*MEMORIAL LIBRARY:*

## Prof. Joseph Hayden Devoted Life To Philippine Research

PROF. JOSEPH R. HAYDEN

Prof. Joseph R. Hayden, the chairman of the University political science department for whom the proposed memorial library at the University of the Philippines is named, devoted over 25 years to research and close-hand study of Philippine life and history.

It was largely because of Prof. Hayden's great interest in the University of the Philippines that students voted last spring to adopt that institution and make special efforts to aid in its reconstruction. Student participation in the national campaign now under way to raise funds and textbooks for the library will be centered in the student talent show April 20, a dance in Waterman Gym and a campus-wide pledge subscription campaign.

Prof. Hayden was appointed Vice-Governor of the Philippines by President Roosevelt in 1923, and also served at that time as secretary of public instruction in the territory. For four months in 1935 during Governor Frank Murphy's absence, he was acting governor, and won the admiration and respect of the Filipinos, according to local press reports of the time.

He served as chairman of the University political science department from 1937 to 1943, when he was given leave to fill the position of civil advisor to General MacArthur. After returning to this country in May, 1945 and resigning that post in preparation to resume his duties here, he died suddenly at the age of 57.

During the year 1922-23 he was exchange professor at the University of the Philippines, and later returned as Carnegie visiting professor in 1930-31. During this period he wrote numerous articles for historical periodicals such as "Foreign Affairs," and "Current History," and for the "Christian Science Monitor" concerning American - Philippine relations, Philippine independence and Philippine life and history. He also served as director of a number of college round-table discussions, held offices in the American Political Science Association, and was a member of several national committees concerned with Far Eastern affairs.

Prof. Hayden wrote a comprehensive book, "The Philippines: A Study in National Development," a monograph on population problems in Puerto Rico and the Philippines, and edited and revised the book "The Philippines, Past and Present" by Dean C. Worcester.

## *Concert Will Be Given by 'U' Band*

The University Concert Band, under the direction of William D. Revelli, will present a concert April 12 in Indianapolis, Indiana, in conjunction with the North Central Music Educator's Conference to be held there.

The program, which will highlight selections featuring the band's cornet trio, Mary Kelly, Dorothy Bosscawen and Margaret Bosscawen, will include compositions by Gallpis, Wagner, Franck and Grieg.

### Survey Will Be Made

The University Survey Research Center will analyze public attitudes toward the present international situation and American foreign policy in a national survey to be conducted between April 7 and April 19.

## *Dairy Strikers Charged With Seizing Milk*

### Thousands of Gallons Taken From Trains

NEW ORLEANS, April 2—(AP)—Even as Louisiana's turbulent dairy strike moved toward a climax, a federal grand jury brought theft or mail-retarding charges today against 25 men accused of seizing milk from trains in an effort to cut off the New Orleans supply.

United States officers headed for Amite, where armed men took thousands of gallons of milk off Illinois Central Railroad trains last week. The officers bore warrants for the arrest of those named in the indictments.

**Truck Seized**

Meanwhile, the grand jury turned to an investigation of the seizure of motor trucks bound for this city and the dumping of their milk cargoes.

At Kentwood, State Representative Harry Johnson told a meeting of non-striking dairymen that Governor Jimmie H. Davis had assured him he would call a special session of the Louisiana Legislature to deal with the situation.

**Committee Is Named**

Newsmen at Baton Rouge waited for word from the governor, who appointed an arbitration committee last week. The committee has been unable to make headway toward a settlement.

At New Orleans, a union spokesman hinted at action tomorrow against New Orleans distributors who cut the wholesale price of milk from $8.75 per hundredweight to $5.20. Two AFL-affiliated unions—dairy employes and teamsters—struck against the reduction March 24.

There were four indictments, five persons being named on all counts. Twenty others were charged with wilfully and knowingly retarding the passage of the mail.

## *E. G. Johnston Named To Association Office*

Dr. Edgar G. Johnston, assistant director of the Bureau of Cooperation with Educational Institutions has been named secretary of the Commission on Secondary Schools of the North Central Association of Colleges and Secondary Schools.

The association includes the colleges and high schools of 20 states with about 3,000 accredited high schools. The commission with which Prof. Johnston will work is concerned with the problems of these schools and their relations with colleges and with the association.
