SPIRITED PRACTICE

Scrub Tears up Varsity but Neither Side Scores.

The practice of yesterday showed a marked improvement over that of the day before, especially in the use of the signals. Then, too, there was encouragement for the coaches in the added number of candidates. Four elevens were practicing at one time with a few men to spare. This approaches more nearly the number of candidates that the past few years have each brought out. But still it is not as large as it should be, taking into consideration the fact that there never was a better chance for a new man to make the team. For thus far the only members of last year's Varsity who are out daily to practice are White, McLean, Steckle and McDonald. The other men who earned their M last season and who are in college but not expecting to be out are Avery, Talcott and Street. The new material of this fall is mostly green, few of the men having had much experience.

The Varsity and first scrub lined up as follows for brisk practice, mostly in line bucking:

VARSITY.		SCRUB.
Juttner	l. t.	Potter
Barkabus	l. g.	Oversmith
Carmody	c.	Kramer
White	l. e.	Brown
Siegmond	r. g.	Howell
Wilson	r. t.	Durant
Johnson	r. e.	Richardson
Gardner	q.	Day
McLean	l. h.	Shepherd
Keena	r. h.	Newberry
Sweeley	f. b.	Weeks

The scrub kicked off and unable to gain, the Varsity attempted a kick which was blocked, the scrub securing the ball on their opponents' 30-yard line. From there they carried it in a few rushes to within the Varsity's 5-yard line, where the latter took a brace and held for downs. This was the nearest either side came to scoring. The old U. of M. yell was given several times during this spirited bit of playing. The ball remained near the center of the field mostly in the scrubs' possession for the remainder of the play. The only other occurrence worthy of note was a run for a gain of about thirty yards by Sweeley, who comes from Sioux City, Iowa, where he played on his High School team.

Kelley, of Missouri, is a new man who made his first appearance yesterday. He tips the scales at 225 pounds and his weight is well placed, but he knows little or nothing of the game. He spent the time yesterday in watching the play of the guards for which position he is a candidate. Later he was given a chance in the line-up and for a man who is totally inexperienced and ignorant of the signals, he held his end up well. In the person of Scott, who has played on the Yale-Harvard school team of Chicago, also on that of Highland Park Military Academy, the coaches have another candidate for quarter-back. Brown, of Northwestern Military Academy, is another man who appeared for the first time yesterday. He did not play because his shoes were without cleets.

As the Notre Dame game will be played here instead of at Grand Rapids, the student body will be given an opportunity to see a close contest on the home grounds. Notre Dame has been making strenuous efforts to build up a good team for her games with Chicago, Michigan, Indiana and Northwestern, which all come in October, and as a result of those efforts several South Bend men, who played last year on the Commercial Athletic team, which defeated the C. A. A., D. A. C. and Indianapolis Light Artillery teams, have decided to "go out to college and take a course." Hanley, tackle, Wagner, half-back, and Duncan, full-back, are the names of men whom Notre Dame expected to play in her game yesterday with Englewood High.

The New Ann Arbor Golf Club.

Golf now promises to become one of the leading sports of the University. A club was organized at the close of year before last. It kept up its existence last year and attached some few new men to itself. But its merbership remained confined largely to a few zealously devoted enthusiasts. But through the interest of Prof. Wenley and a few others the club kept up the game.

With the opening of the college year golf enthusiasm seems to have become quite widespread. A largely attended meeting was held at the residence of J. E. Beal. Over eighty of those present gave in their names for the new club. Both Ann Arbor citizens and University students were present. The new organization is to be called "The Ann Arbor Golf Club." It is planned to build a club house as soon as arrangements can be perfected. A committee to secure incorporation was named as follows: Prof. Wenley, Prof. Taylor, Dr. Trowbridge, L. P. Jocelyn, J. E. Beal, D. Zimmerman, and Roger Morris.

The DAILY will be free this week.

Women Join the Association.

The women of the University are showing an unusually large interest in athletic matters this fall, and are joining the Athletic Association in much greater numbers than ever before. Not only are the women who are students in the University buying tickets, but the Faculty ladies also are displaying their interest by becoming members of the Association. From five to ten members of every sorority in college have already purchased tickets and also a number of the independent girls. Last year there were only fifteen members of the Association who were women. These were Dr. Mosher, Mrs. Dr. Lombard, Misses Harter, Tray, Randolph, Leonard, Sherman, Burdsall, Horton, Rinkle, Morris, Pierce, and three other ladies whose names were not recorded. The large increase in the number of women who are joining this year is very gratifying to the athletic management.

Those who have been selling tickets during the week report that the men are a little slow in buying tickets and seem to be holding back until the arrival of the new buttons. These are expected to arrive this morning from Chicago and can be procured by presenting the ticket at Wilder's Pharmacy on State st. A large number of the buttons will be in the shape of stick pins, which will be more convenient for the women members to wear.

No Postoffice Rushes This Year.

Postmaster Pond hopes that the change in the arrangement of the postoffice will avoid the evening rushes which took place in the old building. As he is not compelled to have an evening delivery he will discontinue it if it cannot be made without disorder. He said yesterday:

The very first time the students start a rush down go the windows. One inspector was here the other evening and wanted me to do away with the evening mail delivery at the windows. The only reason I keep it up is for an accommodation to students and those who live in the resident districts."

'99 Mortar to be Mounted.

The Spanish mortar left as a memorial by the class of '99 is lying on the ground beside the flag staff. The committee is anxious to have it mounted and work on the mortar-bed will be commenced as soon as Prof. M. E. Cooley has completed the plans. The location is not yet definitely decided upon, but will probably be in the front of the library.

Wireless Telegraphy.

On Saturday evening of this week Dr. Augustus Trowbridge will speak before the Engineering Society on "Wireless Telegraphy," illustrating his talk with numerous experiments. The society meetings are open and every one at all interested in this new departure in electricity is cordially invited to attend the address. Dr. Trowbridge set up the first apparatus for telegraphing without wires at the University of Michigan last year. Since then he has perfected it to quite an extent, and now exhibits it for the first time this year.

After the address the regular business meeting of the society will be held, during which the semi-annual election of officers will take place. Only members whose dues are paid will be permitted to vote or hold office. The meeting will be held in the Physical Laboratory Lecture Room at 8 o'clock.

SENIORS' NOTICE.

The senior literary class will hold a meeting in Room C, on Monday, March 5, at 4:15 p. m., for the purpose of electing a class prophetess.

By order of the President.

CAP AND GOWN ORDERS.

Orders for caps and gowns will be taken every afternoon from 4 to 5 in Room C.
