfied other requirements, in charge of the former system of three awards of $250, $150, and $100 to students on publications maintaining the highest scholastic average.

In altering the policy of Chimes, the board hopes to increase its literary aspect by enlarging the publication. Present plans also call for the publishing of the magazine on a better grade of paper than at present. It will be distinct from The Daily in every respect and will be distributed every Saturday night. The subscription rate for next year will be determined at a conference of the business managers of the board, Chimes, and The Daily. The salaries of the managing editor and business manager will be the same as those received by the executives of the Michiganensian and the Gargoyle.

Appoint Chimes Executives

The board appointed Theodore Hornberger, '27, managing editor of Chimes for next year, and William Mellis, '27, business manager.

In order to obtain one of the awards among the new system adopted by the board, any student who has worked on a campus publication for four semesters, and has maintained a scholastic average of "B" grade or better will receive the sum of $100 upon making application to the board next fall. By changing the system, the board has provided an opportunity for more students with high averages to receive remuneration for their records. The board's resolution follows:

Resolved: That the Board in Control of Student Publications shall, for the current year, offer each prizes of $100 each for scholarship attainment according to the following rules:

Rules For Prizes

1. Every student who has done substantial and satisfactory work on any student publication, or publications, for four or more semesters shall be eligible for one of these prizes. The summer session will be rated as one-half a semester.

2. Every such student who has attained an average scholarship record of 'B' or better during the period above specified shall receive one of these prizes.

3. Every student who believes himself entitled to a scholarship prize shall file an application for the same at the board office in the Press building after the opening of the University in the fall and before November 1, and the prizes shall be awarded and paid before the holidays.

4. No student shall be an applicant for any scholarship more than once.

5. The scholarship standing of each applicant shall be estimated in accordance with the system of grading currently employed in the various schools and colleges of the University unless and until another be adopted by the board.

The board named Paul Arnold, '27E, as business manager of The Summer Daily. The managing editor will be appointed by the board soon.

According to a resolution adopted by the board, upper staff appointments of all publications must be announced during the week following the appointment of managing editors and business managers, in view of the discontinuance of the annual publications banquet which was effected at Saturday's meeting. All appointments this year must accordingly be made before next Saturday.

Fellowship Given To Daniels, '26Ed

Frederick I. Daniels, '26Ed, has been awarded a Kennedy fellowship for a year of graduate work at the New York School of Social Work, New York City. Two of these fellowships are granted each year in a nation-wide competition and entitle the holder to $1,200. Instead of an examination which has been used as a basis for selection in past years a detailed personality questionnaire was submitted to each candidate.

Starts For Pole

(By Associated Press)
Captain Roald Amundsen

OSLO, Norway, May 10.—Advices from King's Bay report that active preparations were underway today for the start of the dirigible Norge, of the Amundsen-Ellsworth expedition for the north pole. Weather conditions were good and it is understood that the dirigible would begin her perilous journey possibly sometime tonight.

"STRIKE CONTINUES UNABATED," REPORT

Trains Move Freely And Lorries Take Food Through Streets Of London

WORKERS STILL FIRM

(By Associated Press)

LONDON, May 10.—In the words of the British government itself, "The general strike as a whole continues unabated throughout the country." In making this announcement, the government adds:

"The success of the authorities in maintaining the feeding and vital services of the people must not obscure this grave fact or the increasingly wasteful consequences to all classes."

Well-guarded lorries loaded with food supplies continued to pass through the streets of London today, trains moved more freely, the striking workmen continued to obey their leaders, and disorders of any kind were few.

On the side of labor, the general council of the Trades Union congress issued the following message, which appeared in the British Worker, headed "All's Well":

"We are entering the second week of the general stoppage in support of the mine workers against an attack on their standards of life by the coal owners. Nothing could be more wonderful than the magnificent response of millions of workers to the call of their leaders.

"From every town and city in the country, reports are pouring in to the general council headquarters stating that all ranks are solid and that the working men and women are resolute in their determination to resist the unjust attack upon the mining communities.

"The general council's message at the opening of the second week is:

'Stand firm, be loyal to instructions and trust your leaders.'"

Nothing thus far has developed relative to calling out labor's "second line of defense" comprising gas, electrical, and general utility workers, but in the meantime, the council has sounds the services of the parliamentary labor party to direct meetings all over the country for the purpose of holding the strikers together.

President Little Talks At Banquet

Sigma Xi, national honorary society for the promotion of research in both pure and applied sciences, held its annual initiation banquet last night at the Union. Ceremonies were held for 62 consisting of the 23 who were elected to full membership in the society, the 16 who were advanced from associate to full membership, and the 23 who were elected to associate membership.

Following the initiation, speeches were given by President Clarence Cook Little and Prof. Edward M. Bragg of the naval architecture department, president of the society.

LONDON.—King George has given up his usual morning horseback ride during the strike crisis.

SWING-OUT OF SENIORS WILL BE HELD TODAY

CLASS PRESIDENT AND HEAD OF STUDENT COUNCIL WILL LEAD PROCESSION

BAND WILL PLAY

President Clarence Cook Little Will Address Graduates At 4 O'clock; Rev. Lewis To Offer Prayer

Garbed in the distinctive dress of long, black robes and tasseled caps, members of the class of 1926 in all colleges of the University will gather at 3:15 o'clock this afternoon near the steps of the Library to observe the annual Swing-Out ceremonies. Placards will be placed on the diagonals where the various colleges will meet. Robert M. Grub, chairman of the event, stated yesterday.

With the Varsity band preceding, Harry G. Musser, president of the literary class, and Kenneth C. Keller, president of the Student council, will lead the two-columned procession down the walk to University hall, past the Law building, and to the side entrance of Hill auditorium, only the center inside doors of which are open to the march into the auditorium. In accordance with a change begun last year, those seniors entering the auditorium first will fill the seats in the rear, and this same process continued until the seniors have all taken their places. The original line of march will in this way be preserved after the ceremonies. The band will occupy the front seats in the auditorium.

President Will Speak

President Clarence Cook Little will address the graduates at 4 o'clock. Rev. Henry Lewis will give the invocation preceding the ceremonies, and the prelude and the recessional will be played by Prof. Wassily Besekirsky.

Dressed, each with a distinctive tassel, will fall in line in the following order with the class officers preceding each department: Women, men of the College of Literature, Science and the Arts, black tassels; seniors of the Colleges of Engineering and Architecture, orange and red tassels respectively; seniors of the Medical school, green tassels; seniors of the Law school, purple tassels; seniors of the College of Dental Surgery, blue tassels; seniors of the College of Pharmacy, olive tassels; graduates of the Graduate school; seniors in the School of Education, light blue tassels; seniors in the School of Nursing, green and white tassels; seniors of the School of Business Administration, drab tassels; and, seniors in the School of Music.

At the close of Dr. Little's address, the "Yellow and Blue" will be sung, and the graduates will file out of the auditorium in the original line of order and march across the campus.

In case of rain, the seniors will meet in Hill auditorium at 3:45 o'clock.

Second Tradition Observed

This will be the second of the traditional events observed by the class of '26. Class day having occurred on May 3. Starting tomorrow, the senior class will be garbed in their caps and gowns for the first of a series of weekly appearances on Wednesday; these will continue until Commencement time. At 7:15 o'clock tomorrow night, the first Senior Sing will be held in connection with the band concert on the Library steps.

FRATERNITY PRESIDENTS WILL BANQUET IN UNION

Called by representatives of fraternity alumni organizations, there will be a meeting of house presidents opening with a banquet at 6:30 o'clock tonight at the Union. The gathering was given out as a similar meeting held last January at the request of President Clarence Cook Little. At this former meeting of alumni officers it was recommended that several committees be appointed and asked to make certain investigations, reporting on them at a later date. The reports of the five committees have been prepared and will be submitted tonight.

The first of the committee reports—all of which deal with some phase of fraternity problems—will be that on fraternity scholarship. The chairman of this committee is Mr. Helen G. Smith, '17. The other four committees are: committee on delayed pledging, headed by Mr. Thurlow E. Gee, '23; committee on fraternity bonding and finance, headed by Mr. Herbert B. Tritt, '12; committee on relations of the professional fraternity to the University, headed by Mr. Richard H. Kerr, '08; committee on the liquor problem and the fraternity, headed by Mr. Michael H. O'Brien, '96.
